

Roaring Rockets

Amazing Machines: Roaring Rockets by Tony Mitton and Ant Parker Rockets have power. They rise and roar. This rocket's waiting, ready to soar. Rockets carry astronauts with cool, white suits oxygen helmets and gravity boots. Blast off with more out-of-this-world couplets! This time it is machines that fly. In bright and bold illustrations that are as witty as the text, the animal crew roars and whizzes into outer space.

When JJ Rabbit goes in search of adventure, Mole, Squirrel, Owl and Badger are never far behind!

Introduces readers to the animals of the African Savannah with rhyming text and illustrations.

Buzz Lightyear, Sheriff Woody, and Rex from Disney/Pixar Toy Story set off on an all-new adventure in this original Little Golden Book that is perfect for boys and girls ages 2-5. Rhyming text and illustrations describe different kinds of cars, including fast cars, police cars, taxis, and convertibles.

A #1 New York Times bestseller "This little mouse may well inspire some big dreams." —Kirkus Reviews "In this picture book based on the space shuttle Endeavor...Meteor is one of the smallest mice, but the most hardworking...the values of being small, useful, solving problems, and working hard—as opposed to being big and strong—will inspire young readers." —School Library Journal "Inspired by this real-life mouse, Kelly's first children's book tells the story of Meteor, a lightly anthropomorphized rodent who turns his tininess into an advantage when an important key gets stuck in a crack between two monitors...textured images and vivid portraits that make it absolutely clear that space travel is a larger-than-life adventure." —Publishers Weekly A heartwarming picture book tale of the power of the small, from bestselling author and retired NASA astronaut Commander Mark Kelly. Astronaut Mark Kelly flew with "mice-tronauts" on his first spaceflight aboard space shuttle Endeavour in 2001. Mousetronaut tells the story of a small mouse that wants nothing more than to travel to outer space. The little mouse works as hard as the bigger mice to show readiness for the mission . . . and is chosen for the flight! While in space, the astronauts are busy with their mission when disaster strikes—and only the smallest member of the crew can save the day. With lively illustrations by award-winning artist C. F. Payne, Mousetronaut is a charming tale of perseverance, courage, and the importance of the small!

Follows an astronaut and his dog as they travel through Rocket Town looking for the perfect rocket. On board pages.

Learn to read with this New York Times-bestselling picture book, starring an irresistible dog named Rocket and his teacher, a little yellow bird. Follow along as Rocket masters the alphabet, sounds out words, and finally . . . learns to read all on his own! With a story that makes reading fun—and will even help listeners learn to read—this book is ideal for kindergarten classrooms and story hour or as a gift for that beginning reader. Fresh, charming art by Tad Hills, the New York Times bestselling author/illustrator of Duck & Goose, will make this a favorite. And don't miss the instant #1 New York Times Bestseller, Rocket Writes a Story.

3...2...1... KAA-BOOM! Edward blasts into space on a magical tour of the Milky Way with meteor showers, asteroids, and aliens. This brightly illustrated adventure is one you definitely won't forget!

When a group of aliens crash-lands in the jungle, they stumble across the biggest stash of underpants ever, but the oversized owners of the underwear won't let them go without a fight.

A picture book that allows young children to trek through the South American rain forest to meet some of the amazing animals.

The author traces the boyhood enthusiasm for rockets that eventually led to a career at NASA, describing how he built model rockets in the family garage in West Virginia, inspired by the launch of the Soviet satellite Sputnik. Reprint.

Get ready for blast-off to learn all about rockets! Roaring Rockets follows the animal crew as they become astronauts heading to the Moon. Each page is filled with details that machine-mad kids will love: spacesuits, oxygen helmets, the lunar lander, and much more!

Come on a fantastic adventure to the moon and deep into space! This exciting book is full of amazing astronauts and super space vehicles. Discover a different vehicle on each page, from rockets and moon buggies, to robot rovers, satellites and more. With bright, bold illustrations and fun, rhyming text, this is perfect for sharing and reading aloud. Little ones will love spotting all the details on each page and joining in with the lively text; as rockets 'zoom' and satellites 'whizz!' From the creators of the bestselling Dig Dig Digging. Rockets roar and soar, but you can write, color, and draw in your Amazing Machines activity book - and build your very own rocket too! For fans of the bestselling Amazing Machines series, this activity book is perfect for young children to practice important early learning skills such as counting, writing, drawing, matching, and hand-eye coordination. And each page features one or more of their favorite Amazing Machines rockets!

Where am I in the solar system? A beloved bestseller, now refreshed with new art from Christine Gore, that will help children discover their place in the Milky Way. Where is the earth? Where is the sun? Where are the stars? Now with new art by Christine Gore, here is an out-of-this world introduction to the universe for children. With Earth as a starting point, a young astronaut leads readers on a tour past each planet and on to the stars, answering simple questions about our solar system. In clear language, drawings, and diagrams, space unfolds before a child's eyes. Colorful illustrations, filled with fun detail, give children a lot to look for on every page, and a glossary helps reinforce new words and concepts. A terrific teaching tool, Me and My Place in Space is an easy and enjoyable way to introduce the concept of space to budding astronomers.

Blending fact and fiction, the amazing story of an abandoned puppy from Moscow who grew to be a Russian space program pioneer as Earth's first space traveler is presented in comic-style illustrations. Original.

When stars begin to twinkle in the night sky, it's time for an outer-space lullaby. A perfect bedtime read to celebrate the 50th anniversary of the moon landing! Rocket-bye, Baby, up to the moon. Nighttime is falling; sleep will come soon. We'll climb in the spaceship and that's where we'll stay, snuggled up close as we're carried away. . . . Join a mother and her baby as they fly in their own little rocket through a star-filled night sky, past constellations and meteor showers, in this dreamy good-night book. A gentle rhyme and beautiful artwork of stars and planets and mother and child make this a perfect good-night book when the stars come out.

Have fun listening to amazing airplanes on the go!

Clean air is essential for all living creatures—plants, animals, and people—to live healthy lives. Every Breath We Take is a positive, life-affirming look at clean air, with a subtle message about how air can be dirtied—and how it can be cleaned up. Photographs of beautiful children around the world exploring air through touch, smell, sound, and sight underscore the importance of clean air to all life on earth. This is science that surrounds us. The first step to cherishing something is recognizing its importance and understanding why it is necessary. A portion of the proceeds from the sales of this book will be donated to Moms Clean Air Force, a national movement of over a half million moms, dads, and grandparents who are protecting the right of every child to breathe clean air.

Flashing Fire Engines follows the animal crew as they become fire fighters. Climb on board the fire truck, ride along, and learn how to put out fires to save the day! Every page of this chunky board book is full of the kind of detail that machine-mad toddlers love: the fireman's pole, the siren, the long ladder, and much more! From airplanes to fire engines, the internationally bestselling Amazing Machines series is the perfect way for children to learn about all sorts of vehicles! Each book introduces a new vehicle and the many jobs it can do. Bright, engaging artwork and simple, rhyming text combine to make these fantastic books for young children. Kids will love getting to know the friendly, animal characters who feature throughout the series and reading about their fast-paced adventures!

Join Cogz the Robot Dog and discover all about how space machines work, in this bright and fun STEM title. Cogz and his mice sidekicks, Nutty and Bolt, guide the reader through the workings of a rocket, looking closely at all the different parts and discovering information about real space missions and the spacecraft involved, including the Mars Rover and Apollo missions. Covering key STEM themes of engineering, physics, and inventions, and with a fun quiz to test young readers' knowledge, this book will get kids engaged and hands-on with learning. Perfect for vehicle-mad pre-schoolers, the Clever Cogz series lets young readers discover different vehicles, from space rockets to racing cars. Bite-sized text and colourful, informative illustrations introduce the transport topics in a simple, engaging way for young readers with a passion for machines.

Blast off for adventure! Kids will have fun with these out-of-this-world activities that range from word searches and mazes to connect the dots and other puzzles! They can find a pathway through the stars, solve cosmic crosswords, spot the differences between space robots, and more. Solutions appear at the end, and the playful drawings are great for coloring, too.

Wilson helps tow trainloads of ice cream to the fair, and visits the ice cream factory with his friend Frostini to discover how it is made.

This lively story captures George's adventure of becoming the first space monkey from the classic Curious George Gets a Medal.

A simple explanation of how space rockets work, where they travel, and what they do.

Rainy summer days are no match for a little astronaut who builds the perfect rocket ship for an indoor space adventure to another galaxy, where the sky is his only limit! A stormy afternoon and an order from Mom to stay inside are no match for this little dreamer, who uses everyday household items—a rocket chair, a cardboard box, an old dish rag, and a super-duper imagination—to whip up a trip around the universe he won't soon forget. My Rainy Day Rocket Ship is a high-spirited, engaging salute to the imagination of Black boys who use their beautiful minds to transform the mundane into the extraordinary, dream out loud, and boldly go where their sky is the only limit.

A countdown from twelve to one as a space shuttle awaits liftoff. Readers are invited to find hidden numbers on an illustrated activity page.

Imagine being an astronaut and going to the Moon. Zoom! Up you go in a rocket. Boing! You can jump really far on the Moon! Brrrrm... Explore in a space buggy until it's time to go home. A sweet very first book about going to the Moon.

A brand-new storybook in the perennially popular Amazing Machines series from Tony Mitton and Ant Parker - over 1 million copies sold to date! Turn on the siren and zoom down the streets with some animal paramedics in Awesome Ambulances, an action-packed picture book all about ambulances. Lively wordplay, vibrant art, plus a visual dictionary, make this title a must-have for bookshelves everywhere. This book is filled with humorous rhyming text by the award-winning poet Tony Mitton, which perfectly complements Ant Parker's bold, bright illustrations. A picture dictionary identifying ambulance parts builds vocabulary and makes learning about ambulances exciting and fun.

3 ... 2 ... 1 ... LIFT OFF. Let science-mad chatterbox Rocket launch into your hearts in this inspiring picture book from two incredible debut talents. Rocket's going to be the greatest astronaut, star-catcher, space-traveller that has ever lived! But... First, she needs to convince her big brother Jamal to stop looking down at his phone and start LOOKING UP at the stars. ---- Bursting with energy and passion about space and the natural world, this heart-warming picture book will reignite your desire to turn off those screens and switch on to the outside world.

Discover the mysteries of science with Future Geniuses! Come along with Valentina, the astronaut, on this incredible journey to Mars and become a space genius! Up past the exosphere, thermosphere, and mesosphere, we will find outer space and learn the answers to some big questions. What is the ozone layer? What is gravity? Which countries have successfully traveled into space? What are the parts of rockets called, and what does each part do? What is space like? Future Geniuses is a collection that will help families spend a lot of time reading and learning together. Through simple text and fun

illustrations, author and scientist Carlos Pazos makes the subjects of space and space travel approachable and easy to understand for even the smallest scientists.

New York Times bestselling psychologist Dr. Meg Jay uses real stories from real lives to provide smart, compassionate, and constructive advice about the crucial (and difficult) years we cannot afford to miss. Our "thirty-is-the-new-twenty" culture tells us the twentysomething years don't matter. Some say they are a second adolescence. Others call them an emerging adulthood. Dr. Meg Jay, a clinical psychologist, argues that twentysomethings have been caught in a swirl of hype and misinformation, much of which has trivialized what is actually the most defining decade of adulthood. Drawing from almost two decades of work with hundreds of clients and students, *The Defining Decade* weaves the latest science of the twentysomething years with the behind-closed-doors stories from twentysomethings, themselves. The result is a provocative read that provides the tools necessary to make the most of your twenties, and shows us how work, relationships, personality, social networks, identity, and even the brain can change more during this decade than at any other time in adulthood—if we use the time wisely. *The Defining Decade* is a smart, compassionate and constructive book about the years we cannot afford to miss.

Diggers are noisy, strong, and big. Diggers can carry and push and dig. Diggers have shovels to scoop and lift, blades that bulldoze, shunt, and shift. Sloshing and squelching, and smashing and bashing, the construction machinery does its work - manned by a friendly animal gang - in this lively story now in an attractive board book format perfect for small hands. Young children will adore it as will the adults who get to read aloud these irresistible rhymes!

Get ready for blast-off to learn all about rockets! *Roaring Rockets* follows the animal crew as they become astronauts heading to the Moon. Each page is filled with details that machine-mad kids will love: spacesuits, oxygen helmets, the lunar lander, and much more! From airplanes to fire engines, the internationally bestselling *Amazing Machines* series is the perfect way for children to learn about all sorts of vehicles! Each book introduces a new vehicle and the many jobs it can do. Bright, engaging artwork and simple, rhyming text combine to make these fantastic books for young children. Kids will love getting to know the friendly, animal characters who feature throughout the series and reading about their fast-paced adventures!

Rockets they have power. They rise and roar. This rocket's waiting, ready to soar. Zoom to the moon with a crazy crew of astronauts in this sparkling picture book. Zippy wordplay, zappy art, plus a picture dictionary make learning about space travel fun!
