Due to the critical thinking of the Enlightenment and to political changes, Christianity in Europe has lost its central position in society. Werner Ustorf, for nearly thirty years one of the leading missiologists world-wide, not only analyses the interaction of mission and individual, the construction of Self and Other in the context of mission. He also proves the analytic strength of theology in order to conceptualise the future of the Christian experience in Europe. Ustorf shows that apart from the primal dimension of faith even in a traditional way, the validity of non-religious interpretation, and critical trust in transcendence will be the core-elements of the new interculturalisation of Christianity in Europe.

Stephen G. Walker, Akan Malici, and Mark Schafer present a definitive, social-psychological approach to integrating theories of foreign policy analysis and international relations—addressing the agent-centered, micro-political study of decisions by leaders and the structure-oriented, macro-political study of state interactions as a complex adaptive system. The links between the internal world of beliefs and the external world of events provide the strategic setting in which states collide and leaders decide. The first part of this ground-breaking book establishes the theoretical framework of neobehavioral IR, setting the stage for the remainder of the work to apply the framework to pressing issues in world politics. Through these applications students can see how a game-theoretic logic can combine with the operational code research program to innovatively combine levels of analysis. The authors employ binary role theory to demonstrate that relying only on a state-systemic level or an individual-decision making level of analysis leads to an incomplete picture of how leaders steer their ships of state through the hazards of international crises to establish stable relations of cooperation or conflict.

Robinson Crusoe was first published in 1719 and credited Crusoe as the author, so readers believed that he was a real person. Shipwrecked, Crusoe spends 30 years on a remote tropical island before being

rescued. It is thought to be one of the first novels in the realistic style and was well received from its first publication. The inspiration for Crusoe himself was believed to be Alexander Selkirk, a Scot who was shipwrecked for four years on a Pacific island that is now part of Chile.

The Farther Adventures of Robinson Crusoe (now more commonly rendered as The Further Adventures of Robinson Crusoe) is a novel by Daniel Defoe, first published in 1719. Like its significantly more popular predecessor, The Life and Strange Surprising Adventures of Robinson Crusoe (1719), the first edition credits the work's fictional protagonist Robinson Crusoe as its author. It was published under the considerably longer original title: The Farther Adventures of Robinson Crusoe; Being the Second and Last Part of His Life, And of the Strange Surprising Accounts of his Travels Round three Parts of the Globe. Although intended to be the last Crusoe tale, the novel is followed by a non-fiction book involving Crusoe by Defoe entitled Serious Reflections During the Life and Surprising Adventures of Robinson Crusoe: With his Vision of the Angelick World (1720). The story is speculated to be partially based on Moscow embassy secretary Adam Brand's journal detailing the embassy's journey from Moscow to Peking from 1693 to 1695. The book starts with the statement about Crusoe's marriage in England. He bought a little farm in Bedford and had three children: two sons and one daughter. Our hero suffered a distemper and a desire to see "his island." He could talk of nothing else, and one can imagine that no one took his stories seriously, except his wife. She told him, in tears, "I will go with you, but I won't leave you." But in the middle of this felicity, Providence unhinged him at once, with the loss of his wife.

Stunning illustrations and comprehension activities throughout the book aid students' understanding and encourage independent learning. With the same electrical intensity of language and insight that he brought to *Waiting for the Barbarians*, J.M. Coetzee reinvents the story of Robinson Crusoe—and in so doing, directs our attention to the seduction and tyranny of storytelling itself. J.M. Coetzee's latest novel, *The Schooldays of Jesus*, is now available from Viking. *Late Essays: 2006-2016* will be available January 2018. In September 2007, more than 100 philosophers came to Prague with the determination to approach Karl Popper's philosophy as a source of inspiration in many areas of our intellectual endeavor. This volume is a result of that effort. Topics cover Popper's views on rationality, scientific methodology, the evolution of knowledge and democracy; and since Popper's philosophy has always had a strong interdisciplinary influence, part of the volume discusses the impact of his ideas in such areas as education, economics, psychology, biology, or ethics. The concept of falsification, the problem of demarcation, the ban on induction, or the role of the empirical basis, along with the provocative parallels between historicism, holism and totalitarianism, have always caused controversies. The aim of this volume is not to smooth them but show them as a challenge. In this time when the traditional role of reason in the Western thought is being undermined, Popper's non-foundationist model of reason brings the Enlightenment message into a new perspective. Popper believed that the open society was vulnerable, due precisely to its tolerance of otherness. This is a matter of great urgency in the modern world, as cultures based on different values gain prominence. The processes related to the extending of the EU, or the increasing economic globalization also raise questions about openness and democracy. The volume's aim is to show the vitality of critical rationalism in addressing and responding to the problems of this time and this world.

Michel Tournier defines the supreme mission of a writer to be the creation of a mythology which allows for interaction with his readers, who seem to be losing their critical faculties in our contemporary, postmodern world dominated by consumption and dizzying technological

advances. Our contemporary society has changed due to the end of the modern era with its reigning ideologies. Collapsing after the atrocities of the Second World War, Modernity and the artistic and literary reactions referred to as modernism, have likewise been transformed. Myth continues to represent the collectivity of human existence, yet, in the short stories and novels of Michel Tournier, myth represents the collapse of the all-encompassing ideologies inherent to the Modern era. The grand narratives of Modernity such as Christianity and Man's reason have been deconstructed in the postmodern era. The mythology of Michel Tournier expresses these trends towards the dissolution of Modernity and creates individual, mini narratives which emphasize the particularity of individual existence. Tournier takes established mythical models rooted in Christianity, fables and legends of Western Civilization and re-contextualizes them. Through a semiotic reworking of core binary pairs of a myth, Tournier creates a third-order level of representation which modifies the mythical model. The works of *le Roi des Aulnes*, *Gilles et Jeanne*, and *Vendredi* are illustrious of this third-order level of signification. According to Ferdinand de Saussure, Roland Barthes and Claude Lévi-Strauss, the structural make-up of myth transforms established meanings according to the dominant cultural code. Barthes' semiological study of myth reveals the levels of representation through which myth creates meaning. Myth builds upon the denotative first-order level of language and through a connotative process, creates a second-order level. This connotative process does not end on this second-order, for in the writings of Tournier, this semiological process is continued to a third-order which re-contextualizes the myth again. Tournier adapts myth to the unique traits of the postmodern era including deconstruction and playfulness by allowing the reader to provide the context of the story. As such we, the reader, take the place as author of our own individual mythology.
