The Cambridge Companion to Beethoven Glenn Stanley, 2000-05-11 This Companion, first published in 2000, provides a comprehensive view of Beethoven and his work. The first part of the book presents the composer as a private individual, as a professional, and at the work-place, discussing biographical problems, Beethoven's professional activities when not composing and his methods as a composer. In the heart of the book, individual chapters are devoted to all the major genres cultivated by Beethoven and to the elements of style and structure that cross all genres. The book concludes by looking at the ways that Beethoven and his music have been interpreted by performers, writers on music, and in the arts, literature, and philosophy. The essays in this volume, written by leading Beethoven specialists, maintain traditional emphases in Beethoven studies while incorporating other developments in musicology and theory.

Bach to Brahms David Beach, Yosef Goldenberg, 2015 Presents current analytic views by established scholars of the traditional tonal repertoire, with essays on works by Bach, Handel, Haydn, Mozart, Beethoven, Schubert, Chopin, and Brahms. *Bach to Brahms* presents current analytic views on the traditional tonal repertoire, with essays on works by Bach, Handel, Haydn, Mozart, Beethoven, Schubert, Chopin, and Brahms. The fifteen essays, written by well-established scholars of this repertoire, are divided into three groups, two of which focus primarily on elements of musical design (formal, metric, and tonal organization) and voice leading at multiple levels of structure. The third group of essays focuses on musical motives from different perspectives. The result is a volume of integrated studies on the music of the common-practice period, a body of music that remains at the core of modern concert and classroom repertoire. Contributors: Eytan Agmon, David Beach, Charles Burkhart, L. Poundie Burstein, Yosef Goldenberg, Timothy L. Jackson, William Kinderman, Joel Lester, Boyd Pomeroy, John Rink, Frank Samarotto, Lauri Suurpää, Naphtali Wagner, Eric Wen, Channan Willner. David Beach is professor emeritus and former dean of the Faculty of Music, University of Toronto. Yosef Goldenberg teaches at the Hebrew University of Jerusalem and at the Jerusalem Academy of Music and Dance, where he also serves as head librarian.

Schenker Studies Hedi Siegel,1990-02-23 The essays contained in this volume provide a focus on the work of the music theorist Heinrich Schenker - a figure of legendary status who has had an incalculable influence on developments in music theory and analysis in this century. His theories, not always fully understood, have aroused some controversy. The broad spectrum of essays presented here will help clarify Schenker's ideas and their application and will also serve as a useful introduction to his work for music theorists. The essays, written by fourteen leading theorists, originate in papers delivered at the Schenker Symposium held at The Mannes College of Music, New York in 1985.
