**Sacred Science** R. A. Schwaller de Lubicz,1982

*Sacred Science* R. A. Schwaller de Lubicz,1982-04-01 R. A. Schwaller de Lubicz (1887-1961), one of the most important Egyptologists of this century, links the sacred science of the Ancients to its rediscovery in our own time. Sacred Science represents the first major breakthrough in understanding ancient Egypt and identifies Egypt, not Greece, as the cradle of Western thought, theology, and science.

*The Temple in Man* R. A. Schwaller de Lubicz,1981-11-01 This book contains the first published results of Schwaller's 12 years of research at the temple of Luxor and its implications for interpreting the symbolic and mathematical processes of the Egyptians through their sacred architecture.

*Symbol and the Symbolic* R. A. Schwaller de Lubicz,1978

*Serpent in the Sky* John Anthony West,2012-12-19 John Anthony West's revolutionary reinterpretation of the civilization of Egypt challenges all that has been accepted as dogma concerning Ancient Egypt. In this pioneering study West documents that: Hieroglyphs carry hermetic messages that convey the subtler realities of the Sacred Science of the Pharaohs. Egyptian science, medicine, mathematics, and astronomy were more sophisticated than most modern Egyptologists acknowledge. Egyptian knowledge of the universe was a legacy from a highly sophisticated civilization that flourished thousands of years ago. The great Sphinx represents geological proof that such a civilization existed. This revised edition includes a new introduction linking Egyptian spiritual science with the perennial wisdom tradition and an appendix updating West's work in redating the Sphinx. Illustrated with over 140 photographs and line drawings.

*Who Is This King of Glory?* Alvin Boyd Kuhn,2007-09 This book reveals that much of Christianity and its beliefs had originated in ancient Egypt rather than the Middle East. The author presents us with how, where and why many spiritual Egyptian beliefs were adopted into Christian form and accepted as history, as opposed to being carried over in their original mythological form. Kuhn states, The gospels are not and never were histories. They are now proven to have been cryptic dramas of the spiritual evolution of humanity and of the history of the human soul in its earthly tabernacle of flesh. For Christianity to be expressed in the way it was first intended, as experienced during the first two centuries of its existence, one must first acknowledge its pagan roots. This is too much of a leap for most people, but they have not read this book. The

author reveals how things were altered in the third century by the existing priesthood and why.

**Nature Word** R. A. Schwaller de Lubicz, 1985-06-01 The first part of the book, written in a single, uninterrupted flow of inspiration, takes the form of answers from the word of nature to questions posed by the rational mind. The second part of the book consists of philosophical reflections on the first and proposes the practice of imagination as a way of evolutionary development. Many traditions have spoken of a higher consciousness, but Schwaller de Lubicz's attempt to formulate in modern terms an alchemical science of qualities, functions, analogies and signatures is unique.

**The Mystic Phyles: Beasts** Stephanie Brockway, 2011-07-01 Abigail Thaddeus is aware of her borderline geek status-- which only keeps her secretly yearning for a life of fame and adventure. But as an eighth-grader in the tiny town of Westbrook, tucked away in her grandparents' ramshackle old mansion, her chances for glory are slim. That is, until she discovers a mysterious letter that launches her on an undercover quest to research mythical beasts. With the help of her best friend, Charley, Abigail unearths little-known facts about mythical creatures, from the familiar unicorn to the bizarre bonnacon. The more she learns, the more she finds that all is not as it may seem. When a threatening letter arrives, the lines between fact and fiction and excitement and danger begin to cross. Pop, her overly-strict grandfather, and Ninny, her nutty grandmother, may both be part of a reality more complicated and mystical than Abigail ever imagined. Will Abigail pursue top-secret knowledge at all costs or choose a path of safety? Her decision could bring eternal glory . . . or certain doom! In this scrapbook-style journal, Abigail's quest to investigate mythical beasts is full of adventure, mishap, spunky humor, colorful sketches, and historically based research.

**Angels, Demons & Gods of the New Millennium** Lon Milo DuQuette, 1997-01-15 A delightfully entertaining liberal arts education in Western Hermeticism with one of America's most knowledgeable and engaging authorities! Each chapter is a self-contained monograph on one of 7 topics critical to understanding modern magick.

**The Mexican Earth** Todd Downing, 2012-04-01

**Dancing with the Devil** Mark Curry, 2009 He has recorded with the biggest stars in the music business. He wrote many of the hits that made Sean Puffy Combs one of the richest men alive. On the surface, the multi-million dollar empire that Puff built looks like the stuff of dreams. But after working with Puff for a decade, Curry discovered that Bad Boy Entertainment is not, as Puff promised, a place where dreams come true. No, rather it is a shell game comprised of contracts designed to rob artists of their time, dreams and publishing rights. [i]Dancing With the Devil[/i] reveals startling new details about key events in the fast paced, controversial (and sometimes deadly) world of Hip-Hop. In revealing the dark side of the industry, Curry hopes to provide a road map for reforms necessary to prevent artists ending up in poverty, in prison or in the grave. Mark Curry has appeared on the following albums: [i]Gangsta Shi-[/i] [i]Dangerous MC's[/i] [i]American Dream[/i] Mark Curry has appeared on the following singles: [i]Bad Boy for Life[/i]

**Ancient Egyptian Medicine** John Francis Nunn,1996 The skills of the ancient Egyptians in preserving bodies through mummification are well known, but their expertise in the everyday medical practices needed to treat the living is less familiar and often misinterpreted. John F. Nunn draws on his own experience as an eminent doctor of medicine and an Egyptologist to reassess the evidence. He has translated and reviewed the original Egyptian medical papyri and has reconsidered other sources of information, including skeletons, mummies, statues, tomb paintings and coffins. Illustrations highlight symptoms of similar conditions in patients ancient and modern, and the criteria by which the Egyptian doctors made their diagnoses - many still valid today - are evaluated in the light of current medical knowledge. In addition, an appendix listing all known named doctors contains previously unpublished additions from newly translated texts. Spells and incantations and the relationship of magic and religion to medical practice are also explored. Incorporating the most recent insights of modern medicine and Egyptology, the result is the most comprehensive and authoritative general book to be published on this fascinating subject for many years.

**Medieval Self-Coronations** Jaume Aurell i Cardona,Jaume Aurell,2020-06-11 The first systematic study of the practice of royal self-coronations from late antiquity to the present.

**Woman, Church and State** Matilda Joslyn Gage,1893

*Star Myths of the World, Volume Three* David Warner Mathisen,2016-08-03 Complete guide to the system of celestial metaphor which forms the foundation for the stories of the Old and New Testaments of the Bible. Sometimes called Astrotheology, the study of the evidence that the scriptures, myths, and sacred traditions all employ celestial metaphor (using stars, constellations, planets, etc) to convey esoteric truths.

Before the Pharaohs Edward F. Malkowski,2010-04-12 Presents conclusive evidence that ancient Egypt was originally the remnant of an earlier, highly sophisticated civilization • Supports earlier speculations based on myth and esoteric sources with scientific proof from the fields of genetics, engineering, and geology • Provides further proof of the connection between the Mayans and ancient Egyptians • Links the mystery of Cro-Magnon man to the rise and fall of this ancient civilization In the late nineteenth century, French explorer Augustus Le Plongeon, after years of research in Mexico's Yucatán Peninsula, concluded that the Mayan and Egyptian civilizations were related--as remnants of a once greater and highly sophisticated culture. The discoveries of modern researchers over the last two decades now support this once derided speculation with evidence revealing that the Sphinx is thousands of years older than Egyptologists have claimed, that the pyramids were not tombs but geomechanical power plants, and that the megaliths of the Nabta Playa reveal complex astronomical star maps that existed 4,000 years before conventional historians deemed such knowledge possible. Much of the past support for prehistoric civilization has relied on esoteric traditions and mythic narrative. Using hard scientific evidence from the fields of archaeology, genetics, engineering, and geology, as well as sacred and religious texts, Malkowski shows that these mythic

narratives are based on actual events and that a highly sophisticated civilization did once exist prior to those of Egypt and Sumer. Tying its cataclysmic fall to the mysterious disappearance of Cro-Magnon culture, *Before the Pharaohs* offers a compelling new view of humanity's past.

**The Shaman's Spirit** Mike Williams, 2013 The shaman is a visionary who has the ability to connect with nature and the spirit world, and to heal. Shamanism is increasingly popular today as we recognise its power to reaffirm our links with the natural world and bring us to greater awareness and spiritual fulfilment. Drawing on traditional ethnic as well as contemporary Western practice, this beautifully illustrated book reveals the ancient heart of shamanism and its continuing relevance for the way we live today. It contains practical exercises that anyone can perform. Part One, *Place*, explores sacred sites and landscapes - key places of spiritual power where we can tune into natural energy flow, through vision quests and medicine wheels. Part Two, *'Plant'*, looks at plants for healing and spiritual development, with reference to sacred cacti, the energies of trees, and herbs. Part Three, *'Animal'*, focuses on the role played by power animals - as spirit guides and intermediaries between worlds. Part Four, *'Ritual'*, explores traditional ways of finding your spirit power, including sacred dance, shape-shifting and sacred objects. Finally, Part Five, *'Spirit'*, offers powerful practices such as soul retrieval, divination and spiritual protection, describing how to work with these for spiritual growth and development.

Empire of Ancient Egypt Wendy Christensen, 2009 The great civilization that grew up around the Nile River had sophisticated irrigation systems that held back the desert, writing and record keeping that kept track of every event in the region, and some of the greatest architects and engineers the world

**Ancient Philosophy, Mystery, and Magic** Peter Kingsley, 2023 This study brings to light new evidence about ancient Pythagoreanism and its influence on Plato, as it reconstructs the esoteric transmission of Pythagorean ideas from ancient Greece, to the alchemists and magicians of Egypt, to the world of Islam.
