A biography of the young French girl who lived during the latter part of the nineteenth century and who received apparitions of the Blessed Mother. Includes a description of Lourdes today.

In the bestselling tradition of Brene Brown's *Daring Greatly* and Nick Vujicic's *Life Without Limits* comes a rousing 7-step plan for living a life on fire, filled with hope and possibility—from an inspirational speaker who survived a near-fatal fire at the age of nine and now runs a successful business inspiring people all around the world. When John O'Leary was nine years old, he was almost killed in a devastating house fire. With burns on one hundred percent of his body, O'Leary mustered an almost unimaginable amount of inner strength just to survive the ordeal. The insights he gained through this experience and the heroes who stepped into his life to help him through the journey—his family, the medical staff, and total strangers—changed his life. Now he is committed to living life to the fullest and inspiring others to do the same. An incredible and emotionally honest account of triumph over tragedy, *On Fire* contains O'Leary's reflections on being

that little boy, the life-giving choices made then, and the resulting lessons he learned. O'Leary very clearly shares that without the right people providing the right guidance, at the right time, he never would have made it through those five months in the hospital, let alone the years that followed as he struggled to regain mobility, embrace his story, and ignite clarity of his life's purpose. *On Fire* encourages us to seize the power to choose our path and transform our lives from mundane to extraordinary. Once we stop thinking solely on the big moments in our lives, we can begin to focus on those smaller opportunities that tend to pass us by. These are the events—the inflection points in our lives—that can determine how we feel about life now, where we are headed in the future, and how many lives we can impact along the way. We can't always choose the path we walk, but we can choose how we walk it. Empowering, inspiring, remarkably honest, and heartfelt, O'Leary's strength and incredible spirit shine through on every page.

In this comprehensive catalogue of the work of the 15th-century painter and draftsman, Stefano da Verona (1375-ca. 1438), Karet reviews past scholarship and corrects old misunderstandings that produced an inconsistent, heterogeneous and misinformed corpus. Her attributions are based on stylistic arguments, technical analysis, and the relationship of the drawings to a limited

number of secure paintings by this important Late Gothic North Italian painter. The restricted but sound body of works Stefano da Verona executed is compiled in rich catalogue entries that include discussions of style, iconography, patronage, paper and sketchbook analysis, important issues of workshop production and of the history of drawings and collectionism. Karet also transcribes and translates 15th-century Italian inscriptions and texts in various dialects found on the drawings. The catalogue includes a group of fully annotated rejected works that touch upon important issues involving drawings by Stefano's contemporaries. The author also reconstructs a sketchbook drafted by Stefano, one of the first artists to preserve his ideas in this way. Karet's Drawings of Stefano da Verona is a significant addition to the history of drawing in the important transitional decades from the Late Gothic to the Renaissance.

This book tells the intriguing and often colorful stories of the medical words we use. The origins of clinical and scientific terms can be found in Greek and Latin myths, in places such as jungles of Uganda and the islands of the Aegean Sea, in the names of medicine's giants such as Hippocrates and Osler, and in some truly unlikely sources. In this book you will learn the answers to questions such as: • What disease was named for an American space flight? • Do you know the echoic word for elephantine rumbling of the bowels? • What drug name was determined by drawing chemists' notes out of a hat? • What are surfer's eye, clam digger's itch, and hide porter's disease? This book can give you new insights into the terms we use every day in the clinic, hospital, and laboratory. Knowing a word's history assists in understanding not only what it means, but also some of the connotative subtleties of terms used in diagnosis and treatment. The Amazing Language of Medicine is intended for the enrichment of physicians, other health professionals, students, and anyone involved in clinical care and

In these homilies, most of which are previously unpublished, Joseph Ratzinger, now Pope Emeritus Benedict XVI, addresses the theme he has celebrated, pondered, and witnessed by his life more than any other: love. For him, love is the vital nucleus of the Church and to serve Christ is above all a question of love: "Peter, do you love me? Feed my sheep" (Jn 21:15–17). Love is also the quest of every human being on the journey toward eternity. He beautifully states, "Christianity is a movement, a journey; it is not a theory, a sum total of doctrine; Christianity is life, it is a vital impetus that carries us toward true life. . . . Someone who has found love can say: I have found life." Arranged by the liturgical seasons of the Church year, the homilies predate the author's pontificate. The earliest dates from 1970 while he was still a professor of theology. Thus, this collection traces the way Joseph Ratzinger has been enamored of the love of God throughout his years of serving the Church.

St. Anthony of Padua and Lisbon, one of Christianity's best loved saints, is a man of many titles: glory of the Franciscan order, star of sanctity, hammer of heretics, comforter of the afflicted, counselor of the erring, miracle worker. Who is the person behind the praise? How did the people of his time view the saint? St. Anthony: Words of Fire, Life of Light is a novelized biography of the life and times of St. Anthony. Madeline Pecora Nugent, SFO, makes an imaginative journey into the lives and souls of some of the many people who lived with, confided in, heeded, or defied the saint. In meeting those whose lives St. Anthony touched, the reader will come to understand and love the saint. Book jacket.

A book of modern mysticism about rediscovering the true meaning of faith and how to reclaim our spiritual wisdom. Light on Fire is the soulful exploration of one woman's journey to awakening and becoming a modern-day Christian mystic. It's a compassionate guide that will support others on the path to awakening by offering new insights and practical guidance on how to reconnect with our innate spirituality. In her search to understand her own spontaneous awakening, Aedamar discovered that awakening is a natural life process from which we have become estranged. In beautifully poetic language, and through accessible philosophy, Aedamar shares how and why we are designed to wake up, and to experience Divine Union, in the ordinary course of life. Waking up is what is now needed to heal ourselves and the deeply rooted traumas of Western society. Light on Fire concludes with 'The Path of Gold', Aedamar's seven-stage guide to awakening that offers a model for rediscovering Divine

The biographic text of St. Anthony is presented complete in this edition for the reader's absorption and contemplation. First published in the 4th century A.D., Anthony the Great's biography was authored by Christian Saint Athanasius of Alexandria. Since its

release, the book has helped spread the beliefs, practices and arduous faith of Anthony the Great. A significant progenitor of the monastic tradition, Saint Anthony lived an ascetic lifestyle in the arid lands of Egypt. Although not the earliest of religious figures committed to this tradition, through actions and preaching Anthony helped popularise and spread principles that would contribute heavily to the establishment of Christian monasteries in Europe and beyond. One event in St. Anthony's life was his encounter with the supernatural in the remote Egyptian desert. This occurrence, where the otherworldly presence tried to tempt him from his spartan philosophy of living, is much recreated in Western art and literature.

During the French Revolution, Saint Julie Billiart began her own revolution. With a good friend she opened schools for poor girls and founded the Sisters of Notre Dame, a religious community that departed from traditional ones. Although paralyzed for twenty-three years, she was consumed with zeal for teaching the faith to people who had been deprived of it for years. While suffering physically, persecuted by revolutionaries and clergy, and criticized by her own Sisters, Julie never failed to proclaim, "How good is the good God!" Remarkably, after a miraculous healing at the age of fifty-two, Julie made 120 journeys, often on foot, to found houses and schools in France and Belgium. Her entire life is nothing
