

Salmond On The Law Of Torts By R F V

Provides a detailed treatment of the law of torts, incorporating all recent developments in the law in this substantially revised edition.

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

"An account of the life and times of ... Sir John Salmond ... [a] study of the career and work of this influential legal philosopher and man of state traces the development of Salmond's principal ideas about law and their application to social and political problems of New Zealand in the first quarter of the twentieth century ... [his] judicial record is analysed and some leading cases discussed in detail"--Jacket.

Alex Salmond and Nicola Sturgeon's political partnership brought Scotland to within 200,000 votes of independence in 2014. Since the referendum, Scottish nationalism has been a movement on the up, but the relationship between the former First Minister and his protégé and successor has broken down. Break-Up tells the extraordinary story of how a thirty-year-old friendship was shattered after they found themselves on opposing sides of Scotland's first #MeToo case. The fallout drove a wedge through the once unbreakable unity of the Scottish National Party. Based on unrivalled access to the Sturgeon and Salmond camps and the women who made the allegations, the book tells of outlandish and inappropriate behaviour, as well as lies, distrust and alleged conspiracy at the heart of government, in a piece of political history that reads like a thriller. This is a story about friendship and betrayal. It is about power and how it can be used, abused and manipulated to protect those who live in fear of losing it.

Title on spine: The principles of jurisprudence.
