No other European city can claim to have experienced such division and togetherness as Berlin. This volume of essays attempts to address the question of the peculiar character of divided Berlin during the years of the Cold War - and connects the history of this embattled city with the over-all East-West conflict. A wide range of transatlantic contributors addresses Berlin as a global focal point of the Cold War, and also assess the geopolitical peculiarity of the city and how citizens dealt with it in everyday life - exploring not just the implications of division, but also the continuing entanglements and mutual perceptions which resulted from Berlin's unique status. Finally, the book then asks how these experiences were and are told: What identities did the division create, what narratives did it produce and how do they shape today's debates? Has the city managed to forge a common memory culture out of a divided past? An essential contribution to the study of Berlin in the 20th century, and the effects - global and local - of the Cold War on a city.

This comprehensive, heavily footnoted resource examines: (1) the historical development of the American Bar Association's four model judicial codes with an emphasis on the rules regulating the charitable, educational, religious, fraternal, civic, and law-related activities of judges; (2) the State's interests in restricting the extrajudicial activities of judges; (3) the strengths and weaknesses of rules governing a judge's off-bench activities; (4) how state and federal courts, judicial disciplinary commissions, and judicial ethics advisory committees have interpreted judicial conduct rules; (5) best practices for judges; and (6) the constitutionality of the restrictions on a judge's charitable, educational, religious, fraternal, civic, and law-related undertakings. From both a theoretical and practical standpoint, this book addresses the ethical implications of the everyday activities of judges. How far may a judge go in expressing personal opinions about social and legal issues? What are the limits on a judge's use of social media? Is it permissible for a judge to receive an award from a victim advocacy group? Do the rules

Published in 1817, The Doctrines and Discipline of the African Methodist Episcopal Church was the first definitive guide to the history, beliefs, teachings, and practices of the African Methodist Episcopal Church. Beginning with a brief history, the book moves into a presentation of the "Articles of Religion," including the Trinity, the Word of God, Resurrection, the Holy Spirit, scripture, original sin and free will, justification, works, the church, purgatory, the sacraments, baptism, the Lord's Supper, marriage, church ceremonies, and government. Immediately following the articles is an extended four-part catechism that more fully explicates the meanings and implications of the doctrinal statements. A DOCSOUTH BOOK.
