The Heritage of Arung Palakka Leonard Y. Andaya,2014-10-22 With the entrance of the European Union into the field of International Investment Law and Arbitration, a new specialist field of law, namely 'European Investment Law and Arbitration' is in the making. This new field of law draws on EU Law, Public International Law, International Investment Law, International Arbitration Law and Practice and International Economic Law, while others fields of law such as Energy Law are also relevant. The European Investment Law and Arbitration Review is the first law periodical specifically dedicated to the field of 'European Investment Law and Arbitration'. The timing could not be better. The first EU integrated investment treaties with Canada (CETA), US (TTIP) and Singapore (EU-SING) are either negotiated or about to be signed and ratified by the EU and its Member States. These are "integrated" investment treaties in that they combine free trade agreement provisions with international investment agreement norms. Moreover, the Court of Justice of the EU (CJEU) is about to deliver its first judgments and Opinions directly relating to intra-EU BITs and the EU-SING FTA. More generally, the public debate and discussions within academic and practitioner circles about the pros and cons of investor-state dispute settlement (ISDS) and investment treaties in general is intensifying almost on a daily basis. The Review will cover all these issues, but also goes beyond that by offering space for more innovative approaches and themes.

Black Skin, White Masks Frantz Fanon,2017 Black Skin, White Masks is a classic, devastating account of the dehumanising effects of colonisation experienced by black subjects living in a white world. First published in English in 1967, this book provides an unsurpassed study of the psychology of racism using scientific analysis and poetic grace.Franz Fanon identifies a devastating pathology at the heart of Western culture, a denial of difference, that persists to this day. A major influence on civil rights, anti-colonial, and black consciousness movements around the world, his writings speak to all who continue the struggle for political and cultural liberation.With an introduction by Paul Gilroy, author of There Ain't No Black in the Union Jack.

Breath James Nestor,2020-05-26 A New York Times Bestseller A Washington Post Notable Nonfiction Book of 2020 Named a Best Book of 2020 by NPR "A fascinating scientific, cultural, spiritual and evolutionary history of the way humans breathe—and how we've all been doing it wrong for a long, long time." —Elizabeth Gilbert, author of Big Magic and Eat Pray Love No matter what you eat, how much you exercise, how skinny or young or wise you are, none of it matters if you're not breathing properly. There is nothing more essential to our health and well-being than breathing: take air in, let it out, repeat twenty-five thousand times a day. Yet, as a species, humans have lost the ability to breathe correctly, with grave consequences. Journalist James Nestor travels the world to figure out what went wrong and how to fix it. The answers aren't found in pulmonology labs, as we might expect, but in the muddy digs of ancient burial sites, secret Soviet facilities, New

Jersey choir schools, and the smoggy streets of São Paulo. Nestor tracks down men and women exploring the hidden science behind ancient breathing practices like Pranayama, Sudarshan Kriya, and Tummo and teams up with pulmonary tinkerers to scientifically test long-held beliefs about how we breathe. Modern research is showing us that making even slight adjustments to the way we inhale and exhale can jump-start athletic performance; rejuvenate internal organs; halt snoring, asthma, and autoimmune disease; and even straighten scoliotic spines. None of this should be possible, and yet it is. Drawing on thousands of years of medical texts and recent cutting-edge studies in pulmonology, psychology, biochemistry, and human physiology, Breath turns the conventional wisdom of what we thought we knew about our most basic biological function on its head. You will never breathe the same again.
