This original and lucid account of the complexities of love and its essential role in human well-being draws on the latest scientific research. Three eminent psychiatrists tackle the difficult task of reconciling what artists and thinkers have known for thousands of years about the human heart with what has only recently been learned about the primitive functions of the human brain. A General Theory of Love demonstrates that our nervous systems are not self-contained: from earliest childhood, our brains actually link with those of the people close to us, in a silent rhythm that alters the very structure of our brains, establishes life-long emotional patterns, and makes us, in large part, who we are. Explaining how relationships function, how parents shape their child's developing self, how psychotherapy really works, and how our society dangerously flouts essential emotional laws, this is a work of rare passion and eloquence that will forever change the way you think about human intimacy.

An invigorating and inspiring take on the new ways American women are changing and improving our culture and the way we live from Kellyanne Conway, counselor to president Donald Trump, and Celinda Lake, a leading political strategist for the Democratic party. Women are the most powerful force reshaping the future of America. There is a newly defined unified power base among women that crosses all the usual lines of division—politics, race, religion, age, and class—heralding the most significant change in American culture in the past century. Kellyanne Conway, counselor to president Donald Trump and president and CEO of The Polling Company, Inc. and Celinda Lake, a leading political strategist for the Democratic party—two of the most prominent trend-spotters and analysts in America—demonstrate how women are rejecting outdated traditions in order to get what they want and need. They are breaking the old rules about when and whether to marry and have children, living fully and equally as singles, and creating flexible, inclusive workplaces that don't sacrifice family or sanity. They are controlling \$5 trillion annually as the primary purchasers of homes, cars, appliances, and electronics. They are making their mark at ages twenty, forty, sixty, and beyond, drawing strength, inspiration, and intellectual stimulation from other women. Using the eye-opening results of interviews, focus groups, and polls (three of which were created especially for

this book), Conway and Lake—who often fall on opposite sides of the country’s most polarizing debates—come together to seek out what women buy, what they believe, how they work, how they live, what they care about, what they fear, and what they really want. By delving beneath the hot-button issues, Lake and Conway discovered common causes with which women are inventing a new age of opportunity—doing it their way and, in the process, improving life for all Americans.

Few of us have been spared the agonies of intimate relationships. They come in many shapes: loving a man or a woman who will not commit to us, being

heartbroken when we're abandoned by a lover, engaging in Sisyphean internet searches, coming back lonely from bars, parties, or blind dates, feeling bored in a relationship that is so much less than we had envisaged - these are only some of the ways in which the search for love is a difficult and often painful experience. Despite the widespread and almost collective character of these experiences, our culture insists they are the result of faulty or insufficiently mature psyches. For many, the Freudian idea that the family designs the pattern of an individual's erotic career has been the main explanation for why and how we fail to find or sustain love. Psychoanalysis and popular psychology have succeeded spectacularly in convincing us that individuals bear responsibility for the misery of their romantic and erotic lives. The purpose of this book is to change our way of thinking about what is wrong in modern relationships. The problem is not dysfunctional childhoods or insufficiently self-aware psyches, but rather the institutional forces shaping how we love. The argument of this book is that the modern romantic experience is shaped by a fundamental transformation in the ecology and architecture of romantic choice. The samples from which men and women choose a partner, the modes of evaluating prospective partners, the very importance of choice and autonomy and what people imagine to be the spectrum of their choices: all these aspects of choice have transformed the very core of the

will, how we want a partner, the sense of worth bestowed by relationships, and the organization of desire. This book does to love what Marx did to commodities: it shows that it is shaped by social relations and institutions and that it circulates in a marketplace of unequal actors.

Prince — a slave in the British colonies — vividly recalls her life in the West Indies, her rebellion against physical and psychological degradation, and her eventual escape in 1828 in England.

Within the so-called seduction community, the ability to meet and attract women is understood as a skill which heterosexual men can cultivate through practical training and personal development. Though it has been an object of media

speculation – and frequent sensationalism – for over a decade, this cultural formation remains poorly understood. In the first book-length study of the industry, Rachel O’Neill takes us into the world of seduction seminars, training events, instructional guidebooks and video tutorials. Pushing past established understandings of ‘pickup artists’ as pathetic, pathological or perverse, she examines what makes seduction so compelling for those drawn to participate in this sphere. Seduction vividly portrays how the twin rationalities of neoliberalism and postfeminism are reorganising contemporary intimate life, as labour-intensive and profit-orientated modes of sociality consume other forms of being and relating. It is essential reading for students and scholars of gender, sexuality, sociology and cultural studies, as well as anyone who wants to understand the seduction industry’s overarching logics and internal workings.

The dictatorship of Rafael Trujillo, who ruled the Dominican Republic from 1930 until his assassination in 1961, was one of the longest and bloodiest in Latin American history. *The Dictator's Seduction* is a cultural history of the Trujillo regime as it was experienced in the capital city of Santo Domingo. Focusing on everyday forms of state domination, Lauren Derby describes how the regime infiltrated civil society by fashioning a "vernacular politics" based on popular idioms of masculinity and fantasies of race and class mobility. Derby argues that the most pernicious aspect of the dictatorship was how it appropriated quotidian practices such as gossip and gift exchange, leaving almost no place for Dominicans to hide or resist. Drawing on previously untapped documents in the Trujillo National Archives and interviews with Dominicans who recall life under

the dictator, Derby emphasizes the role that public ritual played in Trujillo's exercise of power. His regime included the people in affairs of state on a massive scale as never before. Derby pays particular attention to how events and projects were received by the public as she analyzes parades and rallies, the rebuilding of Santo Domingo following a major hurricane, and the staging of a year-long celebration marking the twenty-fifth year of Trujillo's regime. She looks at representations of Trujillo, exploring how claims that he embodied the popular *barrio antihero* the *tíguere* (tiger) stoked a fantasy of upward mobility and how a rumor that he had a personal guardian angel suggested he was uniquely protected from his enemies. *The Dictator's Seduction* sheds new light on the cultural contrivances of autocratic power.

This is a Horatio Alger story in two parts. The first part begins in 1884 when Junius Romney with his family moved to Colonia Juarez, Mexico. It continues to the summer of 1912 when he abruptly left the Mormon Colonies in Mexico to live in the United States. The second part begins in El Paso, Texas and continues until Junius died in 1971, in Salt Lake City, Utah. In each part he and his family began penniless and rose to a situation where he had a growing family, a comfortable home, and a good living. He made his way principally because he was determined that he would always succeed.

In this groundbreaking book, Scalia and Garner systematically explain all the most important principles of constitutional, statutory, and contractual interpretation in an engaging and informative style with hundreds of illustrations from actual cases. Is a burrito a sandwich? Is a corporation entitled to personal privacy? If you trade a gun for drugs, are you using a gun in a drug transaction? The authors grapple with these and dozens of equally curious questions while explaining the most principled, lucid, and reliable techniques for deriving meaning from authoritative texts. Meanwhile, the book takes up some of the most controversial issues in modern jurisprudence. What, exactly, is "textualism?" Why is "strict construction" a bad thing? What is the true doctrine of "originalism?" And which is more important: the spirit of the law, or the letter? The authors write with a well-argued point of view that is definitive yet nuanced, straightforward yet sophisticated.

Who among us still thinks the year 2000 is just an arbitrary turn of a calendar page? Why does its approach bring both fear of apocalyptic destruction and the promise of millennial salvation? Lee Quinby investigates how anxiety about the arrival of the new century casts everything from El Niño to sheep cloning in apocalyptic terms, simultaneously fueling panic and fostering unfounded hope for a perfect world.

Access Free Seduction Ellen Fein The Rules Scribd

Millennial rhetoric is both pervasive and persuasive, Quinby argues, because it operates with mutually reinforcing doses of fear and hope. Religious and secular anxiety erupts over charged issues such as sex education, the regulation of cyberspace, and the Christian masculinity of the Promise Keepers. Quinby exposes the dangers of millennialist solutions, which link misogyny, homophobia, and racism with absolutist claims about truth, morality, sexuality, and technology. It is the absolutism of apocalyptic thought—not an impending apocalypse—that poses the more serious threat to our society, Quinby maintains. Millennial Seduction advocates a form of skepticism that challenges absolutism and encourages democratic participation.

The Palgrave Handbook of Race and the Arts in Education is the first edited volume to examine how race operates in and through the arts in education. Until now, no single source has brought together such an expansive and interdisciplinary collection in exploration of the ways in which music, visual art, theater, dance, and popular culture intertwine with racist ideologies and race-making. Drawing on Critical Race Theory, contributing authors bring an international perspective to questions of racism and anti-racist interventions in the arts in education. The book's introduction provides a guiding framework for understanding the arts as white property in schools, museums, and informal education spaces. Each section is organized thematically around historical, discursive, empirical, and personal dimensions of the arts in education. This handbook is essential reading for students, educators, artists, and researchers across the fields of visual and performing arts education, educational foundations, multicultural education, and curriculum and instruction.

In an effort to keep up with a world of too much, life hackers sometimes risk going too far. Life hackers track and analyze the food they eat, the hours they sleep, the money they spend, and how they're feeling on any given day. They share tips on the most efficient ways to tie shoelaces and load the dishwasher; they employ a tomato-shaped kitchen timer as a time-management tool. They see everything as a system composed

of parts that can be decomposed and recomposed, with algorithmic rules that can be understood, optimized, and subverted. In *Hacking Life*, Joseph Reagle examines these attempts to systematize living and finds that they are the latest in a long series of self-improvement methods. Life hacking, he writes, is self-help for the digital age's creative class. Reagle chronicles the history of life hacking, from Benjamin Franklin's *Poor Richard's Almanack* through Stephen Covey's *7 Habits of Highly Effective People* and Timothy Ferriss's *The 4-Hour Workweek*. He describes personal outsourcing, polyphasic sleep, the quantified self movement, and hacks for pickup artists. Life hacks can be useful, useless, and sometimes harmful (for example, if you treat others as cogs in your machine). Life hacks have strengths and weaknesses, which are sometimes like two sides of a coin: being efficient is not the same thing as being effective; being precious about minimalism does not mean you are living life unfettered; and compulsively checking your vital signs is its own sort of illness. With *Hacking Life*, Reagle sheds light on a question even non-hackers ponder: what does it mean to live a good life in the new millennium?

We live in a time of uncertainty about relationships. We search for The One but find ourselves staying single because nobody measures up. We long for a happily-ever-after but break-up after break-up leave us bruised and confused. *Rewriting the Rules: An Anti Self-Help Guide to Love, Sex and Relationships* is a friendly guide through the complicated - and often contradictory - advice that's given about sex and gender,

monogamy and conflict, break-up and commitment. It asks questions about the rules of love, such as which to choose from all the rules on offer? Do we stick to the old rules we learnt growing up, or do we try something new and risk being out on our own? And what about the times when the rules we love by seem to make things worse, rather than better? This new edition, updated throughout, considers how the rules are being 'rewritten' in various ways - for example in monogamish and polyamorous relationships, different ways of understanding sex and gender, and new ideas for managing commitment and break-up where economics, communities, or child-care make complete separation impossible. complex narrative "The Dead", explores the intricate issues of identity and power through the lens of language, patriarchy, and imperialism. These issues are directly tied to the longstanding political turmoil of his native Ireland and the social questions of his day. Joyce's story reveals that we often achieve what we tried to avoid by pretending to be what we are not. At 15,672 words The Dead is often considered a novella and the best of Joyce's shorter works. James Joyce (1882–1941) was an Irish novelist and poet, considered to be one of the most influential writers in the modernist avant-garde of the early 20th century. Joyce is best known for Ulysses (1922), a landmark work in which the episodes of Homer's Odyssey are paralleled in an array of contrasting literary styles, perhaps most prominent among these the stream of consciousness technique he perfected. Other major works are the short-story collection Dubliners (1914), and the novels A Portrait of the Artist as a Young Man (1916) and Finnegans Wake (1939). His complete oeuvre also includes three books of poetry, a play, occasional journalism, and his published letters.

What were the laws on marriage in Ireland, and did church and state differ in their interpretation? How did men and women meet and arrange to marry? How important was patriarchy and a husband's control over his wife? And what were the options available to Irish men and women who wished to leave an unhappy marriage? This first comprehensive history of marriage in Ireland across three centuries looks below the level of elite society for a multi-faceted exploration of how marriage was perceived, negotiated and controlled by the church and state, as well as by individual men and women within Irish society. Making extensive use of new and under-utilised primary sources, Maria Luddy and Mary O'Dowd explain the laws and customs around marriage in Ireland. Revising current understandings of marital law and relations, *Marriage in Ireland, 1660–1925* represents a major new contribution to Irish historical studies.
