Highly advanced civilizations have been here before us, just to be destroyed by some great global catastrophe. But for each race that has died out, another has taken its place, with a selected few holding on to the memories and sacred knowledge of the past race. In our vanity we think we have discovered some of the great truths of science and technology, but we are in fact only just beginning to rediscover the profound wisdom of past civilizations. In many ways, we are like an awakening Species with Amnesia, yearning to reclaim our forgotten past.

The book remains a central work of criticism for all students of literature.

Ours is the first generation in modern times to understand the truly universal human condition and to seek to bring all peoples of the earth together in peace and harmony. We are the first generation to truly understand that we are faced with the challenge of either inhabiting our planet harmoniously or not inhabiting it at all. Filling our future is the fundamentalism that threatens to pit one religion against another. But, our different relationships and understandings of G-d should not be the reason for conflict but the source of goodwill in building our relationships with one another and our ability to understand others. The covenant with the Jewish people was not the first made between the Almighty and mankind. Before the revelation at Mt. Sinai, G-d commanded Adam and then made a covenant with Noah, giving them the guidelines for the universal religion of mankind. The most well-known part of this covenant is the seven universal commandments, or the Seven Noahide Laws. For this reason, Judaism and Jews do not proselytize, but rather seek to guide the nations of the world in developing their own relationship with the Almighty and implementing these potentially unifying laws of basic human nature. This book offers you a glimpse into the tremendous mystical power and meaning of G-d's covenant with humanity and the Seven Noahide Laws, as explained in Kabbalah. It focuses on their spiritual and inner dimensions and inspires a deeper look at our best hope for achieving world peace and a better future for all beings.

2019 Reprint of 1923 Edition. Full facsimile of the original edition, not reproduced with Optical Recognition software. Sefer, Book of Formation, or Book of Creation is the title of the earliest extant book on Jewish esotericism, although some early commentators treated it as a treatise on mathematical and linguistic theory as opposed to Kabbalah. Yetzirah is more literally translated as "Formation"; the word Bria is used for "Creation". The book is traditionally ascribed to the patriarch Abraham, although others attribute its writing to Rabbi Akiva. Modern scholars have not reached consensus on the question of its origins. According to Rabbi Saadia Gaon, the objective of the book's author was to convey in writing from a Jewish perspective how the things of our universe came into existence. Translated from the Hebrew, with annotations by Knut Stenring. Includes the 32 paths of wisdom, their correspondence with the Hebrew alphabet and the Tarot symbols and with an introduction by Arthur Edward Waite. The text of the Haggadah in both Hebrew and English, with stories, parables, and sayings of Hacham Yosef Hayyim of Baghdad.

The aim of this book is to study certain meditation methods followed not only by religious traditions or metaphysical movements that are still alive nowadays like Advaita Vedanta, Kabbalah (within the Jewish tradition), Christianity or Islam (particularly

Sufism), but also practiced by other currents or schools that, even though already gone, significantly influenced the West. This is the case of Neoplatonism or Stoicism, whose influence was felt by ancient and medieval Christianity, or Greco-Egyptian Hermetism, which played an important role in the European cultural Renaissance from the 15th century on. A special consideration has been given to Christian tradition, introducing some of the most representative authors of recollection and their meditation methods. Este libro tiene por finalidad el estudio de ciertos métodos de meditación seguidos no solo por tradiciones religiosas o movimientos metafísicos que continúan vivos actualmente como el vedanta advaita, la cábala (en la tradición judía), el cristianismo o el islám (particularmente el sufismo), sino practicados también por otras corrientes o escuelas que, aunque ya desaparecidas, influyeron significativamente en Occidente. Es el caso del neoplatonismo o del estoicismo cuya influencia se dejó sentir en el cristianismo antiguo y medieval, o del hermetismo greco-egipcio que tuvo un papel destacado en el Renacimiento cultural europeo a partir del siglo XV. Especial consideración se ha dado a la tradición cristiana mostrando algunos de los autores más representativos del recogimiento y de su método de meditación.

Reading the Women of the Bible takes up two of the most significant intellectual and religious issues of our day: the experiences of women in a patriarchal society and the relevance of the Bible to modern life.

An unprecedented portrait of Moses's inner world and perplexing character, by a distinguished biblical scholar No figure looms larger in Jewish culture than Moses, and few have stories more enigmatic. Avivah Gottlieb Zornberg, acclaimed for her many books on Jewish thought, turns her attention to Moses in this remarkably rich, evocative book. Drawing on a broad range of sources—literary as well as psychoanalytic, a wealth of classical Jewish texts alongside George Eliot, W. G. Sebald, and Werner Herzog—Zornberg offers a vivid and original portrait of the biblical Moses. Moses's vexing personality, his uncertain origins, and his turbulent relations with his own people are acutely

explored by Zornberg, who sees this story, told and retold, as crucial not only to the biblical past but also to the future of Jewish history.

Presents the diamond-shaped symbol that is the source much of the world's symbolism, including: Adam Kadmon, the Tree of Life; the Shield/Star of David; the Qaba of Islam, regular polygons; the Paleo-Hebrew, Greek, and English alphabets; and Indo-Arabian numerals. Formed by four interlocking Trees of life in a circular arrangement that positions the sphere of each Kether atop each Tipareth, the Crown Diamond opens the way to exploration of new dimensions in many disciplines. For example, all Western alphabets are proven to share not only a common source, but also a common geometry: giving each letter of the alphabets precise geometrical properties that may lead to a fuller understanding of the nexus between language and mathematics. The narrative recounts discovery of the symbol and includes Biblical commentary from a perspective that finds no conflict between Jewish, Christian, and Muslim scriptures.

A landmark event: the complete Hebrew Bible in the award-winning translation that delivers the stunning literary power of the original. A masterpiece of deep learning and fine sensibility, Robert Alter's translation of the Hebrew Bible, now complete, reanimates one of the formative works of our culture. From the family frictions of Genesis and King David's flawed humanity to the serene wisdom of Psalms and Job's incendiary questioning of God's ways, these magnificent works of world literature resonate with a startling immediacy. Featuring Alter's generous commentary, which quietly alerts readers to the literary and historical dimensions of the text, this is the definitive edition of the Hebrew Bible.

In 1666, a man by the name of Sabbatai Zevi declared himself to be the Messiah. Followers of his heretical cult believed that sin is holy and should be practised for its own sake. Sabbateans and their successors, the Frankists, have indulged in religious orgies, ritual sacrifice, incest, adultery and homosexuality for 350 years. Using secret societies such as the Masons, this diabolical sect has infiltrated into the highest echelons of political power. They covertly rule as the unelected hidden hand shaping history behind a veil of conspiracy.

The Sepher Yetzirah is one of the main and most important works of Kabbalah. Referenced by other works such as the Bahir, it is broken apart into a series of statements on the Hebrew alphabet and numeric systems. Among other concepts it expounds the concept of creation via the three mothers; Alef, Mem, and Shin, and their relative powers. It is one of the most integral works from which such types of occultism stem.

New Perspectives on the War Film addresses the gap in the representation of many forgotten faces of war in mainstream movies and global mass media. The authors concentrate on the untold narratives of those who fought in combat and were affected by its brutal consequences. Chapters discuss the historically under-represented stories of individuals including women, African-American and Indigenous Soldiers. Issues of homosexuality and gender relations in the military, colonial subjects and child soldiers, as well as the changing nature of war via terrorism and bioterrorism are closely analyzed. The contributors demonstrate how these viewpoints have been consistently ignored in mainstream, blockbuster war sagas and strive to re-integrate these lost perspectives into current and future narratives.

There are 13 ancient history books that are mentioned and recommended by the Bible. The Ancient Book of Jasher is the only one of the 13 that still exists. It is referenced in Joshua 10:13; 2 Samuel 1:18; and 2 Timothy 3:8. This volume contains the entire 91 chapters plus a detailed analysis of the supposed discrepancies, cross-referenced historical accounts, and detailed charts for ease of use. As with any history book there are typographical errors in the text but with three consecutive timelines running through the histories it is very easy to arrive at the exact dates of recorded events. It is not surprising that this ancient document confirms the Scripture and the chronology given in the Hebrew version of the Old Testament, once and for all settling the chronology differences between the Hebrew Old Testament and the Greek Septuagint. The Ancient book of Jasher is brought to you by Biblefacts Ministries, Biblefacts.org

due to a fast acting custodian. Albinus Alcuin later found this work and did the original translation of it from Hebrew in 800 AD. It was later suppressed but rediscovered in 1829, when it was once again suppressed. Only now has it reemerged to become widely available and judged properly for its value. Note: A more common 64 page version is in circulation, but is a proven forgery.
