"David Amerland demystifies Knowledge Graph (TM), TrustRank (TM), AuthorityRank (TM), personalized and mobile search, social media activity, and much more in this plain-English book teaching how to be ahead of the curve when it comes to SEO techniques. Drawing on deep knowledge of Google's internal workings and newest patents, he also reveals the growing impact of social networks on SEO performance. This book is designed for businesspeople, not technologists, and gives easy-to-follow instructions that reflect radical changes at Google and beyond."--Publisher's description.

Learn SEO strategies to rank at the top of Google with SEO 2020 EXPANDED & UPDATED - NOVEMBER, 2019 No matter your background, SEO 2020 will walk you through search engine optimization techniques used to grow countless companies online, exact steps to rank high in Google, and how get a ton of customers with SEO. First, let me tell you a little secret about SEO marketing... Most search engine optimization advice on the Internet is wrong! If you've sifted through search engine optimization advice online, you may have noticed two things: - Most published SEO advice is either outdated or just dead-wrong. - Google's constant updates have made many popular SEO optimization strategies useless. Why is this so? Google's constantly evolving. Recent changes: 1. October, 2019 - Google releases their groundbreaking new BERT machine learning algorithm, with Google now understanding searches almost like a human. 2. September, 2019 - Google releases new guidelines on nofollow links, providing worldwide changes for advertisers and SEO professionals alike. 3. March, 2018 - Google's game-changing "Mobile First Index" is rolled out, completely overhauling how search results are calculated. SEO 2020 is now updated covering new changes to Google's algorithm, walks you through major updates and how to use them to your advantage. This book also reveals industry secrets to stay ahead of Google's algorithm, and potential Google changes coming up in 2020. With this best-selling SEO book, learn SEO from a fundamental level, achieve top rankings, and generate a wave of new customers to your site. Discover powerful link building techniques experts use to get top rankings and generate massive traffic Link building is the strongest factor for ranking high in Google. Unfortunately, most widely-used methods suck! This chapter walks you through new and powerful techniques that won't get you in hot-water with Google. Now expanded with more link building strategies and extra tips for advanced readers. You will also discover: 1. Important SEO concepts, from beginner to advanced. 2. Sneaky tricks to get local businesses ranking high with local SEO. 3. The inner workings of Google's algorithm and how it calculates the search results. 4. How to find "money" keywords that will send customers to your site. 5. Basic and advanced link building strategies for pushing your rankings up higher. 6. Six insider sources to get expert SEO or Internet marketing advice worth thousands of dollars, for free. 7. How to use social media and web analytics to multiply your results. 8. 25+ powerful tools top Internet marketing experts use to automate search engine optimization, saving weeks of time and creating bigger results. Sidestep the 2020 Google updates Contrary to Internet marketing gossip, problems caused by Google updates are rarely irrecoverable-but you need the right knowledge. This book reveals: - Inner mechanics of Google's algorithm, and how to rank your site at the top. - Recent Google updates-Google's BERT algorithm, Google's RankBrain algorithm, Mobile First Index, Google Speed update, and more... - Potential updates coming up in 2020. - Steps to recover from Google penalties. And read the special bonus chapter on pay-per-click advertising In this bonus, learn to quickly setup pay-per-click advertising campaigns with Google AdWords and send customers to your site overnight, literally. One of the most comprehensive SEO optimization books ever published-updated and expanded-of all best-selling SEO books, this is the only one with everything you need. Scroll up, click buy, and get started now! Remember when an optimized website was one that merely didn't take all day to appear? Times have changed. Today, website optimization can spell the difference between enterprise success and failure, and it takes a lot more know-how to achieve success. This book is a comprehensive guide to the tips, techniques, secrets, standards, and methods of website optimization. From increasing site traffic to maximizing leads, from revving up responsiveness to increasing navigability, from prospect retention to closing more sales, the world of 21st century website optimization is explored, exemplified and explained. Website Optimization combines the disciplines of online marketing and site performance tuning to attain the competitive advantage necessary on today's Web. You'll learn how to improve your online marketing with effective paid and natural search engine visibility strategies, strengthened lead creation and conversion to sales methods, and gold-standard ad copywriting guidelines. Plus, your increased site speed, reduced download footprint, improved reliability, and improved navigability will work synergistically with those marketing methods to optimize your site's total effectiveness. In this book for business and IT managers, author Andrew King, president of Website Optimization, LLC, has assembled experts in several key specialties to teach you: Search engine optimization -- addressing best (and worst) practices to improve search engine visibility, including step-by-step keyword

optimization guidelines, category and tag cloud creation, and guerilla PR techniques to boost inbound links and improve rankings Pay-per-click optimization -- including ad copywriting guidelines, setting profit-driven goals, calculating and optimizing bids, landing page optimization, and campaign management tips Optimizing conversion rates -- increasing leads with site landing page guidelines, such as benefit-oriented copy, credibility-based design, value hierarchies, and tips on creating unique selling propositions and slogans Web performance tuning -- optimizing ways to use (X)HTML, CSS, and Ajax to increase speed, reduce your download footprint, and increase reliability Advanced tuning -- including client-side techniques such as on-demand content, progressive enhancement, and inline images to save HTTP requests. Plus server-side tips include improving parallelism, using cache control, browser sniffing, HTTP compression, and URL rewriting to remap links and preserve traffic Web metrics -- illustrating the best metrics and tools to gather details about visitors and measure web conversion and success rates. Covering both search marketing metrics and web performance measures including Pathloss and waterfall graphs Website Optimization not only provides you with a strategy for success, it also offers specific techniques for you and your staff to follow. A profitable website needs to be well designed, current, highly responsive, and optimally persuasive if you're to attract prospects, convert them to buyers, and get them to come back for more. This book describes precisely what you need to accomplish to achieve all of those goals.

Learn easily and fast the best SEO strategies to rank at the top of Google with How To Increase Website Traffic Today, from beginner to advanced! This SEO manual is a new edition to Adam Clarke SEO 2018, but it gets better, packed with the latest information. No matter your background, SEO How To Increase Website Traffic will walk you through search engine optimization techniques used to grow countless companies online, exact steps to rank high in Google, and how get a ton of customers. First, let me tell you a little secret about SEO marketing... Most of the search engine optimization advice on the Internet is wrong! If you've browsed through search engine optimization advice online, you may have noticed two things: - Most SEO advice is outdated or just dead-wrong. - Google's constant updates have made many popular SEO optimization strategies useless. Why is this so? Google are constantly evolving. Some recent changes: 1. September, 2017 - Google becomes Apple's default search provider for Siri, iOS search, and Spotlight search on Mac OS, providing a wave of new opportunities for businesses. 2. August, 2017 - Google quietly releases a local SEO update dubbed the "Hawk" update, providing new challenges for local businesses. 3. June, 2017 - Google announces their game changing Mobile First Index coming up in 2018, that will completely shake up the mobile search results. How To Increase Website Traffic covers the latest updates to Google's algorithm and how to use them to your advantage. This book also reveals potential changes coming up in 2018. With this best-selling SEO book, learn SEO from a fundamental level, achieve top rankings, and generate a wave of new customers to your site. Discover powerful link building techniques experts use to get top rankings Link building is the strongest factor for ranking high in Google. Unfortunately, most widely-used methods suck! This chapter walks you through new powerful techniques that won't get you in hot-water with Google. Now updated with more link building strategies, and extra tips for advanced readers. You will also discover: 1. Important SEO concepts, from beginner to advanced. 2. Sneaky tricks to get local businesses ranking high with local SEO. 3. The inner workings of Google's algorithm and how it calculates the search results. 4. How to find "money" keywords that will send customers to your site. 5. Basic and advanced link building strategies for pushing your rankings up higher. 6. Six insider sources to get expert SEO or Internet marketing advice worth thousands of dollars, for free. 7. How to use social media and web analytics to multiply your results. Sidestep Google search engine updates in 2018 Contrary to Internet marketing gossip, problems caused by Google updates are rarely irrecoverable-but you need the right knowledge. This book reveals: - The inner mechanics of Google's algorithm, and how to rank your site at the top. - Recent Google updates-Google's Mobile First Index, Google Hawk update, Google FRED update, Accelerated Mobile Pages, and more... - Potential changes coming up in 2018. - How to safe-guard against penalties in 2018 and beyond. - How to recover from Google penalties. And read the special bonus chapter on pay-per-click advertising In this special bonus chapter, learn to quickly setup pay-per-click advertising campaigns with Google AdWords, and send more customers to your site overnight, literally. One of the most comprehensive SEO optimization and Internet marketing books ever published-now expanded and updated-of all best-selling SEO books, this is the only one with everything you need. Scroll up, click buy, and get started now! A revealing look at how negative biases against women of color are embedded in search engine results and algorithms Run a Google search for "black girls"—what will you find? "Big Booty" and other sexually explicit terms are likely to come up as top search terms. But, if you type in "white girls," the results are radically different. The suggested porn sites and un-moderated discussions about "why black women are so sassy" or "why black women are so angry" presents a disturbing portrait of black womanhood in modern society. In Algorithms of Oppression, Safiya Umoja Noble challenges the idea that search engines like Google offer an equal playing field for all forms of ideas, identities, and activities. Data discrimination is a real social problem; Noble argues that the combination of private interests in promoting certain sites, along with the monopoly status of a relatively small number of Internet search engines, leads to a biased set of search algorithms that privilege whiteness and discriminate against people of color, specifically women of color. Through an analysis of textual and media searches as well as extensive research on paid online advertising, Noble exposes a culture of racism and sexism in the way discoverability is created online. As search engines and their related companies grow in importance—operating as a source for email, a major vehicle for primary and secondary school learning, and beyond—understanding and reversing these disquieting trends and discriminatory practices is of utmost importance. An original, surprising and, at times, disturbing account of bias on the internet, Algorithms of Oppression contributes to our understanding of how racism is created, maintained, and disseminated in the 21st century.

The Small Business Owner's Handbook to Search Engine Optimization is ideal for small business owners who want to learn an efficient and effective process for dramatically improving their Web site's search engine rankings and doubling their site's monthly unique visitors. Guaranteed! Stephen Woessner, of the University of Wisconsin-La Crosse Small Business Development Center, is a search engine optimization (SEO) expert. But more importantly, Woessner has owned four businesses and understands the significant time and cash constraints faced by business owners every day. Because of this, Woessner placed increasing efficiency and effectiveness at the core of the 15-steps allowing a business owner to maximize results in as little time as possible. A business owner does not need to know technical skills, like Web programming, to be successful at SEO. Instead, business owners will rely on their marketing skill and the ability to think like their customers and prospects, versus an ability to write HTML or other form of Web programming. Business owners will learn how to select keywords that are proven performers, blend the keywords into site content, boost site popularity, and more. Woessner explains with precision how business owners can use SEO to achieve measurable results. This practical and tactical guide includes a free SEO toolkit and other valuable resources that will help

business owners increase the return on investment generated by their Web sites. Business owners will also receive a detailed blueprint with specific checklists to follow throughout the 15-step process. Lastly, this book can also serve as an excellent resource to business owners who are considering outsourcing their SEO work to a third-party. Developing a working knowledge of the 15-step process will make any business owner a more informed consumer. This book is also an ideal resource for marketing and advertising agency professionals who want to expand their services and need to develop a proficiency in SEO as efficiently and effectively as possible. Atlantic Publishing is a small, independent publishing company based in Ocala, Florida. Founded over twenty years ago in the company president's garage, Atlantic Publishing has grown to become a renowned resource for non-fiction books. Today, over 450 titles are in print covering subjects such as small business, healthy living, management, finance, careers, and real estate. Atlantic Publishing prides itself on producing award winning, high-quality manuals that give readers up-to-date, pertinent information, real-world examples, and case studies with expert advice. Every book has resources, contact information, and web sites of the products or companies discussed.

The premier guide to digital marketing that works, and a solid framework for success The Art of Digital Marketing is the comprehensive guide to cracking the digital marketing 'code,' and reaching, engaging, and serving the empowered consumer. Based on the industry's leading certification from the Digital Marketing Institute (DMI), this book presents an innovative methodology for successful digital marketing: start with the customer and work backwards. A campaign is only effective as it is reflective of the consumer's wants, needs, preferences, and inclinations; the DMI framework provides structured, implementable, iterative direction for getting it right every time. The heart of the framework is a three-step process called the 3i Principles: Initiate, Iterate, and Integrate. This simple idea translates into higher engagement, real customer interaction, and multichannel campaigns that extend even into traditional marketing channels. The evolution of digital marketing isn't really about the brands; it's about consumers exercising more control over their choices. This book demonstrates how using this single realization as a starting point helps you build and implement more effective campaigns. Get inside the customer's head with deep consumer research Constantly improve your campaigns based on feedback and interactions Integrate digital activities across channels, including traditional marketing Build campaigns based on customer choice and control Digital marketing turns traditional marketing models on their heads. Instead of telling the customer what to think, you find out what they already think and go from there. Instead of front-loading resources, you continually adjust your approach based on real interactions with real customers every day. Digital marketing operates within its own paradigm, and The Art of Digital Marketing opens the door for your next campaign.

reveals the latest and greatest industry resources so you can always stay ahead of Google's updates.

Free Tools for SEO in a Comprehensive Directory REVISÉD for 2016 - to cover new topics such as content marketing, Google+, and the new link-building! Why buy PAID TOOLS when you can use the many FREE TOOLS available on the Internet? You just have to know where to look. Used by Jason McDonald in his online SEO classes as well as classes at Stanford Continuing Studies and classes at San Francisco's Bay Area Video Coalition and AcademyX, the SEO Toolbook is a MUST HAVE for anyone who wants to dominate Google, Bing, or Yahoo. Here's what you get: Tools for every aspect of SEO, starting at Keywords proceeding through Page Tags, Link-building, and Diagnostics and ending up at rank measurement and Google Analytics. Web links to each and every free tool. A description of the tool plus a relevancy score. In addition to tools, pointers to tutorials, blogs, and trade shows on Search Engine Optimization as well as official free Google resources and even funny Easter Eggs. Access to the online edition, including Jason's dashboard of clickable tool links. IMPORTANT ALERTS The SEO Toolbook is available FREE in PDF format (not hard copy!) to folks who take any of Jason's classes (both online and in San Francisco), as well as subscribers to the JM INTERNET GROUP email lists. Buy this book ONLY if you want a hard copy, printed version of this important search engine optimization tools directory. The SEO Toolbook is a wonderful companion to all books on SEO such as SEO For Dummies, SEO an Hour a Day, Search engine optimization 2016, etc. Understand How the SEO Toolbook Works First and foremost, the SEO Toolbook assumes a working knowledge of SEO. This toolbook has many wonderful free tools, but the tools alone are useless without a knowledge of how the game is played! (If you need that knowledge, we recommend you check out my SEO Fitness Workbook (on Amazon), online courses a, or call 800-298-4065 to learn more about my SEO one-on-one training and consulting services). Second, this book emphasizes only free tools. Despite the fact that there are quite a few paid SEO tools out there, none are any better than the free tools identified in this Toolbook. Indeed, in today's tight economy, why pay when you can get them for free? Not to mention, why pay when the most important element, i.e. a knowledge of how SEO is played to win, can't be obtained from any tool? Third, we have reviewed each tool in the Toolbook for relevance and ease of use. Almost without exception, the tools in the Toolbook require nothing more than a Web browser and active connection to the Internet. Easy is just as important as free. Generally speaking, if a tool requires registration or has only a "trial" period, it has been excluded. Up relevance scores, improve page speed, optimize voice search questions, and more! Search Engine Optimization For Dummies shows website owners, developers, and search engine optimizers (SEOs) how to create a website that ranks at the top of search engines and has high-volume traffic, while answering the essential question of "how do I get people to visit my site?" By understanding search engine basics (what are they, which ones are important, how to get started), building a search engine-friendly site, registering your site with directories and indexes, using analysis tools to track results and link popularity to boost rankings, and advertising your site by using pay-per-click options, you can use the tricks of SEO masters to drive traffic to your site. You'll also discover how to write effective content, use social media to boost your profile, and manage your platform and reputation to positively impact your search engine rankings. Develop a search strategy and use new SERP features Maximize the effects of personalized search Analyze results with improved analytics tools Optimize voice search strategies There's no time like the present to create a website that ranks at the top of search engines and drives traffic to your site with these tips, tricks, and secrets.

Learn SEO strategies to rank at the top of Google with SEO 2017 Newest edition - EXPANDED & UPDATED - OCTOBER, 2016 No matter your background, SEO 2017 will walk you through search engine optimization techniques used to grow countless companies online, exact steps to rank high in Google, and how get a ton of customers with SEO. First, let me tell you a little secret about SEO marketing... Most of the search engine optimization advice on the Internet is wrong! If you've sifted through the torrents of search engine optimization advice online, you may have noticed two things: - Most published SEO advice is either outdated or just dead-wrong. - Google's constant updates have made many popular SEO optimization strategies useless. Why is this so? Google are constantly evolving, making it extremely difficult to know what works. Recent changes: 1. September, 2016 - Google announces Penguin 4.0, the latest and biggest update to their link-spam algorithm, which has now become a real-time addition to their core search algorithm. 2. September, 2016 - Webmasters report a groundbreaking update to Google's local search results now known as the Possum update, presenting new challenges to local businesses. 3. August, 2016 - Google announces their upcoming "Interstitial" update, effectively putting an end to mobile pop-up ads in coming months. SEO 2017 is now updated covering the latest changes to Google's algorithm, and walks you through all major updates and how to use them to your advantage. This book also reveals industry secrets about staying ahead of Google's algorithm, and what potential Google changes may be coming up in 2017. With this best-selling SEO book you can learn SEO from a fundamental level, achieve top rankings, and generate a wave of new customers to your site. Discover powerful link building techniques to get top rankings and generate massive traffic Link building is the strongest factor for ranking high in Google. Unfortunately, most widely-used methods suck! This chapter walks you through new and powerful techniques that won't get you in hot-water with Google. Now expanded and updated with more link building strategies, and extra tips for advanced readers. You will also discover: 1. Important SEO concepts, from beginner to advanced. 2. Sneaky tricks to get local businesses ranking high with local SEO. 3. How to find "money" keywords that will send customers to your site. 4. Six insider sources to get expert SEO or Internet marketing advice worth thousands of dollars, for free. Also discover little-known search engine optimization tools top Internet marketing experts use The SEO tools chapter lists 25+ powerful tools top Internet marketing experts use to automate their search engine optimization, saving weeks of time, and creating bigger results... and most of the tools are free! Sidestep the 2017 Google updates Contrary to Internet marketing gossip, problems caused by Google updates are rarely irrecoverable-but you need the right knowledge. This book reveals: - Inner mechanics of Google's algorithm, and how to use them to rank your site at the top. - Recent updates-Penguin 4.0, Possum update, Accelerated Mobile Pages, Interstitial update, and more... - Potential updates coming up in 2017. - Steps to recover from a Google penalty. And read the very special bonus chapter on pay-per-click advertising In this special bonus, learn how to setup pay-per-click advertising campaigns with Google AdWords, and send more customers to your site overnight, literally. One of the most advanced and comprehensive SEO optimization books ever published-now updated and expanded-of all best-selling SEO books, this is the one with everything you need. This book provides a simple yet practical approach to search engine optimisation. If you are a new business owner or have just started your website, this guide will provide you with a step-by-step instructions on ranking your website ahead of your competition.

There has long been a certain mystique around the practice of search engine optimization (SEO) and its many related processes, practices, techniques and technologies ever since the term first entered into the business lexicon nearly two decades ago. SEO 360 from website Magazine Editor-in-Chief Peter Prestipino provides timeless guidance to help today's enterprises achieve competitive placement at popular search engines by optimizing content, connections, and the continuity of the digital experience.

"Search Engine Optimization, also known as SEO, is how people search and find your website on the Internet. ... SEO is a key growth channel for your business, but the rules of SEO have changed dramatically in recent years. To grow your business in today's economy, you need a strong online presence. But what does that entail exactly? Marketing is no longer about mass-market advertising and outbound sales; it's about capturing demand -- grabbing the attention of people already looking to make a purchase or acquire specific knowledge. To do that, your content needs to be at the top of Internet search results"--Amazon.com.

This Special Issue book focuses on the theory and practice of search engine optimization (SEO). It is intended for anyone who publishes content online and it includes five peer-reviewed papers from various researchers. More specifically, the book includes theoretical and case study contributions which review and synthesize important aspects, including, but not limited to, the following themes: theory of SEO, different types of SEO, SEO criteria evaluation, search engine algorithms, social media and SEO, and SEO applications in various industries, as well as SEO on media websites. The book aims to give a better understanding of the importance of SEO in the current state of the Internet and online information search. Even though SEO is widely used by marketing practitioners, there is a relatively small amount of academic research that systematically attempts to capture this phenomenon and its impact across different industries. Thus, this collection of studies offers useful insights, as well as a valuable resource that intends to open the door for future SEO-related research.

Many businesses struggle to stand out from competition as they don't know how to optimize their website appropriately to appear first on search engine results pages. They are missing traffic, not to mention sales. However, SEO does not require an expert - you just need to figure out how it works and how to make the most of the right tools to boost your sales. Argyris Goulas, the author of SEO Made Easy: How to Win Clients and Influence Sales with SEO, helps you understand what search engine optimization is and how to enhance your ranking on search engines to turn traffic into customers. With this comprehensive guide, you will be able to master the latest best practices and adhere to SEO techniques to have an edge over your competitors. Argyris Goulas discloses tips and tricks as well as different approaches to search engine optimization and provides guidance on how to use local or global SEO to your advantage. SEO is not complicated. On the contrary, it is easy. And with SEO Made Easy: How to Win Clients and Influence Sales with SEO you will discover advantageous strategies you can actually follow and increase your business website's discoverability on search engines. With this book, you will learn: · How to Get Started with SEO · Why SEO is Vital to Your Website · The Anatomy of Search Engine Optimization with Website Factors, On-Page and Off-Page Factors, Website Promotion, and Domain Factors · How to Analyze Search Engine Results Page · How to Perform Keyword Analysis and Select the Best Keywords · How to Generate Quality Content · How to Select the Best Social Media Platform for your Niche · Tips and Tricks for E-Commerce Stores · About Different SEO Approaches · The Balance between Content Marketing and SEO · How to Understand Your Competition · How to Evaluate Existing SEO Results · + FREE BONUS: Your SEO Plan Checklist!
