This text focuses on NUTRITION topics. It includes essential content plus learning activities, case studies, professional profiles, research topics and more that support course objectives. The text and exam are part of the ManageFirst Program(r) from the National Restaurant Association (NRA). This edition is created to teach restaurant and hospitality students the core competencies of the Ten Pillars of Restaurant Management. The Ten Pillars of Restaurant Management is a job task analysis created with the input and validation of the industry that clearly indicates what a restaurant management professional must know in order to effectively and efficiently run a safe and profitable operation. The ManageFirst Program training program is based on a set of competencies defined by the restaurant, hospitality and foodservice industry as those needed for success. This competency-based program features 10 topics each with a textbook, online exam prep for students, instructor resources, a certification exam, certificate, and credential. The online exam prep for students is available with each textbook and includes helpful learning modules on test-taking strategies, practice tests for every chapter, a comprehensive cumulative practice test, and more! This textbook includes an online testing voucher to be used with the online version of the ManageFirst certification exam.

Marc Holzer and Richard W. Schwester have written a fresh and highly engaging textbook for the introductory course in Public Administration. Their coverage is both comprehensive and cutting-edge, including not only all the basic topics (OT, budgeting, HRM), but also reflecting new realities in public administration: innovations in e-government, the importance of new technology, changes in intergovernmental relations, especially the emphasis on inter-local and shared regional resources, and public performance and accountability initiatives. Public Administration has been crafted with student appeal in mind. Each of the book's chapters is generously illustrated with

cartoons, quotes, and artwork—all reinforcing the book's theme that the field of public administration is rooted in the cultural and political world. Each chapter is also supported with a listing of key terms, exercises, and additional resources. The textbook is supported by one of the most comprehensive and easy-to-use instructors' manuals of any introductory text on the market today. It contains full lesson plans with activities to accommodate a broad range of teaching and learning styles for each chapter, PowerPoint decks for each chapter (with visuals and links embedded), 8 new long-term project / student presentation ideas, an updated 'Quotes and Notables' section with biographical information and media links for each chapter, updated test questions with answer keys, and updated terms and definitions for each chapter.

MATH PRINCIPLES FOR FOOD SERVICE OCCUPATIONS, 6E stresses the direct relevance of math skills in the food service industry while teaching the basic math principles that affect everything from basic recipe preparation to managing food and labor costs in a restaurant operation. All the mathematical problems and concepts presented are explained in a simplified, logical, step-by-step manner. New to this edition, illustrations in full color add visual appeal to the text and help culinary students to master important concepts. Now in its 6th edition, this book demonstrates the importance of understanding and using math concepts to effectively make money in this demanding business. Part 1 trains your students to use the calculator. Part 2 reviews basic math fundamentals. Subsequent parts address math essentials and cost controls in food preparation and math essentials in food service record keeping, while the last part of the book concentrates on managerial math. New topics to this 6th edition include controlling beverage costs; clarifying and explaining the difference between fluid ounces and avoirdupois ounces; and an entire new section on yield testing and how to conduct these tests. There are new methods using helpful memory devices and acronyms to help the student remember procedures and formulas, such as BLT, NO, and the Big Ounce. New strategies and charts are also shown and explained on how to use purchases in order to control food and beverage costs and how transfers affect food and beverage costs. In addition, sections have been added on how to control costs using food (or liquor, or labor) cost percentage guidelines. The content in MATH PRINCIPLES FOR FOOD SERVICE OCCUPATIONS, 6E meets the required knowledge and competencies for business and math skills as required by the American Culinary Federation. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The NRAEF is introducing a new program as part of its strategic focus on recruitment and retention. This new management training certification program is based on a set of competencies defined by the restaurant, foodservice and hospitality industry as those needed for success. NRAEF ManageFirst Program leads to a new credential, ManageFirst Professional (MFP), which is part of our industry career ladder. This competency-based program includes 12 topics, each with a competency guide, exam, instructor resources and certificate. Students earn a certificate for each exam passed. The topics and exams are aligned to typical on-campus courses. For example, the Controlling Foodservice Costs Competency Guide is designed to align with a Cost

Control or Operations Management course. Competency Guides and Textbooks: Most guides are 150-200 pages in length and are designed to be used with traditional textbooks for each course area. Each guide contains the essential content for that topic, learning activities, assessments, case studies, suggested field trips & research projects, professional profiles and testimonials. Instructor resources are available electronically and include competency guide content, notes indicating points to be emphasized, recommended activities and discussion questions, and answers to all activities and case studies. Exams: Exams accompany each topic covered in the competency guides. Pencil and paper and online exam formats are offered. They typically are proctored on campus at the end of a course by faculty. Certificates: The NRAEF provides a certificate to students upon successfully passing each exam. The certificates are endorsed by the NRAEF and feature the student's name and the exam passed. The certificates are a lasting recognition of a student's accomplishment and a signal to the industry that the student has mastered the competencies covered within a particular topic. Credential: Upon successful completion of five NRAEF ManageFirst Program exams (including three predefined core topics, one foundation topic, and ServSafe Food Safety) a student is awarded the NRAEF ManageFirst Professional (MFP) credential. There is no additional charge for the credential. The program is targeted at the academic community. The program is flexible for use at two-year or four-year restaurant, foodservice and hospitality programs, proprietary schools and technical/vocational career education schools. If you are interesting in purchasing managefirst for your organization and you are NOT affiliated with a school or university, please email managefirst@pearson.com so we can have someone from our business and industry group contact you directly.

Outbreaks of E. Coli and Salmonella from eating tainted meat or chicken and Mad Cow Disease have consumers and the media focused on food safety-related topics.
