“I died in the Battle of the Somme...” These were the astonishing first words spoken to clairvoyant and healer Stephen Turoff by the soul of James Legett, a young soldier who was killed in the First World War. For two years, the world famous psychic surgeon communicated with the soldier’s soul, and in the process wrote down his remarkable story; not the tale of Legett’s tragically short life on the physical plane, but of his death on a battlefield in France and his soul’s subsequent journey into the afterlife. Although he works with many discarnate spirits in his clinic, the dyslexic Turoff was initially reluctant to undertake the task of writing a book. But he was persuaded by the boisterous and genial soul of the dead man. Their literary collaboration involved an unusual method: Legett presented spiritual pictures to Turoff, who with clairvoyant perception interpreted them into words. The result is this enlightening testimony of life beyond the illusion of death, filled with insight, spiritual wisdom and delightful humour. It is written to show that we are all eternal; there is no death... only change.

We are fast approaching the end of the last generation of life on the earth as we know it. But are you prepared for these last days? Do you know how to identify the signs of the end? Can you recognize the fulfillment of the Lords revealed prophecies? Daniels Seventieth Week offers a day-by-day account of what to expect during the seven years of this generation that Jesus said would not pass until everything he had spoken of had been fulfilled. Author Ronald F. Green provides a calendar of the events before eternity begins, including the events of the seals that will be opened, the seven trumpets of God that will sound, and the seven vials (bowls) of Gods wrath. He also explores the world events that will precede Jesus's second coming: the agreement between Israel and its enemies, the rebuilding of both the inner temple and the third temple, and the two witnesses Enoch and Elijah, when they start and end their 1,260-day ministry. After this, Jesus Christ will set his feet on the Mount of Olives, enter the rebuilt temple, and start his millennial reign. God has revealed to us so much about the last days. There is only one resurrection of the righteous dead, and there is only one catching away of the living righteous. If this occurs before you turn your life over to Jesus Christ and yield to his revealed truth and prophecy, then your eternity will have been decided by your own choice.

They've tried to destroy each other for centuries, but they've failed... So God and the Devil plan a contest to finally decide who will rule eternity: each will send their top candidate to earth. The champions will have seven days to draw mankind towards good or evil, respectively. God picks his favorite angel, a ravishing young woman named Zofia. Lucifer picks Lucas, a male demon with devilishly good looks. The battlefield: present day San Francisco. The winner will rule mankind

forever after: they have seven days for an eternity. Neither God nor the Devil could foresee that the two rivals, unaware of the other's identity, would cross paths from the very start of the contest. Nor did they imagine that they could fall in love... "A love story that is both funny and moving..." - *Le Parisien*

Now revised and updated--John Lennox's acclaimed method of reading and

interpreting the first chapters of Genesis without discounting either science or Scripture. What did the writer of Genesis mean by "the first day?" Are the seven days in Genesis 1 a literal week or a series of time periods? If I believe that the earth is 4.5 billion years old as cosmologists believe, am I denying the authority of Scripture? With examples from history, a brief but thorough exploration of the major interpretations, and a look into the particular significance of the creation of human beings, Lennox suggests that Christians can heed modern scientific knowledge while staying faithful to the biblical narrative. He moves beyond a simple response to the controversy, insisting that Genesis teaches us far more about the God of Jesus Christ and about God's intention for creation than it does about the age of the earth. With this book, Lennox offers a careful and accessible introduction to a scientifically-savvy, theologically-astute, and Scripturally faithful interpretation of Genesis. Since its publication in 2011, this book has enabled many readers to see that the major controversy with which it engages can be resolved without compromising commitment to the authority of Scripture. In this newly revised and expanded edition, John clarifies his arguments, responds to comments and critiques of the past decade since its first publication. In particular, he describes some of the history up to modern times of Jewish scholarly interpretation of the Genesis creation narrative as well as spelling out in more detail the breadth of views in the Great Tradition of interpretation due to the early Church Fathers. He shows that, contrary to what many people think, much of the difficulty with understanding the biblical texts does not arise from modern science but from attempting to elucidate the texts in their own right.

In Part One of this book, I describe our past and current world by discussing Jewish Feasts, Heaven and Hell, Two very special trees, and God. In Part Two, I describe how God created our world with just the energy of His words, and I address just what is The Image of God. Part three brings a rather detailed discussion of that great book: Revelation. In Part Four, I describe the Millennium, how God might reorient our present old earth into a tremendous new heaven-on-earth, and what eternity might look like. In the appendices, I present a new method of Bible referencing using only three letters per book. I also present a heads-up on September 2015. Please read Appendix C as soon as possible, as it may directly affect your very life in many ways: your investments, your Rapture, or the political end of The United States.

The ninth captivating historical romance in the Montgomery series from New York Times bestselling author Jude Deveraux. Carrie Montgomery had grown up with seven adoring older brothers, and she was used to getting her way rather easily. Joshua Greene was only looking for a hardworking, practical mail-order bride to help with the farm and feed and clothe his children. Yet from the moment Carrie saw his photograph, saw his devastatingly handsome, sorrowful smile, the petite and pampered beauty knew she was the perfect wife for him. Josh didn't see it that way. Wed by proxy, he refused to be charmed by his new bride's blond curls and effervescent laughter, or impressed by her trappings of wealth...even if his son and daughter believed she was a fairy princess come to life. He was furious—and ready to send her packing, until a near tragedy convinced him that her beauty was more than skin-deep. But even after he had yielded to the wild desire that surged between them, Josh could not admit how much he truly needed her. Then an old scandal threatened to re-emerge, and he realized that he could lose her forever....

Danny G. Hatfield suggests *A Call for Repentance*, reminding that the seven days of time and three days of grace leading to the second coming are upon us. He exclaims the urgency in our reparations with Christ as His timetable does not waiver and He fulfills all things according to His Word. Don't tarry any longer. Ensee *A Call to Repentance* as no one knows the hour of His sweet return.

"If it ain't broke, don't fix it." But it's no secret that the Christian church is "broke," and does need fixing. Despite great effort, things are going badly for us. We've tried trendy and tech-

savvy, entrepreneurial and coffee-house gritty. They're not helping. Our problem is deeper than that. Our problem is our instincts--instincts informed by our story. There was a time when the Christian church was a powerfully transformative presence in society. It can be again--but it will require radical rethinking of the story that informs our instincts. And it's time! It's been five hundred years since the Reformation, our last major update. Today is a pivotal moment in history. With our worldview upended by quantum physics, history is demanding we renew the Christian story for our times. Rethinking Our Story reframes the elements of the Christian narrative for the new era. It explores "quantum" ways of thinking about God, human nature, Jesus, salvation, and the afterlife. The future of the church and the health of our society depend on our willingness to rethink, retell, and live out a better story. We will either update our instincts and contribute to the earth's well-being--or disappear into oblivion.

A novel of exuberance and ambition, spanning one thousand years of high-seas adventure, environmental and cultural catastrophe, and enduring love. "Mr. Eternity will be sizzling in my brain for a long time." -Lauren Groff Key West, 2016. Sea levels are rising, coral reefs are dying. In short, everything is going to hell. It's here that two young filmmakers find something to believe in: an old sailor who calls himself Daniel Defoe and claims to be five hundred and sixty years old. In fact, old Dan is in the prime of his life -- an incredible, perhaps eternal American life. The story unfolds over the course of a millennium, picking up in the sixteenth century in the Viceroyalty of New Granada and continuing into the twenty-sixth, where, in the future Democratic Federation of Mississippi States, Dan serves as an advisor to the King of St. Louis. Some things remain constant throughout the centuries, and being on the edge of ruin may be one. In 1560, the Spaniards have destroyed the Aztec and Inca civilizations. In 2500, we've destroyed our own: the cities of the Atlantic coast are underwater, the union has fallen apart, and cars, plastics, and air conditioning are relegated to history. But there are other constants too: love, humor, and old Dan himself, always adapting and inspiring others with dreams of a better life. An ingenious, hilarious, and genre-bending page-turner, Mr. Eternity is multiple novels in one. Together they form an uncommon work -- about our changing planet and its remarkable continuities.

Secrets of the Bible Revealed! Have you been puzzled by these seemingly impossible events from the Bible? 1. How could the universe and everything in it have been created in seven days when the evidence suggests it took millions, if not billions of years for it to form? 2. Is it really possible that Joshua could have stopped the sun and moon on command as related in the Old Testament? Wouldn't the entire solar system collapse if that were to happen? 3. Can Heaven actually exist and, if so, just where is it? 4. At death is it reasonable to believe the human spirit can be separated from our physical bodies and be transmitted to Heaven? If so, how is this accomplished? 5. The Bible predicts that our every thought and action will be revealed in Heaven. Is this possible using existing laws of physics? 6. Could Jesus have

actually appeared and then disappeared seemingly by magic as described by the Apostle John? 7. Is it reasonable to believe that time will stand still in Heaven and life can be eternal? The purpose of this book is to show how the events mentioned above may actually be possible using existing laws of science.

Adam and the Mud King's journey comes to an end at the fabled Springs of Zhal, which promise to cure the fallen Mosak knight of his fatal affliction and fulfill the promise the God of Whispers owes him.
