Life! It'll be the best decision you ever make!

We live in a time of great uncertainty about relationships. We search for "The One," but find ourselves staying single because nobody measures up. The reality of our relationships is not what we expected, and it becomes hard to balance it with all the other things that we want out of life. At the same time that marriage shows itself to be the one 'recession proof' industry; the rates of separation and break-up soar ever higher. *Rewriting the Rules* is a friendly guide through the complicated - and often contradictory - rules of love: the advice that is given about attraction and sex, monogamy and conflict, gender and commitment. It asks questions such as: which to choose from all the rules on offer? Do we stick to the old rules we learnt growing up, or do we try something new and risk being out on our own? This book considers how the rules are being 'rewritten' in various ways, for example the 'new monogamy', alternative commitment ceremonies, different ways of understanding gender, and new ideas for managing conflict and break-up where economics and child-care make complete separation a problem. In this way *Rewriting the Rules* gives the power to the reader to find the approach which fits their situation.

Reveals how sensual touch can be applied for a variety of benefits including enhanced sexuality, pregnancy relief, and reduced stress, and explains how the sensual massage can contribute to more satisfactory relationships.

"This book belongs on every animal lover's shelf—and it's a particularly great gift for young people who are on fire to save animals but are unsure where to start. Hooray!!"

—Sy Montgomery, author of *The Good Good Pig* and *The Soul of an Octopus*

The Animal Lover's Guide to Changing the World is the inspiring, accessible, and empowering book for everyone who loves animals and wants to live a more animal-friendly life, even if they aren't ready to join a movement or give up bacon. With more than 7.5 billion people on the planet, wildlife is going extinct at the fastest rate since the dinosaurs. Three to four million dogs and cats are killed in shelters every year; billions of chickens, pigs, and cows are killed for food; and countless animals are killed in research labs or their habitat. The numbers are daunting, but there's good news too! Even one person truly can make a difference without breaking the bank. With Stephanie Feldstein's straightforward and encouraging guidance, readers will learn how to take action to create a better world for the animals we love. It starts with changes as simple as taking a shorter shower, skipping meat once a week, wearing "this" not "that," and extends all the way to online activism and politics. The animals need us; so let's get on with some world changing!

A thirtieth anniversary edition of the guide first published in 1972 features updated text and illustrations and covers such topics as sexually transmitted diseases and achieving healthy intimacy. Reprint.

If you want to make your woman beg for more, you need to understand the way that the female mind works. There is a vast difference between what men see as sexual satisfaction and what a woman experiences as satisfaction. In this guide, I'll show you the difference. There's no beating around the bush. The positions suggested are those that will make her beg for bedtime and want to be in your embrace. We have also included a section on positions and behaviors to avoid. These are seen as turn-offs for women and it is unlikely that you will gain any points in the bedroom if your behaviors fall into this category. Learn to play the role of the lover, rather than thinking about your own pleasure. Her pleasure assures your pleasure in a way that you never thought possible. Believe me, the positions detailed in this book will give you the edge. The exact percentage of women who come out of the bedroom without having had an orgasm is higher than you may imagine and most of this is unnecessary. Men being unaware of what it takes to make a woman climax is often the cause. The positions mentioned in the book put her in control to a certain degree and to involve her in the equation will also make sex better for you. Often men don't take the time. They believe that making love is more of an animal instinct,
