"George Black rediscovers the history and lore of one of the planet's most magnificent landscapes. Read Empire of Shadows, and you'll never think of our first—in many ways our greatest—national park in the same way again." —Hampton Sides, author of Blood and Thunder Empire of Shadows is the epic story of the conquest of Yellowstone, a landscape uninhabited, inaccessible and shrouded in myth in the aftermath of the Civil War. In a radical reinterpretation of the nineteenth century West, George Black casts Yellowstone's creation as the culmination of three interwoven strands of history - the passion for exploration, the violence of the Indian Wars and the "civilizing" of the frontier - and charts its course through the lives of those who sought to lay bare its mysteries: Lt. Gustavus Cheyney Doane, a gifted but tormented cavalryman known as "the man who invented Wonderland"; the ambitious former vigilante leader Nathaniel Langford; scientist Ferdinand Hayden, who brought photographer William Henry Jackson and painter Thomas Moran to Yellowstone; and Gen. Phil Sheridan, Civil War hero and architect of the Indian Wars, who finally succeeded in having the new National Park placed under the protection of the US Cavalry. George Black's Empire of Shadows is a groundbreaking historical account of the origins of America's majestic national landmark.

A masterful, thought-provoking, and wide-ranging study of how the vestiges of the imperial era shape society today. In this groundbreaking narrative, The Shadows of Empire explains (in the vein of The Silk Roads and Prisoners of Geography) how the world's imperial legacies still shape our lives—as well as the thorniest issues we face today. For the first time in millennia we live without formal empires. But that doesn't mean we don't feel their presence rumbling through history. From Russia's incursions in the Ukraine to Brexit; from Trump's America-First policy to China's forays into Africa; from Modi's India to the hotbed of the Middle East, Samir Puri provides a bold new framework for understanding the world's complex rivalries and politics. Organized by region, and covering vital topics such as security, foreign policy, national politics and commerce, The Shadows of Empire combines gripping history and astute analysis to explain why the history of empire affects us all in profound ways; it is also a plea for greater awareness, both as individuals and as nations, of how our varied imperial pasts have contributed to why we see the world in such different ways.

Fractured history. Broken lives. Splintered souls. Since the alternate universe was first glimpsed in the classic episode "Mirror, Mirror," something about Star Trek's dark side has beckoned us, called to us, tempted us -- like forbidden fruit on the Tree of Knowledge. To taste it is to lose oneself in a world of startling familiarity and terrifying contradictions, where everything and everyone we knew is somehow disturbingly different, and where shocking secrets await their revelation. What began in 2007 with Glass Empires and Obsidian Alliances -- the first truly in-depth foray into the turbulent history of this other continuum -- now continues in twelve new short tales that revisit and expand upon that so-called "Mirror Universe," spanning all five of the core incarnations of Star Trek, as well as their literary offshoots, across more than two hundred years of divergent history, as chronicled by... The acclaimed author of Rubicon and other superb works of popular history now produces a thrillingly panoramic (and incredibly timely) account of the rise of Islam. No less significant than the collapse of the Roman Republic or the Persian invasion of Greece, the evolution of the Arab empire is one of the supreme narratives of ancient history, a story dazzlingly rich in drama, character, and achievement. Just like the Romans, the Arabs came from nowhere to carve out a stupefyingly vast dominion—except that they achieved their conquests not over the course of centuries as the Romans did but in a matter of decades. Just like the Greeks during the Persian wars, they overcame seemingly insuperable odds to emerge triumphant against the greatest empire of the day—not by standing on the defensive, however, but by hurling themselves against all who lay in their path.

This book explains the postcolonial Indian polity by presenting an alternative historical narrative of the British Empire in India and India's struggle for independence. It pursues this narrative along two major trajectories. On the one hand, it focuses on the role of imperial judicial institutions and practices in the making of both the British Empire and the anti-colonial movement under the Congress, with the lawyer as political leader. On the other hand, it offers a novel interpretation of Gandhi's non-violent resistance movement as being different from the Congress. It shows that the Gandhian movement, as the most powerful force largely responsible for India's independence, was anchored not in western discourses of political and legislative freedom but rather in Indic traditions of renunciative freedom, with the renouncer as leader. This volume offers a comprehensive and new reinterpretation of the Indian Constitution in the light of this historical narrative. The book contends that the British colonial idea of justice and the Gandhian ethos of resistance have been the two competing and conflicting driving forces that have determined the nature and evolution of the Indian polity after independence.

Shadows of Empire explores Javanese shadow theater as a staging area for negotiations between colonial power and indigenous traditions. Charting the shifting boundaries between myth and history in Javanese Mahabharata and Ramayana tales, Laurie J. Sears reveals what happens when these stories move from village performances and palace manuscripts into colonial texts and nationalist journals and, most recently, comic books and novels. Historical, anthropological, and literary in its method and insight, this work offers a dramatic reassessment of both Javanese literary/theatrical production and Dutch scholarship on Southeast Asia. Though Javanese shadow theater (wayang) has existed for hundreds of years, our knowledge of its history, performance practice, and role in Javanese society only begins with Dutch documentation and interpretation in the nineteenth century. Analyzing the Mahabharata and Ramayana tales in relation to court poetry, Islamic faith, Dutch scholarship, and nationalist journals, Sears shows how the shadow theater as we know it today must be understood as a hybrid of Javanese and Dutch ideas and interests, inseparable from a particular colonial moment. In doing so, she contributes to a re-envisioning of European histories that acknowledges the influence of Asian, African, and New World cultures on European thought—and to a rewriting of colonial and postcolonial Javanese histories that questions the boundaries and content of history and story, myth and allegory, colonialism and culture. Shadows of Empire will appeal not only to specialists in Javanese culture and historians of Indonesia, but also to a wide range of scholars in the areas of performance and literature, anthropology, Southeast Asian studies, and postcolonial studies.

“I will follow you to hell. You will never control any treasure and your army is dead where they stand. I promise you I will reach down from the heavens and take each of their lives”. Imagine for a moment you are skiing downhill racing ahead of an avalanche, your chest is pounding, pulse racing. That is what you will experience reading this story as the momentum builds, and your heart beats faster and faster. You will be absorbed into the lives of the characters, becoming a part of the action even after the ending. There are struggles between honor and greed, right and wrong, battlefields are soaked crimson over them. It makes you think and question 'What if?' due to the possibilities and theories contained within. It is purely fictional though based on a trilogy of poems I wrote. While hiking in Europe, Christian finds a unique rock formation resembling a rose hidden in shadows. While camping in the shadows, Christian hears the voice of a ghost telling a magnificent tale of times long past. The voice of Sir Rowan Baldin of the Knights Templar, born out of the aftermath of the Templar purge in France 600 years prior. Rowan's lineage managed to escape the purge to what is now known as Switzerland. There they helped shape a country while protecting their Templar roots in absolute secrecy. Rowan uses dreams and leads Christian on a fast paced adventure throughout Europe. Christian stumbles onto a number of remarkable discoveries, and is knighted by the modern day Templars he uncovers on his quest. Christian finds who he was meant to be. The Templars, these once 'warrior monks' are brought out of the shadows, and their reputation redeemed as their real story is told. This book is not suitable for children due to graphic nature of violence and adult situations. This is my first novel.

The idea of an alliance between Britain and its old Commonwealth colonies has recently made a remarkable comeback in the context of Brexit. Based on belief in a special bond between the English-speaking peoples of the UK, the USA, Canada, Australia and New Zealand, it has been dubbed the 'Anglosphere' by supporters and 'Empire 2.0' by critics. In this book, leading commentators Michael Kenny and Nick Pearce trace the historical origins of this idea back to the shadow cast by the British Empire in the late Victorian era. They show how leading British political figures, from Churchill to Thatcher, consistently reworked it and how it was revived by a group of right-wing politicians, historians and pamphleteers to support the case for Brexit. They argue that, while the contemporary idea of the Anglosphere as an alternative to European Union membership is seriously flawed, it nonetheless represents an enduring account of Britain's

role in the world that runs through the heart of political life over the last century. Shadows of Empire will be essential reading for everyone interested in British politics and post-Brexit foreign policy.
