Pinocchio, The Tale of a Puppet follows the adventures of a talking wooden puppet whose nose grew longer whenever he told a lie and who wanted more than anything else to become a real boy. As carpenter Master Antonio begins to carve a block of pinewood into a leg for his table the log shouts out, "Don't strike me too hard!" Frightened by the talking log, Master Cherry does not know what to do until his neighbor Geppetto drops by looking for a piece of wood to build a marionette. Antonio gives the block to Geppetto. And thus begins the life of Pinocchio, the puppet that turns into a boy. Pinocchio, The Tale of a Puppet is a novel for children by Carlo Collodi is about the mischievous adventures of Pinocchio, an animated marionette, and his poor father and woodcarver Geppetto. It is considered a classic of children's literature and has spawned many derivative works of art. But this is not the story we've seen in film but the original version full of harrowing adventures faced by Pinnocchio. It includes 40 illustrations.

This is the story of a woman who dared to dig, explore, and discover. This is the story of Dinosaur Lady. Mary Anning loved scouring the beach near her home in England for shells and fossils. She fearlessly climbed over crumbling cliffs and rocky peaks, searching for new specimens. One day, something caught Mary's eye. Bones. Dinosaur Bones. Mary's discoveries rocked the world of science and helped create a brand-new field of study: paleontology. But many people believed women couldn't be scientists, so Mary wasn't given the credit she deserved.

Nevertheless, Mary kept looking and learning more, making discoveries that reshaped scientific beliefs about the natural world. Dinosaur Lady is a beautiful and brilliant picture book that will enlighten children about the discovery of the dinosaurs and the importance of female scientists. It also includes a timeline of Mary Anning's life and lots of fantastic fossil facts!

This book traces out the life and career of Jane Goodall as a watcher of English fauna to her adult work as scholar of animal behavior in Africa.

Now more than ever, the world is recognizing how strong women and girls are. How strong? In the early 1920s, Aboriginal Alaskan expeditioner Ada Blackjack survived for two years as a castaway on an uninhabited island in the Arctic Ocean before she was finally rescued. And she's just one example. The Girl Who Rode a Shark: And Other Stories of Daring Women is a rousing collection of biographies focused on women and girls who have written, explored, or otherwise plunged headfirst into the pages of history. Undaunted by expectations, they made their mark by persevering in pursuit of their passions. The tales come from a huge variety of times and places, from a Canadian astronaut to an Indian secret agent and to a Balkan pirate queen who stood up to Ancient Rome. Author and activist Ailsa Ross gives readers a fun, informative piece of nonfiction that emphasizes the boundless potential of a new generation of women. Stunning portraits by artist Amy Blackwell accompany every biography in bold, vibrant colours.

Unearth the true story of green-thumbed pioneer and activist Kate Sessions, who helped San Diego grow from a dry desert town into a lush, leafy city known for its gorgeous parks and gardens. Katherine Olivia Sessions never thought she'd live in a place without trees. After all, Kate grew up among the towering pines and redwoods of Northern California. But after becoming the first woman to graduate from the University of California with a degree in science, she took a job as a teacher far south in the dry desert town of San Diego. Where there were almost no trees. Kate decided that San Diego needed trees more than anything else. So this trailblazing young woman singlehandedly started a massive movement that transformed the town into the green, garden-filled oasis it is today. Now, more than 100 years after Kate first arrived in San Diego, her gorgeous gardens and parks can be found all over the city. Part fascinating biography, part inspirational story, this moving picture book about following your dreams, using your talents, and staying strong in the face of adversity is sure to resonate with readers young and old.

A healthy ocean is home to many different kinds of animals. They can be big, like a whale, tiny, like a shrimp, and even scary, like a shark. Even though sharks can be scary, we need them to keep the oceans healthy. Unfortunately, due to overfishing, many shark species are in danger of extinction, and that can cause big problems in the oceans and even on land. What would happen if this continued and sharks disappeared completely? Artist Lily Williams explores how the disappearance would affect other animals across the whole planet in this clever book about the importance of keeping sharks, and our oceans, healthy.

"A wild romp, filled with humor and heart."—Lisa Schroeder, author of *It's Raining Cupcakes* and the *Charmed Life* series Ana Wright's social life is now officially on the endangered list: she lives in a zoo (umm, elephant droppings!?), her best friend lives on the other side of the world, and the Sneerers are making junior high miserable. All Ana wants is to fade into the background. Yeah, that's not going to happen. Creature File for Ana Wright: Species Name: Anaphyta Normalis Kingdom: The Zoo, Junior High Phylum: Girls Whose Best Friend Just Moved To New Zealand; Girls Who Are Forced To Live In A Zoo With Their Weirdo Parents And Twin Brother Weight: Classified Feeds On: Daydreams about Zackardia Perfecticus and wish cupcakes Life Span: Soon to become extinct due to social awkwardness Meet Marie Tharp (1920-2006), the first person to map the Earth's underwater mountain ridge, in this inspiring picture book biography from the author of *Shark Lady*. From a young age, Marie Tharp loved watching the world. She loved solving problems. And she loved pushing the limits of what girls and women were expected to do and be. In the mid-twentieth century, women were not welcome in the sciences, but Marie was tenacious. She got a job at a laboratory in New York. But then she faced another barrier: women were not allowed on the research ships (they were considered bad luck on boats). So instead, Marie stayed back and dove deep into the data her colleagues recorded. She mapped point after point and slowly revealed a deep rift valley in the ocean floor. At first the scientific community refused to believe her, but her evidence was irrefutable. She proved to the world that her research was correct. The mid-ocean ridge that Marie discovered is the single largest geographic feature on the planet, and she mapped it all from her small, cramped office.

Rivers wind through earth, cutting down and eroding the soil for millions of years, creating a cavity in the ground 277 miles long, 18 miles wide, and more than a mile deep known as the Grand Canyon. Home to an astonishing variety of plants and animals that have lived and evolved within its walls for millennia, the Grand Canyon is much more than just a hole in the ground. Follow a father and daughter as they make their way through the cavernous wonder, discovering life both present and past. Weave in and out of time as perfectly placed die cuts show you that a fossil today was a creature much long ago, perhaps in a completely different environment. Complete with a spectacular double gatefold, an intricate map and extensive back matter.

An authorized biography of a courageous and renowned marine biologist shows her in action as she rides whale sharks, explores the ocean in a tiny submersible craft, and much more. Original.

A colorfully illustrated biography of a little French boy who would become an internationally known oceanographer and champion of the seas. Once upon a time in France, a baby was born under the summer sun. His parents named him Jacques. As he grew, Jacques fell in love with the sea. He dreamed of breathing beneath the waves and swimming as gracefully as a fish. In fact, he longed to become a manfish. Jacques Cousteau grew up to become a champion of the seas and one of the best-known oceanographers in the world. In this lovely biography, poetic text and gorgeous paintings come together to create a portrait of Cousteau that is as magical as it is inspiring. Praise for Manfish "Berne offers a luminous picture-book biography about Jacques Cousteau Puybaret's smooth-looking acrylic paintings extend the words' elegant simplicity and beautifully convey the sense of infinite, underwater space." —Booklist (starred review) "This moving tribute to the great nautical observer and filmmaker is shot through with an authentically childlike sense of adventure and the thrill of discovery This poetic profile of a doer and a dreamer is certain to inspire fresh interest in discovering, and in caring for, our world's wonders." —Kirkus Reviews (starred review) "A new generation of children is introduced to the pioneering oceanographer and filmmaker. Beginning with Cousteau's childhood in France where he marveled at the sea and dreamed of breathing underwater, Berne reveals the unique mix of curiosity, ingenuity, and passion that drove Cousteau to make underwater exploration possible." —School Library Journal

Peopled by larger-than-life heroes and villains, charged with towering questions of good and evil, Atlas Shrugged is Ayn Rand's magnum opus: a philosophical revolution told in the form of an action thriller—nominated as one of America's best-loved novels by PBS's The Great American Read. Who is John Galt? When he says that he will stop the motor of the world, is he a destroyer or a liberator? Why does he have to fight his battles not against his enemies but against those who need him most? Why does he fight his hardest battle against the woman he loves? You will know the answer to these questions when you discover the reason behind the baffling events that play havoc with the lives of the amazing men and women in this book. You will discover why a productive genius becomes a worthless playboy...why a great steel industrialist is working for his own destruction...why a composer gives up his career on the night of his triumph...why a beautiful woman who runs a transcontinental railroad falls in love with the man she has sworn to kill. Atlas Shrugged, a modern classic and Rand's most extensive statement of Objectivism—her groundbreaking philosophy—offers the reader the spectacle of human greatness, depicted with all the poetry and power of one of the twentieth century's leading artists. An adult shark shows four baby sharks how to hunt using all six senses, why they can never stop moving, and what the most dangerous threat to them is. Includes fun facts, a Glossary of important terms, and photos of real great white sharks. Full color.

At 9 years old, Eugenie Clark developed an unexpected passion for sharks after a visit to the Battery Park Aquarium in New York City. At the time, sharks were seen as mindless killing machines, but Eugenie knew better and set out to prove it. Despite many obstacles in her path, Eugenie was able to study the creatures she loved so much. From her many discoveries to the shark-related myths she dispelled, Eugenie's wide scientific contributions led to the well-earned nickname "Shark Lady."

Meg Lowman was determined to investigate the marvelous, undiscovered world of the rainforest treetops. Meg's perseverance and creativity allowed her to achieve this goal, but when this fantastic ecosystem started to disappear, Meg needed to act quickly. Meg Lowman was always fascinated by the natural world above her head. The colors, the branches, and, most of all, the leaves and mysterious organisms living there. As a scientist, Meg set out to climb up and investigate the rain forest tree canopies-- and to be the first scientist to do so. But she encountered challenge after challenge. Male teachers would not let her into their classrooms, the high canopy was difficult to get to, and worst of all, people were logging and clearing the forests. Meg never gave up or gave in. She studied, invented, and persevered, not only creating a future for herself as a scientist, but making sure that the rainforests had a future as well. Working closely with Meg Lowman, author Heather Lang and artist Jana Christy beautifully capture Meg's world in the treetops.

You are beautiful from the top of your head to the tip of your toes--but beauty is far more than something you can have. It's also something you have to find. In other people. In nature. In acts of kindness. In math, and art, and music, and sports. In this beautiful inspirational book for girls, author-illustrator Talitha Shipman turns the concept of beauty inside out, transforming girls into beauty-seeking adventurers charging out into the world with confidence and ambition to find beauty and make beauty wherever they go.

Four-and-a-half-year-old Liam loves all Marine Creatures, but particularly SHARKS. Liam's fantasy is to be able to embark on underwater ocean adventures and talk to Sharks. One sunny day, when he goes fishing with his Dad, he meets Dearborn, a Great Whale Shark. To Liam's great surprise his eyes begin to shine with amazing magical beams, which enables him to talk to Dearborn! The Big Shark tells him he is a special Shark Boy and they have been waiting for him to come to their world. Together with his Granddad, Liam embarks on a Marvelous Adventure full of fun in the Deep Sea, with Goutomi the Japanese Stingray, Maximillian Forbes, the very posh Lion Fish and Pufferbee the little Prickle Puffer-fish! An exciting, adventure bedtime story book for children ages 4 to 8 who love marine life. This beautifully illustrated book about a Shark is the first in the series of Liam Shark Boy's adventures. The pictures of fish and the ocean animals teach curious children about the habits of the sea animals in a fun way. Brian Read Healthy Mum's Magazine 5-star rating 30/10/19 Liam Shark Boy Review by Brian R. on 30 Oct 2019 Book Style: Toddler and Kids Story book Reading Level: 3 (Reading Alone due to: Length of book and some descriptive vocabulary) Reading Length: 10-15 minutes (FYI - we never account for toddler questions) Illustration: Fun, cartoonish, cute Age Target: 1-8 Years of Age When reviewing this book, I was concerned about the sheer length of the story. However, as I got into the story, I found that the author had presented the story in beautifully constructed stand-alone segments. Those segments make it incredibly easy to read this book with a toddler, as it's just like a new story (with the same characters) every couple of pages. What's more, the book appears long (with 48 pages), but the font is large, and the illustrations provide interesting pauses for the young reader. What you're left with is a book that's really well written for toddlers and children alike. Brian Read - Children's Books There are several things to be impressed with in Liam Shark Boy. One of my favorite things about the book was the fact that...it was filled with facts! There are easy 2-3 facts per page that I, as a parent, learned during the story. What's more, I know my child was learning 5-6 things per page and enjoying the in-depth knowledge he was gaining about the ocean and sea life in general. Another thing that I loved about the book was just how specific everything was. For example, it wasn't just a boat that Liam went on with his father. No, it was a Kingfisher Offshore boat. We weren't just talking about a Porcupine Puffer Fish (and his family), we were talking about Pufferbee and Pufferbee's grandfather, Grandpuff. It's this specificity that really helps with retention in toddlers, and I loved how this story was so intentional in its inclusion of specifics. I think it's obvious from my review (above) that I really enjoyed Liam Shark Boy. Not only that, but my little boy enjoyed it just as much as I did, and isn't that what's important? He loved the magical story, the fact that Liam had super powers, and he loved all of the facts about the oceans and sea life. What's more, the story has been awarded a 2016 eLit Award in the Children's Books section, which should tell you all you need to know.
