After the Clone Wars, the Galactic Empire spared no expense to build a massive fleet of warships to enforce Imperial rule, intimidate defenseless worlds, and destroy all opposition. However, the Imperial Navy underestimated Rebel Alliance fighter pilots, who flew X-wing, Y-wing, A-wing, U-wing and B-wing starfighters, and whatever else they could obtain to fight their Imperial enemies. Decades later, Resistance pilots would fly next-generation versions of Rebel starfighters against the First Order. The Rebel Starfighters Owners' Workshop Manual presents a thorough history of the starfighters that served the Rebel Alliance and the Resistance. The history includes design origins, production, and modifications for each Rebel starfighter, and is fully illustrated with numerous photographs, schematics, exploded diagrams, and computer-generated artwork by Star Wars vehicle experts Chris Reiff and Chris Trevas. Text is by Ryder Windham, author and co-author of more than 70 Star Wars books. This Haynes Manual is the most thorough technical guide to Rebel starfighters available, and is fully authorized and approved by Lucasfilm.

snake that is fairly docile and considered safe when handled properly. In *The Boa Constrictor Manual*, world-renowned herp expert Philippe de Vosjoli has written a concise and useful guide, well illustrated with color photographs, that offers all of the information a boa keeper needs to maintain a pet snake safely and in the best of health. This *Advanced Vivarium Systems* title includes information about selecting and purchasing a healthy boa constrictor, proper housing and maintenance needs, feeding, and safe handling. Dr. Roger Klingenberg, a herp veterinary specialist, has written a special health chapter on diseases and disorders, with particular emphasis on the dreaded boa AIDS (inclusion body disease or IBD) as well as parasitism, respiratory disease, and more. The chapter concludes with a six-page chart on troubleshooting health concerns, which all boa constrictor keepers will find useful for general upkeep and recognizing and dealing with serious issues. Beyond the husbandry and health of boa constrictors, this book offers an excellent chapter by Jeff Ronne on breeding Colombia boa constrictors, beginning with the size and health of breeding animals and the female's cycling to the birth and care of newborns. Resources and index included.

to the death. The ship itself is stripped back and lean, with everything designed for a single purpose—war. This Haynes Manual traces the origins of a Bird-of-Prey from the moment it is commissioned by one of the Great Houses and constructed at the shipyards of the Klingon Naval Academy. It then proceeds to examine General Martok's famous ship the I.K.S. Rotarran in unprecedented detail. Featuring a stunning cutaway drawing and, for the first time ever, detailed deck plans and incredible new computer-generated artwork, the Haynes Bird-of-Prey Manual is a technical tour of the ship's systems, from the bridge and engineering rooms to the disruptors, torpedo launcher, and the all-important cloaking device. In addition, the Manual provides a unique insight into life on board a Klingon ship and the Rotarran's glorious history in the Dominion War. This Haynes Manual is fully authorized by CBS. All the new artwork has been designed by STAR TREK: THE NEXT GENERATION and STAR TREK: VOYAGER's senior illustrator Rick Sternbach, who is the world's leading expert on STAR TREK technology, with CG renders produced by STAR TREK VFX artist Adam 'Mojo' Lebowitz.

The South has a remarkable record of producing more than its share of talented writers. Names like Faulkner, O'Connor, Wolfe, Warren, Welty, readily come to mind. Less noticed, however, is the region's equally distinguished contribution in the field of journalism. Among national broadcasters, editors

and writers who started in the South are Tom Wicker, Walter Cronkite, David Brinkley, Clifton Daniel, Willie Morris, Robert Sherrill, Nelson Benton, Charles Kuralt, Larry King, Marshall Frady, Frank McGee. Why has the South produced so many creative journalists — and why would so many go North? We can't be sure. But a couple of thoughts come to mind. First, Southerners do seem to have a certain romance with the written and spoken word. There is a relish for sounds, unique expressions, and the embellished story. Reporting— like conversation — has always demanded more than the exchange of a few facts, and many of our brethran have been only too willing to turn their preoccupation with language and penchant for irrelevant detail into successful careers.
