"Thrilling, tender, utterly absorbing . . . Every chapter shimmered with truth. It's an unforgettable debut."

--Cheryl Strayed From travel writer Jedidiah Jenkins comes a long-awaited memoir of adventure, struggle, and lessons learned while bicycling the 14,000 miles from Oregon to Patagonia. On the eve of turning thirty, terrified of being funneled into a life he didn't choose, Jedidiah Jenkins quit his dream job and spent the next sixteen months cycling from Oregon to Patagonia. He chronicled the trip on Instagram, where his photos and profound reflections on life soon attracted hundreds of thousands of followers and got him featured by National Geographic and The Paris Review. In this unflinchingly honest memoir, Jed narrates the adventure that started it all: the people and places he encountered on his way to the bottom of the world, and the internal journey that prompted it. As he traverses cities, mountains, and inner boundaries, Jenkins grapples with the questions of what it means to be an adult, his struggle to reconcile his sexual identity with his conservative Christian upbringing, and his belief in travel as a way to "wake us up" to life back home. A soul-stirring read for the wanderer in each of us, To Shake the Sleeping Self is an unforgettable reflection on adventure, identity, and a life lived without regret.

Shoe Dog is the enthralling memoir of Phil Knight—Nike's cofounder and board chairman—revealing the company's earliest days at his parents' basement and its rise to become one of the world's leading brands in the shoe-making industry. Young Phil Knight had just finished graduate school, yet he was already yearning to make his mark in the world. With the fifty dollars his father had given him, Phil managed to establish a company with a mission of supplying the American market with low-cost Japanese running shoes of such superior quality. imports in 1963 out the back of his Plymouth Valiant. Phil certainly got a long way from that first year's \$8,000 to today's \$30 billion. Phil Knight's Nike is considered the gold standard in the modern era of start-ups.

Representing greatness and grace, Nike's swoosh is among the few iconic logos that can be recognized by anyone anywhere in the world. Shoe Dog finally unveils the mysterious Phil Knight—the person who built Nike from scratch. After decades of keeping silence about the company's history, Phil Knight finally opens up in this honest and humorous account of the hardships of starting a company. Phil Knight made the most important choice in his life when he found himself at a crossroad. He was only twenty-four years old when he set off to see the world. Phil was backpacking through Africa, Europe, and Asia and struggling with the Great Questions life had offered when he finally resolved that the right path for him is one where no one else would dare go. In Shoe Dog, Phil Knight recounts how he pleaded with harsh bankers, how he struggled to keep up with unforgiving competitors, and how he managed to overcome colossal setbacks. Phil also describes the meaningful relationships he had formed with the people at Nike: the company's cofounder and his former track coach, Bill Bowerman, as well as Blue Ribbon Sports' first employees, a strange group that shared the belief that sports is an instrument of liberation and put their faith in one another. United by a single daring vision and a familiar passion, Phil Knight and his merry band of brothers crafted both a brand and a culture that would change the industry forever. leadership and success: The executive chairman of Disney, Time's 2019 businessperson of the year, shares the ideas and values he embraced during his fifteen years as CEO while reinventing one of the world's most beloved companies and inspiring the people who bring the magic to life. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR Robert Iger became CEO of The Walt Disney Company in 2005, during a difficult time. Competition was more intense than ever and technology was changing faster than at any time in the company's history. His vision came down to three clear ideas: Recommit to the concept that quality matters, embrace technology instead of fighting it, and think bigger—think global—and turn Disney into a stronger brand in international markets. Today, Disney is the largest, most admired media company in the world, counting Pixar, Marvel, Lucasfilm, and 21st Century Fox among its properties. Its value is nearly five times what it was when Iger took over, and he is recognized as one of the most innovative and successful CEOs of our era. In *The Ride of a Lifetime*, Robert Iger shares the lessons he learned while running Disney and leading its 220,000-plus employees, and he explores the principles that are necessary for true leadership, including:

- Optimism. Even in the face of difficulty, an optimistic leader will find the path toward the best possible outcome and focus on that, rather than give in to pessimism and

blaming. • Courage. Leaders have to be willing to take risks and place big bets. Fear of failure destroys creativity. • Decisiveness. All decisions, no matter how difficult, can be made on a timely basis.

Indecisiveness is both wasteful and destructive to morale. • Fairness. Treat people decently, with empathy, and be accessible to them. This book is about the relentless curiosity that has driven Iger for forty-five years, since the day he started as the lowliest studio grunt at ABC. It's also about thoughtfulness and respect, and a decency-over-dollars approach that has become the bedrock of every project and partnership Iger pursues, from a deep friendship with Steve Jobs in his final years to an abiding love of the Star Wars mythology. "The ideas in this book strike me as universal" Iger writes. "Not just to the aspiring CEOs of the world, but to anyone wanting to feel less fearful, more confidently themselves, as they navigate their professional and even personal lives."

Soon to be a major Amazon film directed by George Clooney and starring Ben Affleck, Tye Sheridan, Lily Rabe, and Christopher Lloyd, a raucous, poignant, luminously written memoir about a boy striving to become a man, and his romance with a bar, in the tradition of *This Boy's Life* and *The Liar's Club*. J.R. Moehringer grew up captivated by a voice. It was the voice of his father, a New York City disc jockey who vanished before J.R. spoke his first word. Sitting on

the stoop, pressing an ear to the radio, J.R. would strain to hear in that plummy baritone the secrets of masculinity and identity. Though J.R.'s mother was his world, his rock, he craved something more, something faintly and hauntingly audible only in *The Voice*. At eight years old, suddenly unable to find *The Voice* on the radio, J.R. turned in desperation to the bar on the corner, where he found a rousing chorus of new voices. The alphas along the bar—including J.R.'s Uncle Charlie, a Humphrey Bogart look-alike; Colt, a Yogi Bear sound-alike; and Joey D, a softhearted brawler—took J.R. to the beach, to ballgames, and ultimately into their circle. They taught J.R., tended him, and provided a kind of fathering-by-committee. Torn between the stirring example of his mother and the lurid romance of the bar, J.R. tried to forge a self somewhere in the center. But when it was time for J.R. to leave home, the bar became an increasingly seductive sanctuary, a place to return and regroup during his picaresque journeys. Time and again the bar offered shelter from failure, rejection, heartbreak—and eventually from reality. In the grand tradition of landmark memoirs, *The Tender Bar* is suspenseful, wrenching, and achingly funny. A classic American story of self-invention and escape, of the fierce love between a single mother and an only son, it's also a moving portrait of one boy's struggle to become a man, and an unforgettable depiction of how men remain, at

In just a decade and half Jack Ma, a man who rose from humble beginnings and started his career as an English teacher, founded and built Alibaba into the second largest Internet company in the world. The company's \$25 billion IPO in 2014 was the world's largest, valuing the company more than Facebook or Coca Cola. Alibaba today runs the e-commerce services that hundreds of millions of Chinese consumers depend on every day, providing employment and income for tens of millions more. A Rockefeller of his age, Jack has become an icon for the country's booming private sector, and as the face of the new, consumerist China is courted by heads of state and CEOs from around the world. Granted unprecedented access to a wealth of new material including exclusive interviews, Clark draws on his own first-hand experience of key figures integral to Alibaba's rise to create an authoritative, compelling narrative account of how Alibaba and its charismatic creator have transformed the way that Chinese exercise their new found economic freedom, inspiring entrepreneurs around the world and infuriating others, turning the tables on the Silicon Valley giants who have tried to stand in his way. Duncan explores vital questions about the company's past, present, and future: How, from such unremarkable origins, did Jack Ma build Alibaba? What explains his relentless drive and his ability to outsmart his competitors? With over 80% of China's e-commerce market, how long can the company hope to maintain its dominance? As the company sets its sights on the country's financial and media markets, are there limits to Alibaba's ambitions, or will the Chinese government act

Clark tells Alibaba's tale within the wider story of China's economic explosion—the rise of the private sector and the expansion of Internet usage—that have powered the country's rise to become the world's second largest economy and largest Internet population, twice the size of the United States. He also explores the political and social context for these momentous changes. An expert insider with unrivaled connections, Clark has a deep understanding of Chinese business mindset. He illuminates an unlikely corporate titan as never before, and examines the key role his company has played in transforming China while increasing its power and presence worldwide.

Nike is known for being one of the best sporting goods brands in the world, with its slogan "Just Do It" and a great advertising campaign, Nike has reached millions of people. "Just Do It" is a short phrase, but of great impact that projects the seasoned spirit that its co-founders maintained during the first years of the company. Like many large companies, the story of Nike came about as a result of an "impossible" idea and the desire of a humble person to triumph against the odds. The creator of this brand was not a millionaire who simply invested in a good opportunity; Phil Knight was simply a young man with no business experience who was passionate about running. This book called "Never Stop " contains the memories of Phil Knight about the founding of Nike and all the processes and setbacks that he had to overcome in order for his brand to become what it is today. In this work you will discover the process by which Knight went from selling shoes in the trunk of his car to owning a brand that is not only used by famous athletes, but by a large part of the world's population. "Never Stop " is an excellent example that illustrates how if we follow our dreams, we think creatively and we are governed by our values, there will be no obstacles or limits that stop us on our way to success.

novel” (Matthew Thomas, author of *We Are Not Ourselves*) that does for Huntington’s disease what her debut novel *Still Alice* did for Alzheimer’s. Joe O’Brien is a forty-three-year-old police officer from the Irish Catholic neighborhood of Charlestown, Massachusetts. A devoted husband, proud father of four children in their twenties, and respected officer, Joe begins experiencing bouts of disorganized thinking, uncharacteristic temper outbursts, and strange, involuntary movements. He initially attributes these episodes to the stress of his job, but as these symptoms worsen, he agrees to see a neurologist and is handed a diagnosis that will change his and his family’s lives forever: Huntington’s disease. Huntington’s is a lethal neurodegenerative disease with no treatment and no cure, and each of Joe’s four children has a 50 percent chance of inheriting their father’s disease. While watching her potential future in her father’s escalating symptoms, twenty-one-year-old daughter Katie struggles with the questions this test imposes on her young adult life. As Joe’s symptoms worsen and he’s eventually stripped of his badge and more, Joe struggles to maintain hope and a sense of purpose, while Katie and her siblings must find the courage to either live a life “at risk” or learn their fate. Praised for writing that “explores the resilience of the human spirit” (*San Francisco Chronicle*), Lisa Genova has once again delivered a novel as powerful and unforgettable as the human insights at its core. The author of *Sweet and Low* presents a historical profile of Samuel Zemurray that traces his rise from a penniless youth to one of the world’s wealthiest and most powerful

In this young readers edition of the international bestseller, Nike founder and board chairman Phil Knight 'offers a rare and revealing look at the notoriously media-shy man behind the swoosh' (Booklist), opening up about how he went from being a track star at an Oregon high school to the founder of a brand and company that

changed everything. You must forget your limits. It was only when Phil Knight got cut from the baseball team as a high school freshman that his mother suggested he try out for track instead. Knight made the track team and he found he could run fast and even more he liked it. Ten years later, young and searching, Knight borrowed fifty dollars from his father and launched a company with one simple mission: import high-quality running shoes from Japan. Selling the shoes from the boot of his car to start, he and his gang of friends and runners built one of the most successful brands ever. Phil Knight encountered risks and setbacks along the way, but always followed his own advice. Just keep going. Don't stop. Whatever comes up, don't stop. Filled with wisdom, humanity, humour and heart, the young readers edition of the bestselling Shoe Dog is a story of determination that inspires all who read it. This is an abridged edition of the internationally bestselling adult book, but in addition it includes new frontmatter and backmatter, an introduction to the younger reader and 'A Letter to the Young Reader' that provides advice from Phil Knight for the battles that lie ahead for young people.

The remarkable story of how Joe Foster developed Reebok into one of the world's most famous sports brands, having started from a small factory in Bolton. Since the late 19th century, the Foster family had been hand-making running shoes, supplying the likes of Eric Liddell and Harold Abrahams - later immortalised in the film Chariots of Fire - as well as providing boots to most Football League clubs. But a family feud between Foster's father and uncle about the direction of their

business led to Joe and his brother Jeff setting up a new company, inspired by the success of Adidas and Puma, and so Reebok was born. At first, money was so short that Joe and his wife had to live in their rundown factory, while the machinery that made the shoes was placed around the edge of the floor, because it was so weak it could have collapsed if they'd been positioned in the middle. But, from this inauspicious start, a major new player in the sports equipment field began to emerge, inspired by Joe's marketing vision. By the 1980s, Reebok had become a global phenomenon, when they were the first to latch onto the potential of the aerobics craze inspired by Jane Fonda. Soon, Reeboks were being seen on Hollywood red carpets and even in the film *Aliens*, where Sigourney Weaver wore a pair of Reebok Alien Stompers. Like the international bestseller *Shoe Dog*, by Nike's Phil Knight, *Shoemaker* is a powerful tale of triumph against all the odds, revealing the challenges and sacrifices that go into creating a world-beating brand; it is also the story of how a small local business can transform itself, with the right products and the right vision, into something much, much bigger.

In the tradition of bestsellers such as *Shoedog*, *Authentic* is a surprisingly candid, compelling memoir by a high school dropout who went on to establish one of the world's most iconic brands Paul Van Doren is the founder of Vans—the shoe company beloved by skateboarders, creatives, and fans everywhere for its laid-back, colorful SoCal vibe, and famous for its people-oriented company culture. How did Van Doren, who started as a 16-year-

old "service boy" at a local rubber factory, establish a family shoe business that evolved into a globally recognized brand with annual revenue of more than four billion dollars? A blue-collar kid with no higher education and zero retail experience, Van Doren leveraged a knack for numbers, a genius for efficiency, and the know-how to make a great canvas tennis shoe into an all-American success story. In 1966, when the first House of Vans store opened, there were no stand-alone retail stores just for sneakers. Paul's bold experiments in product design, distribution, and marketing (Why not sell custom shoes? Single shoes?), aided by legions of fans—skateboarders, surfers, even Sean Penn wearing Vans' famous checkerboard slip on shoe in the film *Fast Times at Ridgemont High*—made Vans a household name. But there was also back-breaking work, a shocking bankruptcy, family turmoil, and a profound shift in how customers think about athletic shoes. Authentic details Van Doren's personal life, but also hard-won business lessons learned over six turbulent decades in the shoe trade: the importance of deep-rooted values, of improvisation, of vision (and revision), and above all, of valuing people over profits. Refreshingly forthright and totally entertaining, *Authentic* is a business memoir by an American original.

Every Tool's a Hammer is a chronicle of my life as a maker. It's an exploration of making, but it's also a permission slip of sorts from me to you. Permission to grab hold of the things you're interested in, that fascinate you, and to dive deeper into them to see where they lead you. Through stories from forty-plus years of making and molding, building and breaking, along with the lessons I learned along the way, this book is meant to be a toolbox of problem solving, complete with a shop's worth of notes on the tools, techniques, and materials that I use most often. Things like: In Every Tool There Is a Hammer—don't wait until everything is perfect to begin a project, and if you don't have the exact right tool for a task, just use whatever's handy; Increase Your Loose Tolerance—making is messy and filled with screwups, but that's okay, as creativity is a path with twists and turns and not a straight line to be found; Use More Cooling Fluid—it prolongs the life of blades and bits, and it prevents tool failure, but beyond that it's a reminder to slow down and reduce the friction in your work and relationships; Screw Before You Glue—mechanical fasteners allow you to change and modify a project while glue is forever but sometimes you just need the right glue, so I dig into which ones will do the job with the least harm and best effects. This toolbox also includes lessons from many other incredible makers and creators, including: Jamie Hyneman, Nick Offerman, Pixar director Andrew Stanton, Oscar-winner Guillermo del Toro, artist Tom Sachs, and chef Traci Des Jardins. And if everything goes well, we will hopefully save you a few mistakes (and maybe fingers) as well as help you

Shoe Dog by Phil Knight | Summary & Analysis Preview:

Shoe Dog is Phil Knight's memoir about founding his first company, Blue Ribbon; the creation of the Nike sportswear brand; and the lead-up to the initial public offering of Nike, Inc. In 1962, at 24 years old, Knight decided to pursue a business idea he researched in a Stanford University business class: introducing Japanese running shoes to the United States to compete with dominant European brands. This would require a trip to Japan. Knight wanted to extend this trip into a voyage around the world, so he acquired a loan from his father in Portland, Oregon. Knight planned an itinerary with a friend from Stanford. After a brief stay in Hawaii, Knight continued his journey without his traveling companion. In Japan, Knight met with executives at Onitsuka Tiger shoe company. He offered to become their US distributor as Blue Ribbon Sports. The executives agreed to send him samples...
