The volume assesses performative structures within a variety of medieval forms of textuality, from vernacular literature to records of parliamentary proceedings, from prayer books to musical composition. Three issues are central to the volume: the role of ritual speech acts; the way in which authorship can be seen as created within medieval texts rather than as a given category; finally, phenomena of voice, created and situated between citation and repetition, especially in forms which appropriate and transform literary tradition. The volume encompasses articles by historians and musicologists as well as literary scholars, it spans European literature from the West (French, German, Italian) to the East (Church Slavonic), vernacular and Latin; it contrasts modes of liturgical meditation in the Western and Eastern Church with secular plays and song, and it brings together studies on the character of 'voice' in major medieval authors such as Dante with examples of Dante-reception in the early twentieth century. This is the first unexpurgated English edition of Curzio Malaparte's legendary work *The Skin*. The book begins in 1943, with Allied forces cementing their grip on the devastated city of Naples. The sometime Fascist and ever-resourceful Curzio Malaparte is working with the Americans as a liaison officer. He looks after Colonel Jack Hamilton, "a Christian gentleman . . . an American in the noblest sense of the word," who speaks French and cites the classics and holds his nose as the two men tour the squalid streets of a city in ruins where liberation is only another word for desperation. Veterans of the disbanded Italian army beg for work. A rare specimen from the city's famous aquarium is served up at a ceremonial dinner for high Allied officers. Prostitution is rampant. The smell of death is everywhere. Subtle, cynical, evasive, manipulative, unnerving, always astonishing, Malaparte is a supreme artist of the unreliable, both the product and the prophet of a world gone rotten to the core.

This book analyses an important phase in the interlingual dubbing process of audiovisual productions: the elaboration of target language scripts for the recording studios. Written by a practitioner in the industry who is also an academic and trainer, it provides practical know-how and guidelines while adopting a scholarly, structural and methodical approach. Supported by an exemplified, analytical and theoretical framework, it is non-language specific and discusses strategies and tricks of the trade. Divided into three parts, the book provides a descriptive, practical and analytical approach to dubbing and dialogue writing. The author analyses scripts drawn from her own professional practice, including initial drafts that illustrate the various transformations of a text throughout the rewriting process. She also offers a 'backstage' perspective, from first-hand experience in recording sessions that enabled knowledge of text manipulation, studio jargon, and the dubbing post production process. This publication will provide a valuable resource for novice dubbing translators and dialogue writers, while offering practitioner insights to scholars and researchers in the field of Audiovisual Translation, Film and Media Studies.

The early modern and modern cultural world in the West would be unthinkable without Petrarch and Boccaccio. Despite this fact, there is still no scholarly contribution entirely devoted to analysing their intellectual revolution. Internationally renowned scholars are invited to discuss and rethink the historical, intellectual, and literary roles of Petrarch and Boccaccio between the great model of Dante's encyclopedia and the ideas of a double or multifaceted culture in the era of Italian Renaissance Humanism. In his lyrical poems and Latin treatises, Petrarch created a cultural pattern that was both Christian and Classical, exercising immense influence on the Western World in the centuries to come.

Boccaccio translated this pattern into his own vernacular narratives and erudite works, ultimately claiming as his own achievement the reconstructed unity of the Ancient Greek and Latin world in his contemporary age. The volume reconsiders Petrarch's and Boccaccio's heritages from different perspectives (philosophy, theology, history, philology, paleography, literature, theory), and investigates how these heritages shaped the cultural transition between the end of the Middle Ages and the early modern era, as well as European identity.

Deixis as a field of research has generated increased interest in recent years. It is crucial for a number of different subdisciplines: pragmatics, semantics, cognitive and contrastive linguistics, to name just a few. The subject is of particular interest to experts and students, philosophers, teachers, philologists, and psychologists interested in the study of their language or in comparing linguistic structures. The different deictic structures – not only the items themselves, but also the oppositions between them – reflect the fact that neither the notions of space, time, person nor our use of them are identical cross-culturally. This diversity is not restricted to the difference between languages, but also appears among related dialects and language varieties. This volume will provide an overview of the field, focusing on Romance languages, but also reaching beyond this perspective. Chapters on diachronic developments (language change), comparisons with other (non-)European languages, and on interfaces with neighboring fields of interest are also included. The editors and authors hope that readers, regardless of their familiarity with Romance languages, will gain new insights into deixis in general, and into the similarities and differences among deictic structures used in the languages of the world.

Questa raccolta di poesie e di racconti popolari anonimi in dialetto molisano tracciano il percorso di due storie che, pur diversificate, si compenetrano e si completano a vicenda: la storia individuale dell' autore e la storia collettiva della societa di un paese del Sud. Le immagini di un mondo apparentemente immobile e arcaico si alternano alle vicende di una realta storica complessa e tormentata, nel cui magma vecchio e nuovo si scontrano e si fondono. This collection of poems and anonymous folktales in the Molisan dialect traces the unfolding of two stories which, although distinct, interweave and complete each other: the author's individual story and the story of a town in the South of Italy. The images of an apparently immobile and archaic world alternate with the events of a complex and tormented historical reality, in whose magma the new and the old clash and fuse."

Features entries and filmographies for 15,000 actors and actresses, American and foreign, who have been active between 1967 and 1980, regardless of the size of their parts. Recognized as a master of Italian cinema, Vittorio De Sica is perhaps best known and most respected for his critically acclaimed neorealist films of the period 1946-55. As this anthology reveals, however, his production was remarkably multifaceted. The essays included here - some newly commissioned, some reprinted, and others in translation - look at De Sica's varied career from many perspectives. Structured chronologically, the volume begins by introducing readers to De Sica's early popularity as an actor and singer during the years of Italian Fascism, and to his initial directorial efforts before the end of World War II. It was not until the postwar era, however, that De Sica made his mark in film history. Special attention is given to this critical phase of his career, which encompasses the neorealist films that made him famous: "Shoeshine", "Bicycle Thieves", "Miracle in Milan", and "Umberto D." When the neorealist movement waned after 1955, De Sica returned to his roots in Neapolitan comedy for a series of commercially successful films starring Sophia Loren and Marcello Mastroianni. Memorable works from this period include "Two Women" and "Marriage Italian Style" as well as "Yesterday, Today, and Tomorrow", which won De Sica an Academy Award in 1965. In one of his final films, "The Garden of the Finzi Continis", he returned to the subject of World War II and to the human tragedy characteristic of his best neorealist productions. This fine anthology offers a comprehensive critical survey that covers the entire scope of De Sica's career, and is

an excellent resource for students, critics and film enthusiasts.

This edited book covers many topics in musicological literature, gathering various approaches to music studies that encapsulate the vivid relation music has to society. It focusses on repertoires and geographical areas that have not previously been well frequented in musicology. As readers will see, music has many roles to play in society. Music can be a generator of social phenomena, or a result of them; it can enhance or activate social actions, or simply co-habit with them. Above all, music has a stable position within society, in that it actively participates in it. Music can either describe or prescribe social aspects; musicians may have a certain position/role in society (e.g., the “popstar” as fashion leader, spokesman for political issues, etc.). Depending on the type of society, music may have a certain “meaning” or “function” (music does not mean the same thing everywhere in the world). Lastly, music can define a society, and it is not uncommon for it to best define a particular historical moment. Case-studies in this work provide visibility for musical cultures that are rarely exposed in the dominant musicological discourse. Several contributions combine musicological analysis with “insider-musician” points of view. Some essays in the collection address the cultural clash between certain types of music/musicians and the respective institutional counterparts, while certain contributing authors draw on experimental research findings. Throughout this book we see how musics are socially significant, and - at the same time - that societies are musically significant too. Thus the book will appeal to musicologists, cultural scholars and semioticians, amongst others.

After reviewing, from a grammaticalization perspective, the main stages in the evolution of Italian object clitic pronouns, the book discusses the distinctive morphosyntactic, semantic, and pragmatic features of Italian clitics. In particular, the book offers an original study of the most common examples of so-called *verbi procomplementari*, verbs which are characterized by the incorporation of clitics that no longer function as pronouns, and which are widely used in present-day Italian. Their emergence involves both grammaticalization of the clitic pronoun into an obligatory element, and lexicalization of the verb+clitic sequence. This study is essentially descriptive and maximally data-driven. The discussion of grammaticalization and lexicalization is reduced to the essentials and aims primarily at defining how these terms, which have received different and at times divergent interpretations, are employed in the book. The book is accessible to a wide and varied readership, which includes Italian and Romance linguists of functional and formal orientation, Italian language scholars, grammaticalization scholars interested in new case studies, as well as students of language change and variation.

This study examines, from a variety of critical perspectives, Pasolini's complex, paradoxical, and eclectic drama

“One of the best Italian novels of the year” in a pitch-perfect rendering in English by Ann Goldstein, Elena Ferrante’s translator (Huffington Post, Italy). Winner of the Campiello Prize A 2019 Best Book of the Year (The Washington Post Kirkus Reviews Dallas Morning News) Told with an immediacy and a rare expressive intensity that has earned it countless adoring readers and one of Italy’s most prestigious literary prizes, *A Girl Returned* is a powerful novel rendered with sensitivity and verve by Ann Goldstein, translator of the works of Elena Ferrante. Set against the stark, beautiful landscape of Abruzzo in central Italy, this is a compelling story about mothers and daughters, about responsibility, siblings, and caregiving. Without warning or explanation, an unnamed thirteen-year-old girl is sent away from the family she has always thought of as hers to live with her birth family: a large, chaotic assortment of individuals whom she has never met and who seem anything but welcoming. Thus begins a new life, one of struggle, tension, and conflict, especially between the young girl and her mother. But in her relationship with Adriana and Vincenzo, two of her newly acquired siblings, she will find the strength to start again and to build a new and enduring sense of self. “An achingly beautiful book, and an utterly devastating one.” —Minneapolis Star Tribune “Di Pietrantonio [has a] lively way with a phrase (the translator, Ann Goldstein, shows the same sensitivity she does with Elena Ferrante) [and] a fine instinct for detail.” ?The Washington Post “A gripping, deeply moving coming-of-age novel; immensely readable, beautifully written, and highly recommended.” ?Kirkus Reviews (starred review) “Captivating.” —The Economist

This cultural history of Mussolini's dictatorship discusses the meanings of modernity in interwar Italy. The work argues that fascism appealed to many Italian intellectuals as a new model of modernity that would resolve the European and national crises.

This book is the first dedicated volume of academic analysis on the monumental work of Elena Ferrante, Italy's most well-known contemporary writer. *The Works of Elena Ferrante: Reconfiguring the Margins* brings together the most exciting and innovative research on Ferrante's treatment of the intricacies of women's lives, relationships, struggles, and dilemmas to explore feminist theory in literature; questions of gender in twentieth-century Italy; and the psychological and material elements of marriage, motherhood, and divorce. Including an interview from Ann Goldstein, this volume goes beyond “Ferrante fever” to reveal the complexity and richness of a remarkable oeuvre.

In 1999 a collection of documents were found in the archives of the Italian Institute of Human Palaeontology belonging to Luigi Cardini, one of the founders of the Institute. These documents included site notebooks, photographs, drawings and maps relating to work carried out in Albania from 1930-39 where he was sent on a governmental mission to ‘reinforce Italian supremacy in Albania through archaeological research’. This monograph publishes extracts from these notebooks within a historical, political and archaeological context. The work he carried out is synthesised and a report is included on survey work carried out in 2000 and 2001 to attempt to relocate many of Cardini's cave sites described in his notebooks.

Split intransitivity has received a great deal of attention in theoretical linguistics since the formulation of the Unaccusative Hypothesis by David Perlmutter (1978). This book provides an in-depth investigation of split intransitivity as it occurs in Italian. The principal proposal is that the manifestations of split intransitivity in Italian, whilst being variously constrained by well-formedness conditions on the encoding of information structure, primarily derive from the tension between accusative (syntactic) and active (semantic) alignment. In contrast to approaches which consider the selection of the perfective operator to be the primary diagnostic of unaccusative or unergative syntax, this study identifies two morphosemantic domains in intransitive constructions on the basis of the analysis of a cluster of related phenomena (including agreement, argument suppression, ne-cliticization, past-participle behaviour, the morphosyntax of experiencer predicates and word order, as well as the selection of the perfective operator). Analysing the degree to which semantic, syntactic and discourse factors interact in determining each manifestation of split intransitivity, this work captures successfully the mismatches in the scope of the various diagnostics. Drawing upon insights provided by Role and Reference Grammar, and relying on corpus-based evidence and crossdialectal comparison, this study makes new empirical and theoretical contributions to the debate on split intransitivity. The book is accessible to linguists of all theoretical persuasions and will make stimulating reading for researchers and scholars in Italian and Romance linguistics, typology and theoretical linguistics.

The guide to English language reviews of all music recorded on compact discs.

Arising from a dissatisfaction with blandly general or abstrusely theoretical approaches to translation, this book sets out to show, through detailed and lively analysis, what it really means to translate literary style. Combining linguistic and lit crit approaches, it proceeds through a series of interconnected chapters to analyse translations of the works of D.H. Lawrence, Virginia Woolf, James Joyce, Samuel Beckett, Henry Green and Barbara Pym. Each chapter thus becomes an illuminating critical essay on the author concerned, showing how divergences between original and translation tend to be of a different kind for each author depending on the nature of his or her inspiration. This new and thoroughly revised edition introduces a system of 'back translation' that now makes Tim Parks' highly-praised book reader friendly even for those with little or no Italian. An entirely new final chapter considers the profound effects that globalization and the search for an immediate international readership is having on both literary translation and literature itself. This volume demonstrates that mixed utterances in young bilinguals can be analyzed in the same way as adult code-switching. It provides new insights not only in the field of code-switching and of language mixing in young bilinguals, but also in issues concerning general questions on linguistic theory which are difficult to be answered with monolingual data.
