Beginning to Read reconciles the debate that has divided theorists for decades over the "right" way to help children learn to read. Drawing on a rich array of research on the nature and development of reading proficiency, Adams shows educators that they need not remain trapped in the phonics versus teaching-for-meaning dilemma. She proposes that phonics can work together with the whole language approach to teaching reading and provides an integrated treatment of the knowledge and process involved in skillful reading, the issues surrounding their acquisition, and the implications for reading instruction. A timely story by witty wordsmith Jaimie Scanlon, complete with richly detailed, whimsical illustrations by Ellen Tumavicus; Ralph Rooster takes children on a round-the-world journey, capturing the power of travel and language learning to connect us with others and teach us about ourselves. It's life as usual on the farm until the pivotal moment when Ralph Rooster overhears the other animals complaining about his early morning racket and lazy habits. With feathers ruffled and pride tarnished, Ralph decides to leave the only home he has ever known. Flying the coop by the light of dawn, he embarks on a horizon-expanding global adventure. With plucky travel companion Goose by his side, Ralph visits colorful, far-flung destinations, making friends and learning to say "Cock a doodle doo!" in the local language. In each new location, he embraces the opportunity to engage in enriching cultural experiences samba dancing in Rio, visiting the Great Pyramid on camelback, learning tai chi in Beijing which begin to transform his character both inside and out. Ralph returns to the farm a humbler, wiser global citizen with a new appreciation for home and community, and a desire to share all the wonders the world has in store. Ralph's journey reminds us all that great things can happen when we put aside fear and embrace what is new and different."
