"Essential . . . one for the ages . . . a must read for all who care about presidential power." —The Washington Post "Authoritative . . . The most comprehensive account yet of that smoldering wreck of foreign policy, one that haunts us today." —LA Times One of BookPage's Best Books of 2020 *To Start a War* paints a vivid and indelible picture of a decision-making process that was fatally compromised by a combination of post-9/11 fear and paranoia, rank naïveté, craven groupthink, and a set of actors with idées fixes who gamed the process relentlessly. Everything was believed; nothing was true. Robert Draper's fair-mindedness and deep understanding of the principal actors suffuse his account, as does a storytelling genius that is close to sorcery. There are no cheap shots here, which makes the ultimate conclusion all the more damning. In the spirit of Barbara W. Tuchman's *The Guns of August* and Marc Bloch's *Strange Defeat*, *To Start A War* will stand as the definitive account of a collective scurrying for evidence that would prove to be not just dubious but entirely false—evidence that was then used to justify a verdict that led to hundreds of thousands of deaths and a flood tide of chaos in the Middle East that shows no signs of ebbing.

Empowering stories of game-changing women Dorothy Parker observed, "It's a man's world;" the lady entrepreneurs and game-changers profiled in *Women Who Launch* would beg to differ. Unlike the matrons of the 1950s—the women who lunched—these kick-ass females left their DNA in the annals of time. A history of women in business and beyond: Julia Ward-Howe showed what's good for the goose is good for the gander when she created the Girl Scouts of America. Sara Joseph Hale—authoress of *Mary had a Little Lamb*—convinced Lincoln to launch a national day of thanks while Anna Jarvis persuaded President Wilson to initiate a day in tribute of mothers. Estee Lauder revolutionized the cosmetics industry. The tradition of these Mothers of Invention continued when, compliments of knitter Krista Suh, the heads of millions were adorned with pink, pussy-cat ears in the largest women's march in history. These women who launched prove—in the words of Rosie the Riveter, "We can do it!" *Biographies of women creators, innovators, and leaders: Women Who Launch* is filled with inspiring true stories of women activists, artists, entrepreneurs who launched some of the most famous companies, brands, and organizations today and changed the world. It is at once a collection of biographies and a testament of female empowerment. Readers will find: • The stories behind renowned companies, brands, and organizations and the diverse women who launched them • Empowering quotes from strong women and those who refused to be kept down • Motivation to all women who want to succeed in their careers, launch companies, and change the world Find motivation in your career and life with the amazing history of women entrepreneurship, activism, and leadership.

In 1998, "Entrepreneur" magazine editor Lesonsky and her staff "wrote the book" on startups that became a national bestseller and a life-changing resource for hundreds of thousands of entrepreneurs. Now they have created the third edition, including new information for today's business world.

START-UP NATION addresses the trillion dollar question: How is it that Israel-- a country of 7.1 million, only 60 years old, surrounded by enemies, in a constant state of war since its founding, with no natural resources-- produces more start-up companies than large, peaceful, and stable nations like Japan, China, India, Korea, Canada and the UK? With the savvy

of foreign policy insiders, Senor and Singer examine the lessons of the country's adversity-driven culture, which flattens hierarchy and elevates informality-- all backed up by government policies focused on innovation. In a world where economies as diverse as Ireland, Singapore and Dubai have tried to re-create the "Israel effect", there are entrepreneurial lessons well worth noting. As America reboots its own economy and can-do spirit, there's never been a better time to look at this remarkable and resilient nation for some impressive, surprising clues.

Conventional accounting uses the logical (albeit, flawed) formula: Sales - Expenses = Profit. The problem is, businesses are run by humans, and humans aren't always logical. Serial entrepreneur Mike Michalowicz has developed a behavioral approach to accounting to flip the formula: Sales - Profit = Expenses. Just as the most effective weight loss strategy is to limit portions by using smaller plates, Michalowicz shows that by taking profit first and apportioning only what remains for expenses, entrepreneurs will transform their businesses from cash-eating monsters to profitable cash cows. Using Michalowicz's Profit First system, readers will learn that:

- Following 4 simple principles can simplify accounting and make it easier to manage a profitable business by looking at bank account balances.
- A small, profitable business can be worth much more than a large business surviving on its top line.
- Businesses that attain early and sustained profitability have a better shot at achieving long-term growth.

With dozens of case studies, practical, step-by-step advice, and his signature sense of humor, Michalowicz has the game-changing roadmap for any entrepreneur to make money they always dreamed of.

How maverick companies have passed up the growth treadmill — and focused on greatness instead. It's an axiom of business that great companies grow their revenues and profits year after year. Yet quietly, under the radar, a small number of companies have rejected the pressure of endless growth to focus on more satisfying business goals. Goals like being great at what they do, creating a great place to work, providing great customer service, making great contributions to their communities, and finding great ways to lead their lives. In *Small Giants*, veteran journalist Bo Burlingham takes us deep inside fourteen remarkable companies that have chosen to march to their own drummer. They include Anchor Brewing, the original microbrewer; CitiStorage Inc., the premier independent records-storage business; Clif Bar & Co., maker of organic energy bars and other nutrition foods; Righteous Babe Records, the record company founded by singer-songwriter Ani DiFranco; Union Square Hospitality Group, the company of restaurateur Danny Meyer; and Zingerman's Community of Businesses, including the world-famous Zingerman's Deli of Ann Arbor. Burlingham shows how the leaders of these small giants recognized the full range of choices they had about the type of company they could create. And he shows how we can all benefit by questioning the usual definitions of business success. In his new afterward, Burlingham reflects on the similarities and learning lessons from the small giants he covers in the book. Shares advice for transitioning away from unfulfilling jobs to embark on adventurous, meaningful careers, outlining recommendations for starting a personal business with a minimum of time and investment while turning ideas into higher income levels. 60,000 first printing.
