When you're from a place like Clayton, PA, you either leave as soon as you can, or you never leave. We can't even say we're a one-stoplight town, because we don't have a stoplight, just a traffic circle on a minor local highway. Here in Clayton, everyone knows everyone, and gossip and rumors are a way of life. So, when my high school sweetheart leaves our son and me for a woman in another state, it's the talk of the town for months, if not years. Even my motor-mouthed, wild child of a best friend, Cora, can't rustle up enough trouble to keep my name off their lips for more than a week or two. So, when I meet a handsome, single man not from Clayton, I assume he's just passing through. It was just supposed to be a night of fun with my BFF before school starts—one last hurrah before lesson plans and homework and packing lunches and school pickup lines take over everything. It wasn't supposed to lead to an intense, sizzling connection—an attraction which despite my most vehement denials goes far beyond the physical. The real question now is...will it end in another heartbreak for me and my son, or could it become a Happily Ever After?

An experimental new Internet-based form of money is created that anyone can generate at home; people build frightening firetrap computers full of video cards, putting out so much heat that one operator is hospitalised with heatstroke and brain damage. A young physics student starts a revolutionary new marketplace immune to State coercion; he ends up ordering hits on people because they might threaten his great experiment, and is jailed for life without parole. Fully automated contractual systems are proposed to make business and the law work better; the contracts people actually write are unregulated penny stock offerings whose fine print literally states that you are buying nothing of any value. A New York Times bestseller! A pioneering and timely study of how to navigate life's biggest transitions with meaning, purpose, and skill Bruce Feiler, author of the New York Times bestsellers *The Secrets of Happy Families* and *Council of Dads*, has long explored the stories that give our lives meaning. Galvanized by a personal crisis, he spent the last few years crisscrossing the country, collecting hundreds of life stories in all fifty states from Americans who'd been through major life changes—from losing jobs to losing loved ones; from changing careers to changing relationships; from getting sober to getting healthy to simply looking for a fresh start. He then spent a year coding these stories, identifying patterns and takeaways that can help all of us survive and thrive in times of change. What Feiler discovered was a world in which transitions are becoming more plentiful and mastering the skills to manage them is more urgent for all of us. The idea that we'll have one job, one relationship, one source of happiness is hopelessly outdated. We all feel unnerved by this upheaval. We're concerned that our lives are not what we expected, that we've veered off course, living life out of order. But we're not alone. *Life Is in the Transitions* introduces the fresh, illuminating vision of the nonlinear life, in which each of us faces dozens of disruptors. One in ten of those becomes what Feiler calls a lifequake, a massive change that leads to a life transition. The average length of these transitions is five years. The upshot: We all spend half our lives in this unsettled state. You or someone you know is going through one now. The most exciting thing Feiler identified is a powerful new tool kit for navigating these pivotal times. Drawing on his extraordinary trove of insights, he lays out specific strategies each of us can use to reimagine and rebuild our lives, often stronger than before. From a master storyteller with an essential message, *Life Is in the Transitions* can move readers of any age to think deeply about times of change and how to transform them into periods of creativity and growth.

**NEW YORK TIMES BESTSELLER** Globe-trotting golfer Tom Coyne has finally come home. And he's ready to play all of it. After playing hundreds of courses overseas in the birthplace of golf, Coyne, the author of *A Course Called Ireland* and *A Course Called Scotland*, returns to his own birthplace and delivers a rollicking love letter to golf in the United States. In the span of one unforgettable year, Coyne crisscrosses the country in search of its greatest golf experience, playing every course to ever host a US Open, along with more than two hundred hidden gems and heavyweights, visiting all fifty states to find a better understanding of his home country and countrymen. Coyne's journey begins where the US Open and US Amateur got their start, historic Newport Country Club in Rhode Island. As he travels from the oldest and most elite of links to the newest and most democratic, Coyne finagles his way onto coveted first tees (Shinnecock, Oakmont, Chicago GC) between rounds at off-the-map revelations, like ranch golf in Eastern Oregon and homemade golf in the Navajo Nation. He marvels at the golf miracle hidden in the sand hills of Nebraska, and plays an unforgettable midnight game under bright sunshine on the summer solstice in Fairbanks, Alaska. More than just a tour of the best golf the United States has to offer, Coyne's quest connects him with hundreds of American golfers, each from a different background but all with one thing in common: pride in welcoming Coyne to their course. Trading stories and swing tips with caddies, pros, and golf buddies for the day, Coyne adopts the wisdom of one of his hosts in Minnesota: the best

courses are the ones you play with the best people. But, in the end, only one stop on Coyne's journey can be ranked the Great American Golf Course. Throughout his travels, he invites golfers to debate and help shape his criteria for judging the quintessential American course. Should it be charmingly traditional or daringly experimental? An architectural showpiece or a natural wonder? Countless conversations and gut instinct lead him to seek out a course that feels bold and idealistic, welcoming yet imperfect, with a little revolutionary spirit and a damn good hot dog at the turn. He discovers his long-awaited answer in the most unlikely of places. Packed with fascinating tales from American golf history, comic road misadventures, illuminating insights into course design, and many a memorable round with local golfers and celebrity guests alike, *A Course Called America* is an epic narrative travelogue brimming with heart and soul.

He identifies the hypocrisies inherent in what we claim to believe and what we actually do. Within a framework of big-picture thinking about systems of government—after all, how would you put this country together if you started from scratch today?—to dead-on observations about the quirks and vibes of the citizens in each region, *Overstated* skewers us all: red, blue, and purple. It's ultimately infused with the same blend of optimism and practicality that sparked the U.S. into being.

The inspiring story of how a leading innovator in patient safety found a simple way to save countless lives. First, do no harm—doctors, nurses and clinicians swear by this code of conduct. Yet in hospitals and doctors' offices across the country, errors are made every single day - avoidable, simple mistakes that often cost lives. Inspired by two medical mistakes that not only ended in unnecessary deaths but hit close to home, Dr. Peter Pronovost made it his personal mission to improve patient safety and make preventable deaths a thing of the past, one hospital at a time. Dr. Pronovost began with simple improvements to a common procedure in the ER and ICU units at Johns Hopkins Hospital. Creating an easy five-step checklist based on the most up-to-date research for his fellow doctors and nurses to follow, he hoped that streamlining the procedure itself could slow the rate of infections patients often died from. But what Dr. Pronovost discovered was that doctors and nurses needed more than a checklist: the day-to-day environment needed to be more patient-driven and staff needed to see scientific results in order to know their efforts were a success. After those changes took effect, the units Dr. Pronovost worked with decreased their rate of infection by 70%. Today, all fifty states are implementing Dr. Pronovost's programs, which have the potential to save more lives than any other medical innovation in the past twenty-five years. But his ideas are just the beginning of the changes being made by doctors and nurses across the country making huge leaps to improve patient care. In *Safe Patients, Smart Hospitals*, Dr. Pronovost shares his own experience, anecdotal stories from his colleagues at Johns Hopkins and other hospitals that have made his approach their own, alongside comprehensive research—showing readers how small changes make a huge difference in patient care. Inspiring and thought provoking, this compelling book shows how one person with a cause really can make a huge difference in our lives. Introduces statistics, emblems, notable cities, products, and other facts about the fifty states, United States territories, and Washington, D.C.

From the New York Times bestselling author of *Tears We Cannot Stop*, a passionate call to America to finally reckon with race and start the journey to redemption. This eBook edition includes nine illustrations of George Floyd, Breonna Taylor and Emmett Till, among other victims of racial violence, by artist Everett Dyson. "Antiracist demonstrations have been like love notes to the martyrs of racist terror and anti-Blackness. Michael Eric Dyson writes out these love notes in this powerfully illuminating, heart-wrenching, and enlightening book. Long Time Coming is right on time." —Ibram X. Kendi, bestselling author of *How to Be an Antiracist*

“Crushingly powerful, *Long Time Coming* is an unfiltered Marlboro of black pain.” —Isabel Wilkerson, author of *Caste: The Origins of Our Discontents* “Formidable, compelling...has much to offer on our nation’s crucial need for racial reckoning and the way forward.” —Bryan Stevenson, author of *Just Mercy* The night of May 25, 2020 changed America. George Floyd, a 46-year-old Black man, was killed during an arrest in Minneapolis when a white cop suffocated him. The video of that night’s events went viral, sparking the largest protests in the nation’s history and the sort of social unrest we have not seen since the sixties. While Floyd’s death was certainly the catalyst, (heightened by the fact that it occurred during a pandemic whose victims were disproportionately of color) it was in truth the fuse that lit an ever-filling powder keg. *Long Time Coming* grapples with the cultural and social forces that have shaped our nation in the brutal crucible of race. In five beautifully argued chapters—each addressed to a black martyr from Breonna Taylor to Rev. Clementa Pinckney—Dyson traces the genealogy of anti-blackness from the slave ship to the street corner where Floyd lost his life—and where America gained its will to confront the ugly truth of systemic racism. Ending with a poignant plea for hope, Dyson’s exciting new book points the way to social redemption. *Long Time Coming* is a necessary guide to help America finally reckon with race.

Nolon explores the growing interest in land use law and practice that has been stimulated by the public's increasing disfavor with urban sprawl and its support of smart growth initiatives.
