A coauthor of the New York Times bestselling guide to Social Security *Get What's Yours* authors an essential companion to explain Medicare, the nation's other major benefit for older Americans. Learn how to maximize your health coverage and save money. Social Security provides the bulk of most retirees' income and Medicare guarantees them affordable health insurance. But few people know what Medicare covers and what it doesn't, what it costs, and when to sign up. Nor do they understand which parts of Medicare are provided by the government and how these work with private insurance plans—Medicare Advantage, drug insurance, and Medicare supplement insurance. Do you understand Medicare's parts A, B, C, D? Which Part D drug plan is right and how do you decide? Which is better, Medigap or Medicare Advantage?

What do you do if Medicare denies payment for a procedure that your doctor says you need? How do you navigate the appeals process for denied claims? If you're still working or have a retiree health plan, how do those benefits work with Medicare? Do you know about the annual enrollment period for Medicare, or about lifetime penalties for late enrollment, or any number of other key Medicare rules? Health costs are the biggest unknown expense for older Americans, who are turning sixty-five at the rate of 10,000 a day. Understanding and navigating Medicare is the best way to save health care dollars and use them wisely. In *Get What's Yours for Medicare*, retirement expert Philip Moeller explains how to understand all these important choices and make the right decisions for your health and wealth now—and for the future.

The Law Library presents the complete text of the Medicare Part B Income-Related Monthly Adjustment Amount (US Social Security Administration Regulation) (SSA) (2018 Edition).

Updated as of May 29, 2018 We are adding to our regulations a new subpart, Medicare Part B Income-Related Monthly Adjustment Amount, to contain the rules we will follow for Medicare Part B income-related monthly adjustment amount determinations.

The monthly adjustment amount represents the amount of decrease in the Medicare Part B premium subsidy, i.e. the amount of the Federal Government's contribution to the Federal Supplementary Medical Insurance (SMI) Trust Fund. This new subpart implements section 811 of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 (the Medicare Modernization Act or MMA) and contains the rules for determining when, based on income, a monthly adjustment amount will be added to a Medicare Part B beneficiary's standard monthly

premium. These final rules describe: What the new subpart is about; what information we will use to determine whether you will pay an income-related monthly adjustment amount and the amount of the adjustment when applicable; when we will consider a major life-changing event that results in a significant reduction in your modified adjusted gross income; and how you can appeal our determination about your income-related monthly adjustment amount.

The Social Security Administration (SSA) administers two programs that provide benefits based on disability: the Social Security Disability Insurance (SSDI) program and the Supplemental Security Income (SSI) program. This report analyzes health care utilizations as they relate to impairment severity and SSA's definition of disability. Health Care Utilization as a Proxy in Disability Determination identifies types of utilizations that might be good proxies for "listing-level" severity; that is, what represents an impairment, or combination of impairments, that are severe enough to prevent a person from doing any gainful activity, regardless of

age, education, or work experience.

Many Americans believe that people who lack health insurance somehow get the care they really need. Care Without Coverage examines the real consequences for adults who lack health insurance. The study presents findings in the areas of prevention and screening, cancer, chronic illness, hospital--based care, and general health status. The committee looked at the consequences of being uninsured for people suffering from cancer, diabetes, HIV infection and AIDS, heart and kidney disease, mental illness, traumatic injuries, and heart attacks. It focused on the roughly 30 million -- one in seven--working--age Americans without health insurance. This group does not include the population over 65 that is covered by Medicare or the nearly 10 million children who are uninsured in this country. The main findings of the report are that working-age Americans without health insurance are more likely to receive too little medical care and receive it too late; be sicker and die sooner; and receive poorer care when they are in the hospital, even for acute situations like a motor vehicle crash.

This Handbook provides information on topics such as how Social Security programs are administered, who is and isn't covered under the insurance programs, how claims are processed, what benefits are included, and how to obtain more information about Social Security policies.

Regulations Regarding Income-Related Monthly Adjustment Amounts to Medicare Beneficiaries Prescription Drug Coverage Premiums (US Social Security Administration Regulation) (SSA) (2018 Edition). Updated as of May 29, 2018 We are adding a new subpart to our regulations, which contains the rules we will apply to determine the income-related monthly adjustment amount for Medicare prescription drug coverage premiums. This new subpart implements changes made to the Social Security Act (Act) by the Affordable Care Act. These rules parallel the rules in subpart B of this part, which describes the rules we apply when we determine the income-related monthly adjustment amount for certain Medicare Part B (medical insurance) beneficiaries. These rules describe the new subpart; what information we will use to determine whether you will pay an income-related monthly adjustment amount and the amount of the adjustment when applicable; when we will consider a major life-changing event that results in a significant reduction in your modified adjusted gross income; and how you can appeal our determination about your income-related monthly adjustment amount. These rules will allow us to implement the provisions of the Affordable Care Act on time that relate to the income-related monthly adjustment amount for Medicare prescription drug coverage premiums, when they go into effect on January 1, 2011.
