All too soon, the line between responsibility and pleasure blurs. Gray hates to think of Maggie in danger. He hates that he thinks about Maggie too much, and of the day he won't be there to protect her. Secrets aren't easy to keep from those you love, but Gray needs to guard several with his life...before he risks losing Maggie forever.

Soft Target When a group of armed police in an elite unit turn maverick and start to rip off drug dealers at gunpoint, undercover cop Dan 'Spider' Shepherd is ordered to infiltrate the tight-knit team. Facing men with guns is nothing new for the former SAS trooper, but it's the first time he's had to investigate his own. As Shepherd finds himself in the firing line, he has to decide exactly where his loyalties lie. Cold Kill People-smuggling, counterfeit currency and attempted murder. It's all in a day's work for undercover cop Dan 'Spider' Shepherd. But what starts as a run-of-the mill investigation quickly turns into a matter of life and death when he uncovers a terrorist cell on a mission of death and destruction. With the clock ticking and the explosives primed, Shepherd and his colleagues realise that to avoid catastrophe, they have to be even more merciless than the terrorists. Hot Blood Now working for the Serious Organised Crime Agency, undercover cop Dan 'Spider' Shepherd is used to putting his life on the line. But when the man who once saved his life is kidnapped in the badlands of Iraq, thrown into a basement and threatened with execution, Shepherd has to decide whether his loyalties lie with his country, his career, or his friend.

The US government spends billions of dollars to secure strategic and tactical assets at home and abroad against enemy attack. However, as "hard targets" such as military installations and government buildings are further strengthened, vulnerable soft targets are increasingly in the crosshairs of terrorists and violent criminals. Attacks on crowded spaces such as churches, schools, malls, transportation hubs, and recreational venues result in more casualties and have a powerful effect on the psyche of the populace. Soft Target Hardening: Protecting People from Attack, Second Edition, continues the national dialogue started by the first edition by providing case studies, best practices, and methodologies for identifying soft target vulnerabilities and reducing risk in the United States and beyond. Soft target attacks steadily climbed in number and scale of violence since the first edition of this book. New tactics emerged, as terrorists continually hit the "reset button" with each attack. In this volatile, ever-changing security environment, plans to protect people and property must be fluid and adaptable. Along with new hardening tactics, such as the use of tactical deception to disguise, conceal, and divert, the author has updated the text with new case studies to reflect and respond to the fast-moving transformation in methods from more complex and organized forms of terror to simpler, yet still-devastating approaches. This book is a must-read for those who secure, own, and operate soft target facilities, and for citizens who want to protect themselves and their families from attack. ?Soft Target Hardening, Second Edition, was named the ASIS International Security Industry Book of the Year in 2019.

The second book in the bestselling Dan 'Spider' Shepherd series. There's only one thing more dangerous than a corrupt cop . . . and that's a corrupt cop with a gun. When a group of armed police in an elite unit turn maverick and start to rip off drug dealers at gunpoint, undercover cop Dan 'Spider' Shepherd is given his most dangerous mission so far. Shepherd is ordered to infiltrate the tight-knit team, to gain their confidence and to ultimately betray them. Facing men with guns is nothing new for the former SAS trooper, but it's the first time he's had to investigate his own. And the job couldn't have come at a worse time for him. As Shepherd finds himself in the firing line, he has to decide exactly where his loyalties lie.

A provocative look at one of Canada's biggest tragedies On March 16, 2005, almost twenty years after one of the biggest mass murders in Canadian Aviation history, the Air-India Case concluded with a verdict that authors Zuhair Kashmeri and Brian McAndrew predicted sixteen years ago when *Soft Target* was first published: not guilty. In this second edition, the two offer a detailed foreword that brings readers up-to-date with some startling new information surrounding the twin bombings on June 23, 1985 in the air over the Atlantic, and on the ground in Japan, which left 331 people dead. They offer key details from the trial of Ripudaman Singh Malik and Ajaib Singh Bagri that took place in a specially-built Vancouver courtroom, leads that were not followed up, and more details of India's intelligence service's clandestine interference in Canada. They explain how their own prediction that justice would not be found because of a botched investigation came true, and that only a public inquiry will offer closure to the families of the victims.
