The major compilation of Old French lyrics included in Oxford, Bodleian Library, MS Douce 308 (Lorraine, ca. 1310) is the only trouvère chansonnier that groups its songs by genre, to the exclusion of other organizing criteria. Under the rubric "Ci en comancent les balletes," the manuscript presents 188 texts, most with a refrain though none with music, meant to accompany dancing. The balletes are of the utmost interest for their place within the development of medieval lyric, especially for their relation to the formes fixes of the 14th century. Consisting mainly of unica, the collection represents a lyric tradition fostered in Lorraine, contemporaneous with the courtly compositions of the trouvères, yet unacknowledged by compilers of mainstream songbooks in northern France in the 13th century. Eglal Doss-Quinby, Samuel N. Rosenberg, and Elizabeth Aubrey offer a critical edition of the texts in Douce 308, facing English versions, the music surviving in other sources for 26 of the songs, and an extensive introduction.

Thank you for reading our PRINCE2 Foundation Training Manual. The main objective

of this book is to provide an easy-to-read and easy-to-understand PRINCE2(R) Foundation training manual. The official PRINCE2 manual, "Managing Successful Projects with PRINCE2," is an excellent reference manual, but it is not a training manual and should not be used as one, as it is very difficult to comprehend and understand if you are new to project management. The official PRINCE2 manual also covers the complete Practitioner Syllabus, and it's impossible to know which parts are just focused on the PRINCE2 Foundation syllabus, so you have to read everything, which is not good if you are just studying for the foundation exam. Henceforth, this book is meant to be (and is) an easy introduction to PRINCE2 based on the Foundation syllabus, and it's quickly becoming the most read book for people wishing to learn about PRINCE2 and prepare for the foundation exam.
