The last thing I expected this Thanksgiving was to meet an alien prince. Because I have no life and no friends, I'm working a shift at the convenience store on Thanksgiving. I expect the day to be completely uneventful. Then a freaking UFO lands in the parking lot. Sani is a 7-foot-tall green man with 12-pack abs, and he's a prince from the planet Eler. Even crazier? He is in search of a mate because he needs to repopulate his kingdom. And he wants me to be his mate... ***Get ready for Thanksgiving with this sweet and sexy short story containing cavity-inducing instalove, a baffled heroine, a well-equipped alien prince, and a HEA! Part of Romance Books You Should Be Reading: The Holiday Collection, a collaboration between your favorite authors of paranormal and sci-fi romance!*** Excerpt: My eyes almost leap out of my head when Sani casually lies next to me. "Oh, are we sleeping together?" I ask. Surprised, he asks, "Does that make you uncomfortable? Should I sleep on the floor?" Willing myself to sound as cool as a cucumber, I say, "I'm fine." He looks unconvinced. "I don't mind sleeping on the floor. I've slept on more uncomfortable surfaces." I shake my head. "I'm fine," I say again, though having Sani's tall and muscular body so close to mine is causing my heart to race. "Are you sure?" "I'm sure," I say, though I'm totally not. He nods. "Okay." For the next few minutes, we lie in silence. I try to go to sleep, but my every cell is so aware of Sani. I can feel his warmth and smell his scent, which is sweet and spicy. I wonder if it's his natural scent or a cologne. Do people on his planet wear cologne? I watch him out of the corner of my eye. The more I look at him, the more handsome I find him. "Can't sleep?" he asks. "Are you considered attractive on your planet?" I blurt out. Oh, for the love of God, why did I ask that? Luckily, he doesn't seem offended by my question. "I guess so."

Then he asks me, "How about you?" "I'm pretty average." I'm not ugly, but I'm not beautiful. On my best days, I might be called pretty cute. "Really? I would've thought you were well above average." I suppress a giggle. If a human guy told me that my looks were "well above average," I would've been like, "What the f**k?" But for some reason, when Sani tells me that, joy warms my insides. "Thank you." "Do you find me attractive?" I stare at him, at all of his defined lines, smooth green skin, all-violet eyes, full dark blue lips. "Yes," I say, my voice barely above a whisper. He strokes my cheek. "Do you mind if I kiss you?" I breathe, "I don't mind."

Sleeping Funny is that rare book--a debut that introduces us to a fully mature writer, one who instantly draws you in with her lean style, empathy and wit, and keeps you reading, with growing admiration and delight, from first page to last. These stories showcase Miranda Hill's astonishing range and virtuosity, introducing us to a protean variety of characters, each as well-realized as the next. Here is a writer who can seamlessly inhabit the consciousness of a sixteen-year-old navigating an embarrassing sex-ed class, a middle-aged minister experiencing a devastating crisis of faith in a 19th century rural village, a pilot's widow coping with her grief by growing an unusual "victory garden" during World War II, and well-heeled modern professional women juggling jobs, kids, and husbands, and trying to cope with the arrival of a beautiful bohemian neighbour, on a gentrified street in downtown Toronto. The qualities that unite these remarkable stories are a pervasive sense of mystery and magic, a wonderful wit and sophistication, and most surprisingly, the slight disorientation implied by the title: In Miranda Hill's beguiling universe, the "real world" is recognizable and slightly askew, as if you were experiencing one of those strange dreams where you think you are awake--or as if you've been "sleeping funny" and are on the cusp of waking into the everyday world you thought you knew.

Could the story of mankind be far older than we have previously believed? Using tools as varied as archaeo-astronomy, geology, and computer analysis of ancient myths, Graham Hancock presents a compelling case to suggest that it is. "A fancy piece of historical sleuthing . . . intriguing and entertaining and sturdy enough to give a long pause for thought."—Kirkus Reviews In Fingerprints of the Gods, Hancock embarks on a worldwide quest to put together all the pieces of the vast and fascinating jigsaw of mankind's hidden past. In ancient monuments as far apart as Egypt's Great Sphinx, the strange Andean ruins of Tihuanaco, and Mexico's awe-inspiring Temples of the Sun and Moon, he reveals not only the clear fingerprints of an as-yet-unidentified civilization of remote antiquity, but also startling evidence of its vast sophistication, technological advancement, and evolved scientific knowledge. A record-breaking number one bestseller in Britain, Fingerprints of the Gods contains the makings of an intellectual revolution, a dramatic and irreversible change in the way that we understand our past—and so our future. And Fingerprints of God tells us something more. As we recover the truth about prehistory, and discover the real meaning of ancient myths and monuments, it becomes apparent that a warning has been handed down to us, a warning of terrible cataclysm that afflicts the Earth in great cycles at irregular intervals of time—a cataclysm that may be about to recur. "Readers will hugely enjoy their quest in these pages of inspired storytelling."—The Times (UK)
