The Fifth Edition of International Accounting provides an overview of the broadly defined area of international accounting, but also focuses on the accounting issues related to international business activities and foreign operations. This edition also includes substantially updated coverage of the International Accounting Standards Board (IASB) and International Financial Reporting Standards (IFRS). The unique benefits of this textbook include its up-to-date coverage of relevant material, extensive numerical examples provided in most chapters, two chapters devoted to the application of International Financial Reporting Standards (IFRS), and coverage of nontraditional but important topics such as strategic accounting issues of multinational companies, international corporate governance, and corporate social responsibility reporting. Incorporating developments from both academia and industry, this exploration of brands, brand equity and strategic brand management combines a theoretical foundation with numerous techniques and practical insights. Suitable for both graduates and upper-level undergraduates.

Marketing Strategy and Competitive Positioning 6e deals with the process of developing and implementing a marketing strategy. The book focuses on competitive positioning at the heart of marketing strategy and includes in-depth discussion of the processes used in marketing to achieve competitive advantage. The book is primarily about creating and sustaining superior performance in the marketplace. It focuses on the two central issues in marketing strategy formulation – the identification of target markets and the creation of a differential advantage. In doing that, it recognises the emergence of new potential target markets born of the recession and increased concern for climate change; and it examines ways in which firms can differentiate their offerings through the recognition of environmental and social concerns. The book is ideal for undergraduate and postgraduate students taking modules in Marketing Strategy, Marketing Management and Strategic Marketing Management.

A hands-on guide to the use of quantitative methods and software for making successful business decisions The appropriate use of quantitative methods lies at the core of successful decisions made by managers, researchers, and students in the field of business. Providing a framework for the development of sound judgment and the ability to utilize quantitative and qualitative approaches, Data Driven Business Decisions introduces readers to the important role that

data plays in understanding business outcomes, addressing four general areas that managers need to know about: data handling and Microsoft Excel®, uncertainty, the relationship between inputs and outputs, and complex decisions with trade-offs and uncertainty. Grounded in the author's own classroom approach to business statistics, the book reveals how to use data to understand the drivers of business outcomes, which in turn allows for data-driven business decisions. A basic, non-mathematical foundation in statistics is provided, outlining for readers the tools needed to link data with business decisions; account for uncertainty in the actions of others and in patterns revealed by data; handle data in Excel®; translate their analysis into simple business terms; and present results in simple tables and charts. The author discusses key data analytic frameworks, such as decision trees and multiple regression, and also explores additional topics, including: Use of the Excel® functions Solver and Goal Seek Partial correlation and auto-correlation Interactions and proportional variation in regression models Seasonal adjustment and what it reveals Basic portfolio theory as an introduction to correlations Chapters are introduced with case studies that integrate simple ideas into the larger business context, and are followed by further details, raw data, and motivating insights. Algebraic notation is used only when necessary, and throughout the book, the author utilizes real-world examples from diverse areas such as market surveys, finance, economics, and business ethics. Excel® add-ins StatproGo and TreePlan are showcased to demonstrate execution of the techniques, and a related website features extensive programming instructions as well as insights, data sets, and solutions to problems included in the material. The enclosed CD contains the complete book in electronic format, including all presented data, supplemental material on the discussed case files, and links to exercises and solutions. Data Driven Business Decisions is an excellent book for MBA quantitative analysis courses or undergraduate general statistics courses. It also serves as a valuable reference for practicing MBAs and practitioners in the fields of statistics, business, and finance.

Strategic Marketing: planning and control covers contemporary issues by exploring current developments in marketing theory and practice including the concept of a market-led orientation and a resource/asset-based approach to internal analysis and planning. The text provides a synthesis of key strategic marketing concepts in a concise and comprehensive way, and is tightly written to accommodate the reading time pressures on students. The material is highly exam focused and has been class tested and refined. Completely revised and updated, the second edition of Strategic Marketing: planning and control includes chapters on 'competitive intelligence', 'strategy formulation' and 'strategic implementation'. The final chapter, featuring mini case studies, has been thoroughly revised with new and up to date case material.

Few marketers recognize the extraordinary range of metrics now available for evaluating their strategies and tactics. In Marketing Metrics, four leading

researchers and consultants systematically introduce today's most powerful marketing metrics. The authors show how to use a "dashboard" of metrics to view market dynamics from various perspectives, maximize accuracy, and "triangulate" to optimal solutions. Their comprehensive coverage includes measurements of promotional strategy, advertising, and distribution; customer perceptions; market share; competitors' power; margins and profits; products and portfolios; customer profitability; sales forces and channels; pricing strategies; and more. You'll learn how and when to apply each metric, and understand tradeoffs and nuances that are critical to using them successfully. The authors also demonstrate how to use marketing metrics as leading indicators, identifying crucial new opportunities and challenges. For clarity and simplicity all calculations can be performed by hand, or with basic spreadsheet techniques. In coming years, few marketers will rise to senior executive levels without deep fluency in marketing metrics. This book is the fastest, easiest way to gain that fluency.

Strategic alliances are becoming increasingly important as a long-term response to the move towards globalization of businesses, and to their need to learn and adapt quickly, gain access to new markets, and diffuse new technologies. In this comprehensive informative and practical text the authors develop: An analysis of over 30 alliances in the US, Japan and Europe. A blueprint for successfully forming and implementing an alliance. Practical case histories of nine successful and unsuccessful alliances which highlight benefits and drawbacks. Highly successful in hardback, this book is now available in paperback for undergraduate and MBA students of corporate strategy and international business.

For graduate courses in Nonprofit Marketing and Management. This best-selling text focuses on the impact of nonprofit marketing in the social sector and the growing intersection between nonprofit management and the business world. Strategic Marketing Management (5th edition) offers a comprehensive framework for strategic planning and outlines a structured approach to identifying, understanding, and solving marketing problems. For business students, the theory advanced in this book is an essential tool for understanding the logic and the key aspects of the marketing process. For managers and consultants, this book presents a conceptual framework that will help develop an overarching strategy for day-to-day decisions involving product and service design, branding, pricing, promotions, and distribution. For senior executives, the book provides a big-picture approach for developing new marketing campaigns and evaluating the success of ongoing marketing programs.

Over the last decade the question of the relationship between organisations and society has been subject to much debate, often of a critical nature. The decade has seen protests concerning the actions of organisations, exposures of corporate exploitation and unfolding accounting scandals. At the same time ethical behaviour and a concern for the environment have been shown to have a positive correlation with corporate performance. The nature of corporate social responsibility is therefore a topical one for businesses and academics. There are however many different perspectives upon what is meant by corporate social responsibility and how this might be applied within organisations. This book explores some of these different perspectives based upon the experiences of different people in different parts of the world. There has been much written about globalisation – some of it positive and much of it negative. It is a subject which arouses definite opinions. Despite the fact that the word globalisation is part of the title of this book it is not our intention to contribute to this debate. Instead we use the word globalisation in its original sense to represent the ubiquity of the concern for Corporate Social Responsibility (CSR) which is the subject matter of this book.

Specifically we are concerned with the social contract between an organisation and its stakeholders. It is apparent that any actions which an organisation undertakes will have an effect not just upon itself but also upon the external environment within which that organisation resides. In considering the effect of the organisation upon its external environment it must be recognised that this environment includes both the business environment in which the firm is operating, the local societal environment in which the organisation is located and the wider global environment. Effectively therefore there is a social contract between organizations and their stakeholders. Recognition of the rights of all stakeholders and the duty of a business to be accountable in this wider context therefore has been largely a relatively recent phenomenon. The economic view of accountability only to owners has only recently been subject to debate to any considerable extent. In the current environment there is a need to debate this issue and its implications. This book therefore recognises the international scope of the interest in corporate social responsibility both through the contributions made by the authors of the respective chapters, who come from various parts of the world, and also through the international importance of the perspectives offered by these contributors. In doing so the various authors demonstrate that corporations are a part of society just as much as each of us is as a individual. Furthermore they demonstrate that the issues and concerns are not local ones but are international in scope and concern us all. The contributions to this book provide a representation of the range of concern for this relationship and the range of topics which fall within the subject matter of CSR. Among

the authors who have contributed to this book are representatives from every continent and from a wide range of disciplines. The topics which are considered in the various chapters are equally diverse.

Business to business markets are considerably more challenging than consumer markets and as such demand a more specific skillset from marketers. Buyers, with a responsibility to their company and specialist product knowledge, are more demanding than the average consumer. Given that the products themselves may be highly complex, this often requires a sophisticated buyer to understand them. Increasingly, B2B relationships are conducted within a global context. However all textbooks are region-specific despite this growing move towards global business relationships – except this one. This textbook takes a global viewpoint, with the help of an international author team and cases from across the globe. Other unique features of this insightful study include: placement of B2B in a strategic marketing setting; full discussion of strategy in a global setting including hypercompetition; full chapter on ethics and CSR early in the text; and detailed review of global B2B services marketing, trade shows, and market research. This new edition has been fully revised and updated with a full set of brand new case studies and features expanded sections on digital issues, CRM, and social media as well as personal selling. More selective, shorter, and easier to read than other B2B textbooks, this is ideal for introduction to B2B and shorter courses. Yet, it is comprehensive enough to cover all the aspects of B2B marketing any marketer needs, be they students or practitioners looking to improve their knowledge.

Marketing Management is the gold standard marketing text because its content and organization consistently reflect the latest changes in today's marketing theory and practice. The text consistently delivers on its brand promise: to be the first to reflect changes in marketing theory and practice. The Companion Website is not included with the purchase of this product. Businesses can do well by doing good -- Kotler, Hessekiel, and Lee show you how! Marketing guru Philip Kotler, cause marketing authority David Hessekiel, and social marketing expert Nancy Lee have teamed up to create a guide rich with actionable advice on integrating marketing and corporate social initiatives into your broader business goals. Businesspeople who mix cause and commerce are often portrayed as either opportunistic corporate "causewashers" cynically exploiting nonprofits, or visionary social entrepreneurs for whom conducting trade is just a necessary evil in their quest to create a better world. Marketing and corporate social initiatives requires a delicate balancing act between generating financial and social dividends. Good Works is a book for business builders, not a Corporate Social Responsibility treatise. It is for capitalists with the hearts and smarts to generate positive social impacts and bottom-line business results. Good Works is rich with actionable advice on integrating marketing and corporate social initiatives into your broader business goals. Makes the case that purpose-driven marketing has moved from a nice-to-do to a must-do for businesses Explains how to balance social and business goals Author Philip Kotler is one of the world's leading authorities on marketing; David Hessekiel is founder and President of Cause Marketing Forum, the world's leading information source on how to do well by doing good; Nancy Lee is a corporate social marketing expert, and has coauthored books on social marketing with Philip Kotler With Good Works, you'll find

that you can generate significant resources for your cause while achieving financial success.

"Reflecting the latest trends and issues, the new Europe, Middle East & Africa Edition of Business Marketing Management: B2B delivers comprehensive, cutting-edge coverage that equips students with a solid understanding of today's dynamic B2B market. The similarities and differences between consumer and business markets are clearly highlighted and there is an additional emphasis on automated B2B practices and the impact of the Internet."--Cengage website.

A revolutionary new system for generating the next big marketing ideas and opportunities According to Philip Kotler, the widely acknowledged "father" of modern marketing, and Fernando Trias de Bes the marketing techniques pioneered in the 1960s and '70s have worked too well. Fierce competition among products with little or nothing to distinguish one from another, along with modern product positioning and targeted marketing techniques, have led to increasing market segmentation. If the trend continues, individual market segments soon will be too small to be profitable. In Lateral Marketing, Kotler and Trias de Bes unveil a revolutionary new model to help readers expand beyond vertical segmentation and generate fresh marketing ideas and opportunities. Philip Kotler (Chicago, IL) is the S. C. Johnson & Son Distinguished Professor of International Marketing at Northwestern University's Kellogg School of Management. Fernando Trias de Bes (Barcelona, Spain) is the founder of Salvetti & Lombart whose clients include Pepsico, Sony, Hewlett-Packard, Nestlé, Credit Suisse, and other top corporations.

We have entered into an entirely new era, an age of increasingly frequent and intense periods of turbulence in the global economy. Unlike past recessions, today's crises have precipitated a need for businesses to develop a new mindset, one that takes into account intermittent periods of disturbance, allowing them to thrive while under the constant threat of chaos. Chaotics presents a revolutionary set of guidelines designed to help businesses:

- detect sources of turbulence
- prepare scenarios
- predict resulting vulnerabilities and opportunities
- develop responses to ensure long-term resilience and success
- avoid risk while advancing the interests of the company
- build flexibility into the balance sheet
- price strategically
- adjust products to meet new customer values
- and more.

Complete with metrics and measurements, Chaotics outlines a powerful new system for managing waves of uncertainty affecting customers, employees, and other stakeholders. In this climate of increased turbulence, no organization can survive with less.

The New Global Marketing: Local Adaptation for Sustainability and Profit discusses the ways that marketing managers can assess the potential for global expansion and help their firms capitalize on opportunities. The book explores which companies and products should expand internationally, what countries offer the best opportunities, and which marketing plan will lead each product or company to success. The material adapts well-established frameworks to demonstrate how the global marketer can assess company strengths and weaknesses and analyze opportunities and risks in foreign markets. It discusses the proper balance between standardization and localization, and addresses the importance of the "triple" bottom line - environmental sustainability, social fairness, and financial performance. Students also learn about bottom-of-the-pyramid markets, the role of digital global marketing, and the importance

of adapting to international political, social, and environmental pressures. Featuring more than twenty original case studies, *The New Global Marketing* is an excellent introduction to what it really takes to succeed as a global marketer. Written for students with some marketing education and exposure to international business, the book is ideally suited to upper-level business courses and M.B.A. programs.

*Marketing Management in China*, 1st Edition, brings the landmark work of marketing gurus Philip Kotler and Kevin Lane Keller to China. This edition, adapted by Professor Lu Tai Hong of Zhongshan University, takes a journey into a truly Chinese vista of marketing management. With content shaped to reflect the world's fastest burgeoning economy, this is one textbook the marketing student seeking to understand China cannot do without. This adaptation provides hard-to-find and well-researched China cases that offer insights into the local marketing situation. These cases cover a wide variety of contexts, spanning international companies operating in China to Chinese companies that are beginning to venture overseas; to provide readers with a well-balanced understanding. At the same time, the text and language has been made more concise and accessible without losing the original Kotler's and Keller's depth and insight to the subject. This offers busy executives and students alike, an opportunity to grasp key marketing concepts quickly and effortlessly.

To remain competitive, businesses must consistently analyze and enhance their management strategies. By utilizing the latest technological tools in the corporate world, organizations can more easily optimize their processes. *The Handbook of Research on Technology Adoption, Social Policy, and Global Integration* is a comprehensive reference source for the latest scholarly perspectives on the integration of emerging technologies and computational tools in business contexts. Highlighting a range of topics such as micro-blogging, organizational agility, and business information systems, this publication is ideally designed for managers, researchers, academics, students, and professionals interested in the growing presence of technology in the corporate sector.

This is a basic text in International Marketing, a major knowledge area for students of management studies. This book attempts to make learning of the nuances of the subject easy and enjoyable for students. International trade, economic free trade zones, embargoes on exports, and tariff and non-tariff barriers that the companies face overseas form a major part of the book. In addition, the role of international organizations under the guidance of the United Nations has been given its due importance.

An introduction to marketing concepts, strategies and practices with a balance of depth of coverage and ease of learning. *Principles of Marketing* keeps pace with a rapidly changing field, focussing on the ways brands create and capture consumer value. Practical content and linkage are at the heart of this edition. Real local and international examples bring ideas to life and new feature 'linking the concepts' helps students test and consolidate understanding as they go. The latest edition enhances understanding with a unique learning design including revised, integrative concept maps at the start of each chapter, end-of-chapter features summarising ideas and themes, a mix of mini and major case studies to illuminate concepts, and critical thinking exercises for applying skills.

Successful social marketing holds the power to change the world. For almost two

decades, *Social Marketing: Behavior Change for Social Good* has been the definitive guide for designing and implementing memorable social marketing campaigns. Bestselling authors Nancy R. Lee and Philip Kotler present a proven 10 Step Strategic Social Marketing Planning Model and guides students and practitioners through each stage of the process. The new Sixth Edition is packed with more than 25 new cases and dozens of new examples related to today's most pressing social problems including the opioid epidemic, climate change, youth suicide, and more. The new edition also includes significantly expanded coverage of social media. Whether you are on a mission to improve public health, protect the environment, or galvanize their community, you will find *Social Marketing* an invaluable resource.
