The Palgrave Handbook of Race and the Arts in Education is the first edited volume to examine how race operates in and through the arts in education. Until now, no single source has brought together such an expansive and interdisciplinary collection in exploration of the ways in which music, visual art,

theater, dance, and popular culture intertwine with racist ideologies and race-making. Drawing on Critical Race Theory, contributing authors bring an international perspective to questions of racism and anti-racist interventions in the arts in education. The book's introduction provides a guiding framework for understanding the arts as white property in schools, museums, and informal education spaces. Each section is organized thematically around historical, discursive, empirical, and personal dimensions of the arts in education. This handbook is essential reading for students, educators, artists, and researchers across the fields of visual and performing arts education, educational foundations, multicultural education, and curriculum and instruction.

This book is discussing patterns of radical religious thought in popular forms of Black music. The consistent influence of the Five Percent Nation on Rap music as one of the most esoteric groups among the manifold Black Muslim movements has already gained scholarly attention. However, it shares more than a strong pattern of reversed racism with the Bobo Shanti Order, the most rigid branch of the Rastafarian faith, globally popularized by Dancehall-Reggae artists like Sizzla or Capleton. Authentic devotion or calculated marketing? Apart from providing a possible answer to this question, the historical shift of Bobo adherents from shunned extremists to firmly anchored personifications of authenticity in mainstream Rastafarian culture is being emphasized. A multi-layered comparative case study attempts to shed light on the re-contextualization of language as well as expressed dogmatic perceptions and symbolism, attitude towards other religious groups and aspects of ethnic discrimination.

Further analysis includes the visibility of artists and their references to practical and moral issues directly derived from two obscure ideologies that managed to conquer airwaves and concert halls.

The ideas and practices related to afrofuturism have existed for most of the 20th century, especially in the north American African diaspora community. After Mark Dery coined the word "afrofuturism" in 1993, Alondra Nelson as a member of an online forum, along with other participants, began to explore the initial terrain and intellectual underpinnings of the concept noting that "AfroFuturism has emerged as a term of convenience to describe analysis, criticism and cultural production that addresses the intersections between race and technology." Afrofuturism 2.0: The Rise of Astroblackness represents a transition from previous ideas related to afrofuturism that were formed in the late 20th century around issues of the digital divide, music and literature. Afrofuturism 2.0 expands and broadens the discussion around the concept to include religion, architecture, communications, visual art, philosophy and reflects its current growth as an emerging global Pan African creative phenomenon.

Story Behind the Book Looking for ways to help pastors faced with hectic lives and depleted resources, Andy Stanley, Reggie Joiner, and Lane Jones decided to write a parable about the complicated life of a local pastor. Rather than come straight at those in ministry with formulas and lists, they engage readers in an effort to have them identify with the character. “For many years, I practiced and taught church growth. What I have witnessed as a member at North Point takes church growth to a whole new level. Andy and his team communicate principles that will add value to you and the church you love.” -John C. Maxwell, founder, The INJOY Group “Every professional athlete recognizes the value of solid coaching. The best are always working to get better. From what I’ve seen at North Point, these seven practices can improve the game of any church in America.” -John Smoltz, Cy Young Award-winning pitcher “The practices covered in this book are down-to-earth, practical, and come from real difference-makers who know what church leadership is all about. Andy, Reggie, and Lane have definitely hit the ball out of the park with the 7 Practices of Effective Ministry.” -Ed Young, Jr., senior pastor, Fellowship Church

Everyone needs to love and be loved—even men. But to know love, men must be able to look at the ways that patriarchal culture keeps them from knowing themselves, from being in touch with their feelings, from loving. In *The Will to Change*, bell hooks gets to the heart of the matter and shows men how to express the emotions that are a fundamental part of who they are—whatever their age, marital status, ethnicity, or sexual orientation. But toxic masculinity punishes those fundamental emotions, and it's so deeply ingrained in our society that it's hard for men to not comply—but hooks wants to help change that. With trademark candor and fierce intelligence, hooks addresses the most common concerns of men, such as fear of intimacy and loss of their patriarchal place in society, in new and challenging ways. She believes men can find the way to spiritual unity by getting back in touch with the emotionally open part of themselves—and lay claim to the rich and rewarding inner lives that have historically been the exclusive province of women. A brave and astonishing work, *The Will to Change* is designed to help men reclaim the best part of themselves.

This book offers a chronological and historical overview the many forms of Pentecostalism within the United States.

Russian Society and the Orthodox Church examines the Russian Orthodox Church's social and political role and its relationship to civil society in post-Communist Russia. It shows how Orthodox prelates, clergy and laity have shaped Russians' attitudes towards religious and ideological pluralism, which in turn have influenced the ways in which Russians understand civil society, including those of its features - pluralism and freedom of conscience - that are essential for a functioning democracy. It shows how the official church, including the Moscow Patriarchate, has impeded the development of civil society, while on the other hand the non-official church, including nonconformist clergy and lay activists, has promoted concepts central to civil society.

Is redemption possible for Ebenezer Scrooge? Pastor and author Matt Rawle believes so as he discovers the teachings of Jesus in the words of the Charles Dickens classic A Christmas Carol. Rawle dives deep into the dark, sad, greedy world of Scrooge and discovers a man in dire need of a second chance. Along with Scrooge, we meet the Ghosts of Christmas Past, Present, and Future and in the process learn about living with and for others in a world blessed by Jesus. Rediscover and reinvigorate your Christian faith this Advent and Christmas season and look at this familiar classic through the lens of faith. Chapters include: Bah! Humbug! The Remembrance of Christmas Past The Life of Christmas Present The Hope of Christmas Future This book examines the experience of race and ethnicity in Australia after the withering away of official multiculturalism. The first chapter looks at the formation of the Australian state, the

role that multiculturalism has played, and the impact of neoliberal ideas. The second chapter takes nightclubbing in the city of Perth during the 1980s, the peak period for official multiculturalism, to exemplify how diversity and exclusion functioned in everyday life. The third chapter considers the imbrication of Christianity in the Australian socio-cultural order and its impact on the limits of multiculturalism with particular concentration on Islam and the Australian Muslim experience. Subsequent chapters discuss the exclusionary experience of various groups identified as non-white through the lens of films, popular music and television programs.

In order to persuade a child to take her bitter-tasting medicine when she is sick, her grandfather tells her a story in which a prince saves the people from sin by drinking from a poisoned fountain.

From the celebrated team behind *Creepy Carrots!*, Aaron Reynolds and Caldecott Honor winner Peter Brown, comes a hilarious (and just a little creepy) story of a brave rabbit and a very weird pair of underwear. Jasper Rabbit is NOT a little bunny anymore. He's not afraid of the dark, and he's definitely not afraid of something as silly as underwear. But when the lights go out, suddenly his new big rabbit underwear glows in the dark. A ghoulish, greenish glow. If Jasper didn't know any better he'd say his undies were a little, well, creepy. Jasper's not scared obviously, he's just done with creepy underwear. But after trying everything to get rid of them, they keep coming back!

Molly Ijames delivers a compelling setting of this timeless hymn with a creative accompaniment that helps us visualize the sunrise. This anthem is one constant crescendo and closes with the amazing cry, "May Jesus Christ be praised!"

Using a model of orientation - disorientation - new orientation, Brueggemann explores how the genres of the Psalms can be viewed in terms of their function. This results in fresh readings of these ancient songs that illumine their spiritual depth. The voices of the Psalms come through in all their bold realism.

A legend in the folk music community, John Jacob Niles enjoyed a lengthy career as a balladeer, folk collector, and songwriter. Ever close to his Kentucky roots, he spent much of his adulthood searching for the most well-loved songs of the southern Appalachia. The *Ballad Book of John Jacob Niles* brings together a wealth of songs with the stories that inspired them, arranged by a gifted performer. This new edition includes all of the melodies, text, commentary, and illustrations of the 1961 original and features a new introduction by Ron Pen, director of the John Jacob Niles Center for American Music at the University of Kentucky.

In *The Post-Liberal Imagination*, Bruce Baum approaches American liberalism 'in a critical spirit' by examining the relationship between popular culture and politics. The book analyzes movies, television, and popular music to rethink the liberal views of democracy, equality, racism, dissent, and animal rights in the Bush-Obama era.

When parents work in tandem with the faith community to raise their children, they increase their parenting capacity exponentially. Most parents have so many demands on their time that they can't be the kind of parent they desire to be. They need to know the Orange Factor: Two combined influences will make a greater impact on kids than just two influences. And it's true. Parents who partner with the faith community are the best way to bring the next generation into the family of God-and keep them there.

This collection looks at the on-going significance of Black Consciousness, situating it in a

global frame, examining the legacy of Steve Biko, the current state of post-apartheid South African politics, and the culture and history of the anti-apartheid movements.

When a parent hears that their child has a disability, hearts and hopes are often broken. But faith doesn't have to be. In *Unbroken Faith*, Dianne Dokko Kim comes alongside you as a fellow special needs parent to help you reconcile the premise of a good God with the devastating realities of raising a disabled child. Kim courageously articulates deep-seated, unspoken doubts and fears you may have but are afraid to voice: Will my child still have a full life? Can I do this? Where is God in all this? As you are adjusting to your new normal, Kim's biblical-based encouragement will help you understand that you are not alone, that God gets it, and that God's Word is entirely relevant to the raw and messy yet hallowed spaces of special needs parenting.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

*Antiracism Inc.* traces the ways people along the political spectrum appropriate, incorporate, and neutralize antiracist discourses to perpetuate injustice. It also examines the ways organizers continue to struggle for racial justice in the context of such appropriations. *Antiracism Inc.* reveals how antiracist claims can be used to propagate racism, and what we can do about it. While related to colorblind, multicultural, and diversity discourses, the appropriation of antiracist rhetoric as a strategy for advancing neoliberal and neoconservative

agendas is a unique phenomenon that requires careful interrogation and analysis. Those who co-opt antiracist language and practice do not necessarily deny racial difference, biases, or inequalities. Instead, by performing themselves conservatively as non-racists or liberally as 'authentic' antiracists, they purport to be aligned with racial justice even while advancing the logics and practices of systemic racism. Antiracism Inc. therefore considers new ways of struggling toward racial justice in a world that constantly steals and misuses radical ideas and practices. The critical essays and poetry collected here focus on people and methods that do not seek inclusion in the hierarchical order of gendered racial capitalism. Rather, they focus on aggrieved peoples who have always had to negotiate state violence and cultural erasure, but who also work to build the worlds they envision. These collectivities seek to transform social structures and establish a new social warrant guided by what W.E.B. Du Bois called "abolition democracy," a way of being and thinking that privileges people, mutual interdependence, and ecological harmony over individualist self-aggrandizement and profits. Further, these aggrieved collectivities reshape social relations away from the violence and alienation inherent to gendered racial capitalism, and towards the well-being of the commons. Antiracism Inc. articulates methodologies that strive toward freedom dreams without imposing monolithic or authoritative definitions of resistance. Because power seeks to neutralize revolutionary action through incorporation as much as through elimination, these freedom dreams, as well as the language used to articulate them, are constantly transformed through the critical and creative interventions stemming from the active engagement in liberation struggles. In addition to critical essays by Felice Blake ("How Does Black Cultural Criticism 'Work' in the Age of Antiracist Incorporation?"), Kevin Fellezs ("Nahenahe [Soft, Sweet, Melodious], the Sound of

Kanaka Maoli [Native Hawaiian] Refusal"), Daniel Martinez HoSang ("A Wider Type of Freedom"), Paula Ioanide ("Defensive Appropriations"), George Lipsitz ("The Logic of 'Illogical' Opposition: Tools and Tactics for Tough Times"), Alison Reed ("Gentrifying Disciplines: The Institutional Management of Trauma and Creative Dissent"), Phia S. Salter + Glenn Adams ("Provisional Strategies for Decolonizing Consciousness"), and Barbara Tomlinson ("Wicked Problems and Intersectionality Telephone"), the volume also includes poetry by Dubian Ade, Jari Bradley, Dahlak Brathwaite, Corinne Contreras, Ebony P. Donnley, Colin Masashi Ehara, David Scott (YDS), Daniel Hershel Silber-Baker, and Sophia Terazawa, as well as interviews with Diana Zuñiga (CURB, Californians United for a Responsible Budget) and with Gaby Hernandez and Marissa Garcia (PODER, People Organizing for the Defense and Equal Rights of Santa Barbara Youth).

This is a series of texts that introduces the reader to some of the more recent advances in schizophrenia research. It is concerned with questioning the role of the immune system in the aetiology and course of the disorder, as well as investigating the efficacy of some of the available treatments for schizophrenia. Edited by a leading scholar in the field, and written by researchers at the cutting edge of these developments, each chapter provides details of original works and their theoretical and empirical impact. The theme of cognition is prevalent throughout the book. As a core deficit in schizophrenia, cognition proves to be fundamental to both the mechanisms underlying the disorder, and the treatments used to alleviate symptomatology. It is evident in all subpopulations of schizophrenia patients explored in this collection -- from those with early onset schizophrenia, to those being treated in forensic mental health services -- and its importance throughout the lifespan of individuals with

schizophrenia is highlighted. With a focus on a practical understanding of schizophrenia, this book will be of value to all researchers, psychiatrists and therapists with a clinical or research interest in this subject.

Who doesn't love to open the mailbox during the holidays and find a newsletter? Whether it's a juicy missive from a college roommate inadvertently revealing her husband's wandering eye, a self-congratulatory account of a cousin's rise to power at the local fast-food joint, or a mind-numbingly detailed account of a year's medical ailments (including photos) from a coworker, they're always entertaining. *Christmas Letters from Hell* skewers holiday letters of all shapes and sizes, from the ones that come crammed with cheesy graphics or written from the perspective of the recently neutered family dog to those filled with stories of "perfect" family vacations that were clearly anything but. Here Santa uses his holiday letter to let the elves know that he'll be outsourcing to China effective immediately; a bipolar mom tells two very different versions of the year's events; and Osama bin Laden touches base with his high school host family in Minneapolis. *Christmas Letters from Hell* serves up a steaming, savory blend of the holiday cheer, humor, and twisted truth in our well-intended attempts to stay in touch gone horribly, horribly wrong.

What can a pesticide pump, a jar full of sand, or an old calico print tell us about the Anthropocene—the age of humans? Just as paleontologists look to fossil remains to infer past conditions of life on earth, so might past and present-day objects offer clues to intertwined human and natural histories that shape our planetary futures. In this era of aggressive hydrocarbon extraction, extreme weather, and severe economic disparity, how might certain objects make visible the uneven interplay of economic, material, and social forces that shape

relationships among human and nonhuman beings? *Future Remains* is a thoughtful and creative meditation on these questions. The fifteen objects gathered in this book resemble more the tarots of a fortuneteller than the archaeological finds of an expedition—they speak of planetary futures. Marco Armiero, Robert S. Emmett, and Gregg Mitman have assembled a cabinet of curiosities for the Anthropocene, bringing together a mix of lively essays, creatively chosen objects, and stunning photographs by acclaimed photographer Tim Flach. The result is a book that interrogates the origins, implications, and potential dangers of the Anthropocene and makes us wonder anew about what exactly human history is made of.
