"An achaeological mystery, the story of young American Bruce Brandon, eager to ascertain more about the graves of Egyptian gods, is set against a clearly focused background of the Land of the Pyramids. In this booklet, experts from across the world, including members of the ISAKOS Knee Arthroplasty Committee, offer clear, up-to-date guidance on all aspects of soft tissue or ligament balancing in primary total knee arthroplasty with the aim of enabling the reader to achieve optimal patient outcomes. After an introduction explaining the normal soft tissue condition in the native knee, surgical procedures are described, including techniques for the management of severe deformity. The most striking feature of the booklet, however, is the many pages devoted to the accurate evaluation and clinical relevance of ligament balancing. Different techniques and devices for intraoperative soft tissue assessment are discussed, highlighting, for example, the use of gap-measuring devices or trial liners with load-bearing sensors to achieve more objective evaluation. Above all, special attention is devoted to the crucial issue of the impact of intraoperative soft tissue balance on postoperative results. In the closing chapter, very experienced surgeons introduce intraoperative troubleshooting in order to assist successful completion of arthroplasty.

From its beginning, jazz has presented a contradictory social world: jazz musicians have worked diligently to erase old boundaries, but they have just as resolutely constructed new ones.

David Ake's vibrant and original book considers the diverse musics and related identities that jazz communities have shaped over the course of the twentieth century, exploring the many ways in which jazz musicians and audiences experience and understand themselves, their music, their communities, and the world at large. Writing as a professional pianist and composer, the author looks at evolving meanings, values, and ideals--as well as the sounds--that musicians, audiences, and critics carry to and from the various activities they call jazz. Among the compelling topics he discusses is the "visuality" of music: the relationship between performance demeanor and musical meaning. Focusing on pianists Bill Evans and Keith Jarrett, Ake investigates the ways in which musicians' postures and attitudes influence perceptions of them as profound and serious artists. In another essay, Ake examines the musical values and ideals promulgated by college jazz education programs through a consideration of saxophonist John Coltrane. He also discusses the concept of the jazz "standard" in the 1990s and the differing sense of tradition implied in recent recordings by Wynton Marsalis and Bill Frisell. Jazz Cultures shows how jazz history has not consisted simply of a smoothly evolving series of musical styles, but rather an array of individuals and communities engaging with disparate--and oftentimes conflicting--actions, ideals, and attitudes.

Judy Nunn's exciting new novel, a no.1 bestseller, is inspired by a true wartime story that has remained a well-kept secret for over seventy years. It seems to have happened overnight, Val thought. How extraordinary. We've become a khaki town. It's March 1942. Singapore has fallen. Darwin has been bombed. Australia is on the brink of being invaded by the Imperial Japanese Forces. And Val Callahan, publican of The Brown's Bar in Townsville, could not be happier as she contemplates the fortune she's making from lonely, thirsty soldiers. Overnight the small Queensland city is transformed into the transport hub for 70,000 American and Australian soldiers destined for combat in the South Pacific. Barbed wire and gun emplacements cover the beaches. Historic buildings are commandeered. And the dance halls are in full swing with jazz, jitterbug and jive. The Australian troops begrudge the confident, well-fed 'Yanks' who have taken over their town and their women. There's growing conflict, too, within the American ranks, because black GIs are enjoying the absence of segregation. And the white GIs don't like it. As racial violence explodes through the ranks of the military, a young United States Congressman, Lyndon Baines Johnson, is sent to Townsville by his president to investigate. 'Keep a goddamned lid on it, Lyndon,' he is told, 'lest it explode in our faces ...'

Drawing on Foucault's later work on governmentality, this book traces the effects of 'the rise of risk' on contemporary social work practice. Focusing on two 'domains' of practice – mental health social work and probation work – it analyses the ways in which risk thinking has affected social work's aims and objectives, methods and approaches.
