Sources of East Asian Tradition: The modern period Wm. Theodore De Bary, William Theodore De Bary, 2008 Wm. Theodore de Bary offers a selection of essential readings from his immensely popular anthologies Sources of Chinese Tradition, Sources of Korean Tradition, and Sources of Japanese Tradition so readers can experience a concise but no less comprehensive portrait of the social, intellectual, and religious traditions of East Asia.--

Sources of East Asian Tradition: Premodern Asia Wm. Theodore De Bary, William Theodore De Bary, 2008 Wm. Theodore de Bary offers a selection of essential readings from his immensely popular anthologies Sources of Chinese Tradition, Sources of Korean Tradition, and Sources of Japanese Tradition so readers can experience a concise but no less comprehensive portrait of the social, intellectual, and religious traditions of East Asia.--

Sources of Vietnamese Tradition George Dutton, Jayne Werner, John K. Whitmore, 2012-09-18 Sources of Vietnamese Tradition provides an essential guide to two thousand years of Vietnamese history and a comprehensive overview of the society and state of Vietnam. Strategic selections illuminate key figures, issues, and events while building a thematic portrait of the country's developing territory, politics, culture, and relations with neighbors. The volume showcases Vietnam's remarkable independence in the face of Chinese and other external pressures and respects the complexity of the Vietnamese experience both past and present. The anthology begins with selections that cover more than a millennium of Chinese dominance over Vietnam (111 B.C.E.-939 C.E.) and follows with texts that illuminate four centuries of independence ensured by the Ly, Tran, and Ho dynasties (1009-1407). The earlier cultivation of Buddhism and Southeast Asian political practices by the monarchy gave way to two centuries of Confucian influence and bureaucratic governance (1407-1600), based on Chinese models, and three centuries of political competition between the north and the south, resolving in the latter's favor (1600-1885). Concluding with the colonial era and the modern age, the volume recounts the ravages of war and the creation of a united, independent Vietnam in 1975. Each chapter features readings that reveal the views, customs, outside influences on, and religious and philosophical beliefs of a rapidly changing people and culture. Descriptions of land, society, economy, and governance underscore the role of the past in the formation of contemporary Vietnam and its relationships with

neighboring countries and the West.

Sources of Korean Tradition: From early times through the sixteenth century Peter H. Lee, William Theodore De Bary, Wm. Theodore De Bary, 1997

Finding Wisdom in East Asian Classics Wm. Theodore De Bary, William Theodore De Bary, 2011 Finding Wisdom in East Asian Classics is an essential, all-access guide to the core texts of East Asian civilization and culture. Essays address frequently read, foundational texts in Chinese, Japanese, Korean, and Vietnamese, as well as early modern fictional classics and nonfiction works of the seventeenth century. Building strong links between these writings and the critical traditions of Confucianism, Buddhism, and Daoism, this volume shows the vital role of the classics in the shaping of Asian history and in the development of the humanities at large. Wm. Theodore de Bary focuses on texts that have survived for centuries, if not millennia, through avid questioning and contestation. Recognized as perennial reflections on life and society, these works represent diverse historical periods and cultures and include the Analects of Confucius, Mencius, Laozi, Xunzi, the Lotus Sutra, Tang poetry, the Pillow Book, The Tale of Genji, and the writings of Chikamatsu and Kaibara Ekken. Contributors explain the core and most commonly understood aspects of these works and how they operate within their traditions. They trace their reach and reinvention throughout history and their ongoing relevance in modern life. With fresh interpretations of familiar readings, these essays inspire renewed appreciation and examination. In the case of some classics open to multiple interpretations, de Bary chooses two complementary essays from different contributors. Expanding on debates concerning the challenges of teaching classics in the twenty-first century, several pieces speak to the value of Asia in the core curriculum. Indispensable for early scholarship on Asia and the evolution of global civilization, Finding Wisdom in East Asian Classics helps one master the major texts of human thought.

Sources of Chinese Tradition Wm. Theodore De Bary, William Theodore De Bary, Burton Watson, 1964 This volume contains a chronological table of Chinese history beginning with 2852 B.C. up to A.D. 1849. In addition to presenting the major schools of classical philosophy, this volume discusses yin-yang theories of cosmology and geomancy and the rationale of monarchy and dynastic rule.

The Great Civilized Conversation Wm. Theodore De Bary, 2013-06-25 Having spent decades teaching and researching the humanities, Wm. Theodore de Bary is well positioned to speak on its merits and reform. Believing a classical liberal education is more necessary than ever, he outlines in these essays a plan to update existing core curricula by incorporating classics from both Eastern and Western traditions, thereby bringing the philosophy and moral values of Asian civilizations to American students and vice versa. The author establishes a concrete link between teaching the classics of world civilizations and furthering global humanism. Selecting texts that share many of the same values and educational purposes, he joins Islamic, Indian, Chinese, Japanese, and Western sources into a revised curriculum that privileges humanity and civility. He

also explores the tradition of education in China and its reflection of Confucian and Neo-Confucian beliefs. He reflects on history's great scholar-teachers and what their methods can teach us today, and he dedicates three essays to the power of *The Analects of Confucius*, *The Tale of Genji*, and *The Pillow Book of Sei Shonagon* in the classroom.

Sources of Tibetan Tradition Kurtis R. Schaeffer, Matthew Kapstein, Gray Tuttle, 2013 The most comprehensive collection of classic Tibetan works in any Western language.

Sources of Indian Tradition: Modern India and Pakistan Ainslie Thomas Embree, Stephen N. Hay, William Theodore De Bary, 1988 -- Wendy Doniger, University of Chicago

Sources of Japanese Tradition Yoshiko Kurata Dykstra, 2001 A perennial best-seller, *Sources of Japanese Tradition* has long been a staple in classrooms and libraries, a handy and comprehensive reference for scholars and students, and an engaging introduction for general readers. Now in its long-awaited second edition, this classic volume remains unrivaled for its wide selection of source readings on history, society, politics, education, philosophy, and religion in the land of the rising sun.

[China's Hegemony](#) Ji-young Lee, 2016-11-08 Many have viewed the tribute system as China's tool for projecting its power and influence in East Asia, treating other actors as passive recipients of Chinese domination. *China's Hegemony* sheds new light on this system and shows that the international order of Asia's past was not as Sinocentric as conventional wisdom suggests. Instead, throughout the early modern period, Chinese hegemony was accepted, defied, and challenged by its East Asian neighbors at different times, depending on these leaders' strategies for legitimacy among their populations. This book demonstrates that Chinese hegemony and hierarchy were not just an outcome of China's military power or Confucian culture but were constructed while interacting with other, less powerful actors' domestic political needs, especially in conjunction with internal power struggles. Focusing on China-Korea-Japan dynamics of East Asian international politics during the Ming and High Qing periods, Ji-Young Lee draws on extensive research of East Asian language sources, including records written by Chinese and Korean tributary envoys. She offers fascinating and rich details of war and peace in Asian international relations, addressing questions such as: why Japan invaded Korea and fought a major war against the Sino-Korean coalition in the late sixteenth century; why Korea attempted to strike at the Ming empire militarily in the late fourteenth century; and how Japan created a miniature tributary order posing as the center of Asia in lieu of the Qing empire in the seventeenth century. By exploring these questions, Lee's in-depth study speaks directly to general international relations literature and concludes that hegemony in Asia was a domestic, as well as an international phenomenon with profound implications for the contemporary era.

A guide to Oriental classics, 1975

The Columbia Guide to Modern Chinese History R. Keith Schoppa, 2000-08-05 China, the world's oldest and most

populous state, remains an enigma to most people in the West, even at a time when that country is playing an increasingly prominent role on the international stage. At the heart of modern Chinese history have been the efforts of the Chinese people to transform their polity into a modern nation state, the Confucian orthodoxy into an ideology that can help direct that process, and an agrarian economy into an industrial one. These efforts are ongoing and of great importance. This book is both an introduction to the major features of modern Chinese history and a resource for researchers interested in virtually any topic relating to the Chinese experience of the last 220 years. This valuable reference contains: a historical narrative providing a comprehensive overview of five core aspects of Chinese history: domestic politics, society, the economy, the world of culture and thought, and relations with the outside world; a compendium of 250 short, descriptive articles on key figures, events, and terms; a resource guide containing approximately 500 annotated entries for the most authoritative sources for further research in English, as well as descriptions of important films depicting modern China and a guide to electronic resources; and appendices, including a chronology, excerpts from key primary source documents, and a wealth of tables and graphs on demographic, social, and economic trends.

Vernacular Industrialism in China Eugenia Lean,2020-03-17 In early twentieth-century China, Chen Diexian (1879–1940) was a maverick entrepreneur—at once a prolific man of letters and captain of industry, a magazine editor and cosmetics magnate. He tinkered with chemistry in his private studio, used local cuttlefish to source magnesium carbonate, and published manufacturing tips in how-to columns. In a rapidly changing society, Chen copied foreign technologies and translated manufacturing processes from abroad to produce adaptations of global commodities that bested foreign brands. Engaging in the worlds of journalism, industry, and commerce, he drew on literati practices associated with late-imperial elites but deployed them in novel ways within a culture of educated tinkering that generated industrial innovation. Through the lens of Chen’s career, Eugenia Lean explores how unlikely individuals devised unconventional, homegrown approaches to industry and science in early twentieth-century China. She contends that Chen’s activities exemplify “vernacular industrialism,” the pursuit of industry and science outside of conventional venues, often involving ad hoc forms of knowledge and material work. Lean shows how vernacular industrialists accessed worldwide circuits of law and science and experimented with local and global processes of manufacturing to navigate, innovate, and compete in global capitalism. In doing so, they presaged the approach that has helped fuel China’s economic ascent in the twenty-first century. Rather than conventional narratives that depict China as belatedly borrowing from Western technology, *Vernacular Industrialism in China* offers a new understanding of industrialization, going beyond material factors to show the central role of culture and knowledge production in technological and industrial change.

The Land of the Five Flavors Thomas O. Høllmann,2013-11-26 Translation of: Schlafender Lotos, trunkenes Huhn.

How East Asians View Democracy Yun-han Chu,Larry Diamond,Andrew J. Nathan,Doh Chull Shin,2008-09-01 East

Asian democracies are in trouble, their legitimacy threatened by poor policy performance and undermined by nostalgia for the progrowth, soft-authoritarian regimes of the past. Yet citizens throughout the region value freedom, reject authoritarian alternatives, and believe in democracy. This book is the first to report the results of a large-scale survey-research project, the East Asian Barometer, in which eight research teams conducted national-sample surveys in five new democracies (Korea, Taiwan, the Philippines, Thailand, and Mongolia), one established democracy (Japan), and two nondemocracies (China and Hong Kong) in order to assess the prospects for democratic consolidation. The findings present a definitive account of the way in which East Asians understand their governments and their roles as citizens. Contributors use their expert local knowledge to analyze responses from a set of core questions, revealing both common patterns and national characteristics in citizens' views of democracy. They explore sources of divergence and convergence in attitudes within and across nations. The findings are sobering. Japanese citizens are disillusioned. The region's new democracies have yet to prove themselves, and citizens in authoritarian China assess their regime's democratic performance relatively favorably. The contributors to this volume contradict the claim that democratic governance is incompatible with East Asian cultures but counsel against complacency toward the fate of democracy in the region. While many forces affect democratic consolidation, popular attitudes are a crucial factor. This book shows how and why skepticism and frustration are the ruling sentiments among today's East Asians.

The Columbia Anthology of Chinese Folk and Popular Literature Victor H. Mair, Mark Bender, 2011 In *The Columbia Anthology of Chinese Folk and Popular Literature*, two of the world's leading sinologists, Victor H. Mair and Mark Bender, capture the breadth of China's oral-based literary heritage. This collection presents works drawn from the large body of oral literature of many of China's recognized ethnic groups--including the Han, Yi, Miao, Tu, Daur, Tibetan, Uyghur, and Kazak--and the selections include a variety of genres. Chapters cover folk stories, songs, rituals, and drama, as well as epic traditions and professional storytelling, and feature both familiar and little-known texts, from the story of the woman warrior Hua Mulan to the love stories of urban storytellers in the Yangtze delta, the shaman rituals of the Manchu, and a trickster tale of the Daur people from the forests of the northeast. The Cannibal Grandmother of the Yi and other strange creatures and characters unsettle accepted notions of Chinese fable and literary form. Readers are introduced to antiphonal songs of the Zhuang and the Dong, who live among the fantastic limestone hills of the Guangxi Zhuang Autonomous Region; work and matchmaking songs of the mountain-dwelling She of Fujian province; and saltwater songs of the Cantonese-speaking boat people of Hong Kong. The editors feature the Mongolian epic poems of Geser Khan and Jangar; the sad tale of the Qeo family girl, from the Tu people of Gansu and Qinghai provinces; and local plays known as rice sprouts from Hebei province. These fascinating juxtapositions invite comparisons among cultures, styles, and genres, and expert translations preserve the individual character of each thrillingly imaginative work.

Sources of Korean Tradition: From the sixteenth to the twentieth centuries Peter H. Lee, William Theodore De Bary, Wm. Theodore De Bary, 1997 This collection of seminal primary readings in the social, intellectual, and religious traditions of Korea from the sixteenth century to the present day lays the groundwork for understanding Korean civilization and demonstrates how leading intellectuals and public figures in Korea have looked at life, the traditions of their ancestors, and the world they lived in.

The Greater East Asia Co-Prosperity Sphere Jeremy A. Yellen, 2019-04-15 The Greater East Asia Co-Prosperity Sphere offers a lucid, dynamic, and highly readable history of Japan's attempt to usher in a new order in Asia during World War II. — Cross-Currents: East Asian History and Culture Review In *The Greater East Asia Co-Prosperity Sphere*, Jeremy A. Yellen exposes the history, politics, and intrigue that characterized the era when Japan's total empire met the total war of World War II. He illuminates the ways in which the imperial center and its individual colonies understood the concept of the Sphere, offering two sometimes competing, sometimes complementary, and always intertwined visions—one from Japan, the other from Burma and the Philippines. Yellen argues that, from 1940 to 1945, the Greater East Asia Co-Prosperity Sphere epitomized two concurrent wars for Asia's future: the first was for a new type of empire in Asia, and the second was a political war, waged by nationalist elites in the colonial capitals of Rangoon and Manila. Exploring Japanese visions for international order in the face of an ever-changing geopolitical situation, *The Greater East Asia Co-Prosperity Sphere* explores wartime Japan's desire to shape and control its imperial future while its colonies attempted to do the same. At Japan's zenith as an imperial power, the Sphere represented a plan for regional domination; by the end of the war, it had been recast as the epitome of cooperative internationalism. In the end, the Sphere could not survive wartime defeat, and Yellen's lucidly written account reveals much about the desires of Japan as an imperial and colonial power, as well as the ways in which the subdued colonies in Burma and the Philippines jockeyed for agency and a say in the future of the region.

The Columbia Guide to Asian American History Gary Y. Okihiro, 2005-03-30 Offering a rich and insightful road map of Asian American history as it has evolved over more than 200 years, this book marks the first systematic attempt to take stock of this field of study. It examines, comments, and questions the changing assumptions and contexts underlying the experiences and contributions of an incredibly diverse population of Americans. Arriving and settling in this nation as early as the 1790s, with American-born generations stretching back more than a century, Asian Americans have become an integral part of the American experience; this cleverly organized book marks the trajectory of that journey, offering researchers invaluable information and interpretation. Part 1 offers a synoptic narrative history, a chronology, and a set of periodizations that reflect different ways of constructing the Asian American past. Part 2 presents lucid discussions of historical debates—such as interpreting the anti-Chinese movement of the late 1800s and the underlying causes of Japanese American internment during World War II—and such emerging themes as transnationalism and women and gender issues.

Part 3 contains a historiographical essay and a wide-ranging compilation of book, film, and electronic resources for further study of core themes and groups, including Chinese, Japanese, Filipino, Hmong, Indian, Korean, Vietnamese, and others.

When somebody should go to the book stores, search instigation by shop, shelf by shelf, it is really problematic. This is why we offer the books compilations in this website. It will entirely ease you to see guide **Sources Of East Asian Tradition Columbia University Press** as you such as.

By searching the title, publisher, or authors of guide you in point of fact want, you can discover them rapidly. In the house, workplace, or perhaps in your method can be every best place within net connections. If you endeavor to download and install the Sources Of East Asian Tradition Columbia University Press , it is utterly simple then, previously currently we extend the belong to to purchase and make bargains to download and install Sources Of East Asian Tradition Columbia University Press consequently simple!

Sources Of East Asian Tradition Columbia University Press Introduction

Free PDF Books and Manuals for Download: Unlocking Knowledge at Your Fingertips In today's fast-paced digital age, obtaining valuable knowledge has become easier than ever. Thanks to the internet, a vast array of books and manuals are now available for free download in PDF format. Whether you are a student, professional, or simply an avid reader, this treasure trove of downloadable resources offers a wealth of information, conveniently accessible anytime, anywhere. The advent of online libraries and platforms dedicated to sharing knowledge has revolutionized the way we consume information. No longer confined to physical libraries or bookstores, readers can now access an extensive collection of digital books and manuals with just a few clicks. These resources, available in PDF, Microsoft Word, and PowerPoint formats, cater to a wide range of interests, including literature, technology, science, history, and much more. One notable platform where you can explore and download free Sources Of East Asian Tradition Columbia University Press PDF books and manuals is the internet's largest free library. Hosted online, this catalog compiles a

vast assortment of documents, making it a veritable goldmine of knowledge. With its easy-to-use website interface and customizable PDF generator, this platform offers a user-friendly experience, allowing individuals to effortlessly navigate and access the information they seek. The availability of free PDF books and manuals on this platform demonstrates its commitment to democratizing education and empowering individuals with the tools needed to succeed in their chosen fields. It allows anyone, regardless of their background or financial limitations, to expand their horizons and gain insights from experts in various disciplines. One of the most significant advantages of downloading PDF books and manuals lies in their portability. Unlike physical copies, digital books can be stored and carried on a single device, such as a tablet or smartphone, saving valuable space and weight. This convenience makes it possible for readers to have their entire library at their fingertips, whether they are commuting, traveling, or simply enjoying a lazy afternoon at home. Additionally, digital files are easily searchable, enabling readers to locate specific information within seconds. With a few keystrokes, users can search for keywords, topics, or phrases, making research and finding relevant information a breeze. This efficiency saves time and effort, streamlining the learning process and allowing individuals to focus on extracting the information they need. Furthermore, the availability of free PDF books and manuals fosters a culture of continuous learning. By removing financial barriers, more people can access educational resources and pursue lifelong learning, contributing to personal growth and professional

development. This democratization of knowledge promotes intellectual curiosity and empowers individuals to become lifelong learners, promoting progress and innovation in various fields. It is worth noting that while accessing free Sources Of East Asian Tradition Columbia University Press PDF books and manuals is convenient and cost-effective, it is vital to respect copyright laws and intellectual property rights. Platforms offering free downloads often operate within legal boundaries, ensuring that the materials they provide are either in the public domain or authorized for distribution. By adhering to copyright laws, users can enjoy the benefits of free access to knowledge while supporting the authors and publishers who make these resources available. In conclusion, the availability of Sources Of East Asian Tradition Columbia University Press free PDF books and manuals for download has revolutionized the way we access and consume knowledge. With just a few clicks, individuals can explore a vast collection of resources across different disciplines, all free of charge. This accessibility empowers individuals to become lifelong learners, contributing to personal growth, professional development, and the advancement of society as a whole. So why not unlock a world of knowledge today? Start exploring the vast sea of free PDF books and manuals waiting to be discovered right at your fingertips.

FAQs About Sources Of East Asian Tradition Columbia University Press Books

1. Where can I buy Sources Of East Asian Tradition Columbia University Press books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
