Steve Coppell was one of England's most gifted wingers, who went on to become a successful manager. He led Crystal Palace during their halcyon era of the late 80s,

briefly managed Manchester City before returning to Palace and winning promotion again. He then held the reins during difficult times at both Brentford and Brighton, but was on the brink of winning another promotion with the Seagulls when he took the job at Reading. Blessed with an ability to spot raw talent such as Kevin Doyle and Steven Hunt, Coppell led the Royals into the top flight for the first time in their history with a record points tally. Reading took the Premier League by storm, finishing just outside the European places. Sadly they wilted in their second season and slumped to relegation, and then failed to win a return straight back into the big time in 2008-09. Following Coppell's resignation as Reading manager in May 2009, Stuart Roach went on a journey to discover the real Steve Coppell. From his humble origins on Merseyside to his glamour move to Old Trafford and into the England side, Coppell proved an exciting winger, capable of creating scoring opportunities for his strikers. But a cruel injury cut his career dead and Coppell reinvented himself as the then youngest ever Football League manager at the age of 28. This book will reveal what lies beneath Coppell's famously cool exterior, why his manager at Manchester United Tommy Docherty christened him "the number 27 bus," what Coppell gained from taking an Economics degree from the University of Liverpool and how he nearly caused a rift in the marriage of Charles Saatchi and Nigella Lawson! Features contributions from major figures in Coppell's career such as John Madejski, Ian Wright, Jonathan Pearce, Mark Bright, Martin Buchan, Dick Knight, Ron Noades, Alan Pardew, Lou Macari, Bobby Zamora, and Graeme Murty.

O. Henry is the pen name of American writer William Sydney Porter (1862-1910). Porter's 400 short stories are known for their wit, wordplay, characterization and the clever use of twist endings. He travelled to Austin in 1884, where he took a number of different jobs over the next several years, first as pharmacist then as a draftsman, bank teller and journalist. He also began writing as a sideline to employment. Porter's most prolific writing period started in 1902, when he moved to New York City to be near his publishers. He wrote 381 short stories while living there. He wrote a story a week for over a year for the New York World Sunday Magazine. His wit, characterization and plot twists were adored by his readers, but often panned by the critics. Yet, he went on to gain international recognition and is credited with defining the short story as a literary art form. His works include: *Cabbages and Kings* (1904), *The Four Million* (1906), *Heart of the West* (1907), *The Trimmed Lamp and Other Stories of the Four Million* (1907), *The Voice of the City: Further Stories of the Four Million* (1908), *The Gentle Grafter* (1908) and *Roads of Destiny* (1909).

Over the past decade, Korean popular culture has become a global phenomenon. The "Korean Wave" of music, film, television, sports, and cuisine generates significant revenues and cultural pride in South Korea. The Korean Popular Culture Reader provides a timely and essential foundation for the study of "K-pop," relating the contemporary cultural landscape to its historical roots. The essays in this collection reveal the intimate connections of Korean popular culture, or hallyu, to the peninsula's colonial and postcolonial histories, to the nationalist projects of the military dictatorship, and to the neoliberalism of twenty-first-century South Korea. Combining translations of seminal essays by Korean scholars on topics ranging from sports to colonial-era serial fiction with new work by scholars based in fields including literary studies, film and media studies, ethnomusicology, and art history, this collection expertly navigates the social and political dynamics that have shaped Korean cultural production over the past century.
