American Knights Series II "Miles Knight: The Patriot" This book is historical and ancestral; Miles Knight, the 5th GGrandfather (circa 1747) of author Lance Knight came to the American Colonies as an indentured servant. His indenture contract was purchased by a gentleman tobacco farmer named John Mead from Connecticut. Mr. Mead ultimately adopted the young, Miles Knight, into the Mead family who had years before adopted an English baby name Mary Ingles. Miles and Mary fell in love and were married in 1771, at which time John Mead gave them a 200 acre farm in

North Carolina, as a wedding present. He also gave them a black slave by the name of Big Boy. Miles immediately freed Big Boy and asked him to come south with them to North Carolina where they created a fine plantation from the acreage. American and ancestral history is woven into this fictional account of the life and times of Miles and Mary Knight. The tapestry reveals the kinds of lives colonial Americans experienced as they were suffering high taxes and other excesses at the hands of the British. Even though much of the American citizenry was sparsely populated in remote farms and villages, the siren call of American Patriots grew louder and they resisted more violently the aggression of the British Army and Navy. The Americans who were loyal (Loyalists) to the Crown were ostracized and hated by the Patriots as traitors because they worked and fought on the side of England. So even with the success Miles, Mary and Big Boy had with the new farm/plantation, they were being inexorably drawn into the conflict. John Mead became Brigadier General John Mead per appointment by Thomas Jefferson. Miles was inducted in the 10th North Carolina Regiment of the Continental Army by John Mead. The reader will experience the mystery, the fighting, the indecision and the joys of these young American Knights as they firmly plant their lives into the soil and the pride of the American fight for freedom and independence from a repressive, domineering, occupying force called the British Empire.

The Knights of the Blazing Sun are a noble and venerable order of templars dedicated to the warrior-goddess Myrmidia. As northern savages lay siege to

Laura Knight-Jadczyk's series, *The Secret History of the World*, is one of the most ambitious projects ever undertaken to provide a cogent, comprehensive account of humanity's true history and place in the cosmos. Following the great unifying vision of the Stoic Posidonius, Laura weaves together the study of history, mythology, religion, psychology and physics, revealing a view of the world that is both rational and breathtaking in its all-encompassing scope. This second volume, *Comets and the Horns of Moses*, (written in concert with several following volumes soon to be released) picks up the dangling threads of volume one with an analysis of the Biblical character of Moses -- his possible true history and nature -- and the cyclical nature of cosmic catastrophes in Earth's history. Laura skillfully tracks the science of comets, revealing evidence for the fundamentally electrical and electromagnetic nature of these celestial bodies and how they have repeatedly wreaked havoc and destruction on our planet over the course of human history. Even more startling however, is the evidence that comets and cometary fragments have played a central role in the formation of human myth and legend and the very concept of a 'god'. As she expertly navigates her way through the labyrinth of history, Laura uncovers the secret knowledge of comets that has been hidden in the great myths, ancient astronomy (and astrology) and the works of the Greek philosophers. Concluding with a look at the political and psychological implications of cyclical cometary catastrophes and what they portend for humanity today, *Comets and the Horns*

of Moses is a marvel of original thought and keen detective work that will rock the foundations of your understanding of the world you live in, and no doubt ruffle the feathers of the many academics who still cling to an outdated and blinkered view of history.

The first chapter, "Their Eyes Were Watching Job," is a collection of stories in an occupational setting or regarding a business transaction. "I Think Yet I Cram" features tales of students and teachers and, more generally, intellectual high jinks.
