Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. *I Know Why the Caged Bird Sings* captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou's debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local "powhitetrash." At eight years old and back at her mother's side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors ("I met and fell in love with William Shakespeare") will allow her to be free instead of imprisoned. Poetic and powerful, *I Know Why the Caged Bird Sings* will touch hearts and change minds for as long as people read. "*I Know Why the Caged Bird Sings* liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity."—James Baldwin From the Paperback edition.

This Medical Spanish Course for Nurses has been taught at the college level since January of 2019. It can be used as a college course, a self-study course, or as an exam preparation course to prepare individuals for the national Spanish for Nurses certification exam found on SCRON.org. Once the textbook is purchased, register for the free online lessons at <https://www.scron.org/register/> and within 24 hours, after verification of purchase, you will be given free access to the online lessons. If you don't receive access within 2 business days, please email [contact@scron.org](mailto:contact@scron.org) with your name and

the date of your purchase, and you will be verified and given access to the online lessons. How Long Does it Take to Complete? On average, it takes individuals 3-5 hours per week for 15 weeks to complete the Spanish for Nurses course. What Level of Spanish is Needed to Take the Course? The course has been created for currently active Nurses as well as those studying to be nurses with little to no knowledge of Spanish. However, individuals who have taken a year or two of Spanish in High School or College will still greatly benefit from the course. How Many Words and Phrases Will I Learn? There are over 350 words and phrases that are contained in the following sections of the medical Spanish for Nurses course: (1) Greetings (2 Chapters)(2) Negotiating a Conversation (1 Chapter)(3) Common Nurse Phrases (2 Chapters)(4) What is Your Name? (1 Chapter)(5) Do you speak English? (2 Chapters)(6) Basic Anatomy and Key Phrases (7 Chapters)(7) Where are you from? (2 Chapters)(8) Medical Verbs and Conversations (6 Chapters)(9) Medical Assessment (2 Chapters)(10) Final Review (1 Chapter) Be sure to "Look Inside" at the left of this product page to learn more about each chapter. How Does the Certification Course Work? There are 150 possible questions on the certification course. The course randomly chooses 100 of the 150 questions. The order, of the questions and answers, is changed every time and it is a timed test. There is not enough time given for learners to look up the questions. They have to know them well before taking the exam or they will not pass. The certification exam costs \$100, but the exam prep course is free with the purchase of this textbook (see above). In the exam prep lessons, a practice exam can be taken unlimited times to prepare for the final exam. The Theories Behind the Course This course was designed based on many pedagogical (learning) and neuroscience (brain science) theories that the author studied in-depth during his Master's degree in Language Pedagogy and throughout his career as Director of the U.S. Institute of Languages. Negotiating a Conversation The approach this course uses recognizes that it takes new Spanish speakers years to become fluent. However, if a nurse learns the medical vocabulary and strategies to properly negotiate a conversation, (s)he can learn to work through virtually any situation in a relatively short period of time. For example, if a patient says something a nurse doesn't understand, the nurse can ask them to repeat it or say it slower. If a nurse doesn't know how to say something, (s)he can point to it and ask ¿Cómo se dice? (How do you say that.) These and many other techniques that are taught to help a nurse work through new situations. Use of Technology The use of technology can be very helpful to get through tricky situations. However, if a nurse only uses technology, this provides a poor patient experience and demonstrates poor bedside manner. Also, if only technology is used, body language and gestures are missed and the meaning can be misinterpreted. It is recommended that the nurse continue learning as much as possible using this course and software, then use technology to fill in the gap. Learn More about the Authors Take a "Look Inside" the textbook (at the left) to learn more.
