

Spectrum Dolch Sight Word Activities Volume 1

Teach your kids to recognise, read and write 136 Dolch sight words with this Dolch sight words workbook. The Dolch sight words in this book are for Grade 3 and above. These words are commonly encountered in any text and they set the foundation for future reading and writing skills. Sight words are taught by reading and writing in this workbook. A child sees the word on the page and says the word while pointing to the word. A child can also say the word and spells out the letters and then practise writing the word on the worksheets provided. By using these techniques they help to activate different parts of the brain. The exercises in this workbook combine repetitions of the word (seeing, hearing, speaking, spelling, and writing) with physical movements that focus the child's attention and reinforce each word into the child's long-term memory. Once, your children can recognise, read and write these words, they can read and spell more fluently to prepare them for school. This workbook contains 136 writing practice pages.

Each book in this series features easy-to-follow instructions and creates an enjoyable reading environment that helps children build vocabulary and reading comprehension skills. All books feature an answer key and a reward certificate.

Miss Miller's class has been complaining about learning math facts and doing math homework. Together with the help of her students' parents, Miss Miller proclaims that they will all go through a whole week without using math. At first, the children are all excited about not having math in their lives. However, they soon discover how difficult everyday life can be without math. They realize how much of an impact math really does have on all areas of their lives. This funny, yet practical story helps to remind children and adults how important math is to the lives of everyone everywhere.
