The salient features of the Fundamentals of Income Tax A.Y 2020-21 Book are: The language of the book is simple. Tables and charts are given wherever considered desirable from the students' point of view. Several new numerical questions (both solved and unsolved) have been added in almost all the chapters. A small type of

illustrations and examples have been given for ticklish points of the law so as to make them easy and self-explanatory for students to understand such points. Summary (or Review at a glance) is given at the end of each Chapter. Following new chapters have been included in the book as per new syllabus: Computation of Tax Liability of Individuals Rebate and Relief of Tax Securities Transaction Tax Women in Science and Technology: Confronting Inequalities comprehensively explores women's status in the Science and Technology (S&T) domain by rigorously analysing and interpreting extensive recent information on major areas such as engineering, medicine, physical sciences, biosciences and mathematics. The book forcefully demonstrates that gender-based differences and expectations play the determining role in limiting women's participation in S&T. These exist in various forms, from making subject choices in school and opting for specific disciplines in college to embracing specific career avenues such as scientific research. This book shows how the construction of gendered identities is perpetuated through a masculine culture in the informal environment of elite educational institutes and in major S&T workplaces such as academia and research laboratories, which serve together to exclude women from peer groups and opportunities for advancement. The book makes substantive recommendations for policy measures on college admissions, improvement of

institutional and organizational environments, and recruitment and capacity building for women in S&T. It calls for substantially reducing the myriad societal and familial barriers through cooperation and understanding.

This anthology is intended to show how English language can be taught through English literature.

Are there existing alternatives to corporate globalization? What are the prospects for and commonalities between communities and movements such as Occupy, the World Social Forum and alternative economies? Globalization Development and Social Justice advances the proposition that another globalization is not only possible, but already exists. It demonstrates that there are multiple pathways towards development with social justice and argues that enabling propositional agency, rather than oppositional agency such as resistance, is a more effective alternative to neoliberal globalization. El Khoury develops a theory of infraglobalization that emphasizes creative constitution, not just contestation, of global and local processes. The book features case studies and examples of diverse economic practice and innovative emergent political forms from the Global South and North. These case studies are located in the informal social

economy and community development, as well as everyday practices, from prefigurative politics to community cooperatives and participatory planning. This book makes an important contribution to debates about the prospects for, and practices of, a transformative grassroots globalization, and to critical debates about globalization and development strategies. It will be of interest to students and scholars of international relations, globalization, social movement studies, political and economic geography, sociology, anthropology and development studies.

This book showcases various ways in which digital archives allow for new approaches

to journalism history. The chapters in this book were selected based on three overall objectives: 1) research that highlights specific concerns within journalism history through digital archives; 2) discussions of digital methodologies, as well as specific applications, that are accessible for journalism scholars with no prior experiences with such approaches; and 3) that journalism history and digital archives are connected in other ways than through specific methods, i.e., that the connection raises larger questions of historiography and power. The contributions address cases and developments in Asia, South and North America and Europe; and range from long-range, big-data, machine-learning and topic modelling studies of journalistic characteristics and meta-journalistic discourses to critiques of archival practices and access in relation to gender, social movements and poverty. The chapters in this book were originally published as a special issue of Digital Journalism.

Intellectual Disability (ID) describes a lifelong condition of heterogeneous aetiology, associated with the impairment of intellectual functioning (IQ

The volume revolves around the theme 'inclusive oppositions' in social sciences that address the issue of making of distinctions and create artificial dichotomies and dualistic view of society. It is set against the currents of systematic reduction of anthropodiversity and psychodiversity, which appears as a pathology of the current neo-liberalist and colonialist model of development. The volume is an attempt to overcome the colonial tendencies and forces to 'standardize' and 'homogenize' various

categories and institutions in society by establishing structural relationality and intersectionality between the parts of the whole ecosystem where in the human and non-human intersect and interact. The volume brings together a unique collaboration in the field of Cultural Psychology and offers the intellectual tools to grasp how a syncretic understanding of Identity and Culture unfolds, particularly in the key domain of gender. The chapters and commentaries uncover cultural dynamics and identity formation from a specific location, the region of Kerala in south-western India. The chapters and commentaries in this volume illustrates that Kerala is a cultural micro-cosmos, in which gender, identity, religion, ethnicity, caste, global market and tradition intersect to create complex and multiple subjects that do not fit in binary categorizations. The compiled volume will be of great value to scholars, researchers and academicians in Social Sciences, particularly Cultural Psychology, Social Psychology, Sociology, Social Work, Political Science, Philosophy, Anthropology and Economics.

The Zen of Love is a love letter that awakens the infinite unconditional love that lies deep within your heart. It will heal and transform all your relationships, especially the one you have with yourself. Much more than a book, "it is a true living miracle." Relationships can be tricky. But that's because we don't understand the profound power of love that's going on "behind the scenes". Let this book enlighten you and change the way you see relationships, the world and yourself. "The Zen of Love is one of the clearest books ever written on the

fundamentals of spirituality and personal growth." - Michael Mirdad, *Healing the Heart and Soul* "If you're seeking a book about spiritual enlightenment that contains more than just words, you've found it." - J. Steward Dixon, *Blue Collar Enlightenment* "The open-hearted message of love positively beams from every page." - Rosina Wilson, Book Editor

When life presents problems, all a heroine really wants is an answer key to fix them. Shannon Waller lives a paycheck-to-paycheck existence in far north Montana. A missing husband. Not even a pet. Alone. Suddenly life hands her the kind of money she only dreams of—an amount that starts with a B. A move to Ithaca, New York and into a home she inherits plus new friends—what more can she ask for? Private investigator Michael Silver is determined to find out who might want to kill Shannon. While his life seems safe, hers is one ‘accident’ after another, each hurting her worse. When a bullet barely misses Shannon, she and Michael have to discover who, what and why she’s a target for murder. And do it fast before the next attempt succeeds!

In the Global South, indigenous people have been continuously subjected to top-down, and

often violent, processes of post-colonial state and nation building. This book examines the development dilemmas of the indigenous people (adivasis) of the Indian state of Kerala. It explores the different facets of change in their lives and livelihoods in the context of modernisation under different political regimes. As part of the Indian Union, Kerala followed a development approach in tune with the Government of India with regard to indigenous communities. However, within the framework of India's quasi-federal polity, the state of Kerala has been tracing a development path of its own, which has come to be known as the 'Kerala model of development'. Adopting a historical political economic approach, the book locates the adivasi communities in the larger contextual shifts from late colonialism through the post-independence years, and critically analyses the Kerala model of development with particular reference to the adivasis' changing political status and rights to land. It pays special attention to policy dynamics in the neoliberal phase, and the actual practices of decentralisation as a way of including the socially excluded and marginalised. Offering a theoretical elaboration of the interaction between class and indigeneity based on intensive fieldwork in Kerala, the book addresses adivasi development in relation to the general development experience of Kerala, and goes on to relate this particular study to the global context of indigenous people's struggles. It will be of interest to those working in the fields of South Asian Development, Political Economy and South Asian Politics.
