New evidence this year corroborates the rise in world hunger observed in this report last year, sending a warning that more action is needed if we aspire to end

world hunger and malnutrition in all its forms by 2030. Updated estimates show the number of people who suffer from hunger has been growing over the past three years, returning to prevailing levels from almost a decade ago. Although progress continues to be made in reducing child stunting, over 22 percent of children under five years of age are still affected. Other forms of malnutrition are also growing: adult obesity continues to increase in countries irrespective of their income levels, and many countries are coping with multiple forms of malnutrition at the same time – overweight and obesity, as well as anaemia in women, and child stunting and wasting.

In celebration of one of science fiction's most beloved franchises, an updated edition of the acclaimed Ships of the Line hardcover collection. They dared to risk it all in a skiff of reeds or leather, on a ship of wood or steel, knowing the only thing between them and certain death was their ship. To explore, to seek out what lay beyond the close and comfortable, every explorer had to embrace danger. And as they did so, what arose was a mystical bond, a passion for the ships that carried them. From the very first time humans dared to warp the fabric of space, escaping from the ashes of the third World War, they also created

ships. These vessels have become the icons of mankind's desire to rise above the everyday, to seek out and make the unknown known. And these ships that travel the stellar seas have stirred the same passions as the ones that floated in the oceans. While every captain has wished that their starship could be outfitted in the same manner as the sailing ship H.M.S. Beagle—without weapons—that proved untenable. From the start, Starfleet realized that each vessel, due to the limited range of the early warp engines, must be able to stand alone against any attack. Thus arose the idea, taken from the days of wooden sailing ships, that every Starfleet vessel must stand as a ship of the line. Through the actions of their captains and crews, countless starships have taken on that role. Here we remember some of those ships and their heroic crews. In celebration of one of science fiction's most beloved franchises, this updated edition of the acclaimed Ships of the Line hardcover collection now includes dozens of additional images brought together for the first time in book format—spectacular renderings featured in the highly successful Star Trek: Ships of the Line calendar series. With text by Star Trek's own Michael Okuda, the story of each of these valiant starships now comes to life. ™, ®, & © 2014 CBS Studios, Inc. What's Christian about Star Trek? Nothing. That's the way most people see it and

that certainly seems to be the way the franchise is intended. There's no question that the Trek universe is based on a doggedly humanistic worldview and is set in a future time when religion has essentially vanished from Earth. If that's the case, how can there even be a Gospel According to Star Trek? In *The Gospel According to Star Trek*, you'll discover how the continuing voyages of Kirk and company aboard the Enterprise - from the Original Series to *Star Trek Beyond* - tell us more about our human quest for God than you ever imagined. You'll learn how Star Trek creator Gene Roddenberry's own spiritual quest informed the franchise, what he and the series really have to say about God and religion, and the amazing image of Christ contained in Star Trek's most popular character. You'll also see how Star Trek can help us recover a deeper, more fully human gospel that embraces our humanity instead of denigrating it and echoes the call of both Spock and Christ: 'Live long and prosper!' (John 10:10).

The Oxford Handbook of Cinematic Listening explores the place of cinema in the history of listening. It looks at the ways in which listening to film is situated in textual, spatial, and social practices, and also studies how cinematic modes of listening have extended into other media and everyday experiences. Chapters are structured around six themes. Part I ("Genealogies and Beginnings") considers film sound in light of pre-existing practices such as opera and shadow theatre, and also explores changes in listening taking place at critical junctures in the early history of cinema. Part II ("Locations and Relocations") focuses on specific venues and presentational practices from roadshow movies to contemporary live-score screenings. Part III ("Representations and Re-Presentations") zooms into the formal properties of specific films, analyzing representations of listening on screen as well as the role of sound as a representational surplus. Part IV ("The Listening Body") focuses on the power of cinematic sound to engage the full body sensorium. Part V ("Listening Again") discusses a range of ways in which film sound is encountered and reinterpreted outside the cinema, whether through ancillary materials such as songs and soundtrack albums, or in experimental conditions and pedagogical contexts. Part VI ("Across Media") compares cinema with the listening protocols of TV series and music video, promenade theatre and personal stereos, video games and Virtual Reality.

Hallelujah, it's a book! After proving itself to be the "funniest calendar of the year" (according to Gene Shalit), "irresistible" (USA Weekend), and "habit-forming" (Maxim magazine), the Nuns Having Fun calendar has inspired Nuns Having Fun, a book of endearing nuttiness. Catholic kitsch doesn't get any funnier. Written by Maureen Kelly and Jeffrey Stone, pitch-perfect co-authors of the nuns calendar and the New York Times bestseller Growing Up Catholic, Nuns Having Fun features hundreds of sisters in full habit, cutting loose and having a hoot. Here are nuns in the surf ("This is even more fun than walking on water"), nuns in bumper cars ("We brake for Jesus"), nuns in a beer hall ("Ale Marys"), and nuns in the museum, huddled in front of a study of nudes ("It's okay to open your eyes. Sister Wendy says it's art"). There are nuns on skates, at bat, at the theater, skeet shooting (nuns with guns!), even hitting the slots (you know it's for a good cause). The 125 images are from the 1950s and '60s, black-and-white and

possessing a pure retro charm; the written material is all-new. Drawing on their years as parochial school students, the authors explore the lore and legends surrounding nuns, including Favorite Punishments from Nuns, Nuns Say the Darndest Things, How to Recognize a Nun After Vatican II, a Wimple Watch, and List of People Who Could Have Been Nuns. As Sister says, "To err is human. To laugh is divine."

Eleven-year-old Isabella's blended family is more divided than ever in this "timely but genuine" (*Publishers Weekly*) story about divorce and racial identity

from the award-winning and New York Times bestselling author of *Out of My Mind*, Sharon M. Draper. Eleven-year-old Isabella's parents are divorced, so she has to switch lives every week: One week she's Isabella with her dad, his girlfriend Anastasia, and her son Darren living in a fancy house where they are one of the only black families in the neighborhood. The next week she's Izzy with her mom and her boyfriend John-Mark in a small, not-so-fancy house that she loves. Because of this, Isabella has always felt pulled between two worlds. And now that her parents are divorced, it seems their fights are even worse, and they're always about HER. Isabella feels completely stuck in the middle, split and divided between them more than ever. And she is beginning to realize that being split between Mom and Dad involves more than switching houses, switching nicknames, switching backpacks: it's also about switching identities. Her dad is black, her mom is white, and strangers are always commenting: "You're so exotic!" "You look so unusual." "But what are you really?" She knows what they're really saying: "You don't look like your parents." "You're different." "What race are you really?" And when her parents, who both get engaged at the same time, get in their biggest fight ever, Isabella doesn't just feel divided, she feels ripped in two. What does it mean to be half white or half black? To belong to half mom and half dad? And if you're only seen as half of

this and half of that, how can you ever feel whole? It seems like nothing can bring Isabella's family together again—until the worst thing happens. Isabella and Darren are stopped by the police. A cell phone is mistaken for a gun. And shots are fired.

An original novel set in the universe of Star Trek: Voyager, from the New York Times bestselling author! As the Federation Starship Voyager continues to lead

the Full Circle Fleet in its exploration of the Delta Quadrant, Admiral Kathryn Janeway remains concerned about the Krenim Imperium and its ability to rewrite time to suit its whims. At Captain Chakotay's suggestion, however, she orders the fleet to focus its attention on a unique planet in a binary system, where a new element has been discovered. Several biospheres exist on this otherwise uninhabitable world, each containing different atmospheres and features that argue other sentient beings once resided on the surface. Janeway hopes that digging into an old-fashioned scientific mystery will lift the crews' morale, but she soon realizes that the secrets buried on this world may be part of a much larger puzzle—one that points to the existence of a species whose power to reshape the galaxy might dwarf that of the Krenim. Meanwhile, Lieutenants Nancy Conlon and Harry Kim continue to struggle with the choices related to Conlon's degenerative condition. Full Circle's medical staff discovers a potential solution, but complications will force a fellow officer to confront her people's troubled past and her own future in ways she never imagined...™, ®, & © 2018 CBS Studios, Inc. The Klingon Dictionary is the first comprehensive sourcebook for Klingon language and syntax, including fundamental rules of grammar as well as words and expressions that illustrate the complex nature of Klingon culture. It features a precise pronunciation guide, rules for proper use of affixes and suffixes, and a small phrasebook with Klingon translations for essential expressions such as "Activate the transport beam," "Always trust your instincts," and the ever-popular "Surrender or die!"

Clear all moorings, one-half impulse power and set course for a mare incognitum... A popular culture artifact of the New Frontier/Space Race era, Star Trek is often mistakenly viewed as a Space Western. However, the Western format is not what governs the worldbuilding of Star Trek, which was, after all, also pitched as "Hornblower in space." Star Trek is modeled on the world of the "British Golden Age of Sail" as it is commonly found in the genre of sea fiction. This book re-historicizes and remaps the origins of the franchise and subsequently the entirety of its fictional world--the Star Trek continuum--on an as yet uncharted transatlantic bearing. This warm, beautiful collection captures the awkward, unusual, and utterly adorable antics of William Wegman's famous dogs as puppies. Color photos throughout.
