New York Times Notable Book: "A well-told business yarn . . . A fly-on-the-wall look at how eBay got to be eBay." —Chicago Tribune When Pierre Omidyar launched a clunky website from a spare bedroom over Labor Day weekend of 1995, he wanted to see if he could use the Internet to create a perfect market. He never guessed his old-computer parts and Beanie Baby exchange would revolutionize the world of commerce. In this fascinating book, Adam Cohen, the first journalist ever to get full access to the company, tells the remarkable story of eBay's rise. He describes how eBay built the most passionate community ever to form in cyberspace and forged a business that triumphed over larger, better-funded rivals. And he explores the ever-widening array of enlistees in the eBay revolution, from a stay-at-home mom who had to rent a warehouse for her thriving business selling bubble-wrap on eBay to the young MBA who started eBay Motors (which within months of its launch was on track to sell \$1 billion in cars a year), to collectors nervously bidding thousands of dollars on antique clothing-irons. "Skillfully synthesizes the story of eBay's corporate evolution with profiles of more peripheral figures." —The Washington Post Book World "The definitive history of eBay—a strange and exhilarating tale." —Jeffrey Toobin, New York Times bestselling author of True Crimes and Misdemeanors Explains how to use eBay to start an online business, discussing product acquisition, auction management tools, shipping options, legal issues, and record-keeping.

One of the hardest things to get to grips with when you start out on your Internet marketing career is that money is quite easy to come by if you put your mind to it. As workers we're told from an early age that we must work for our money and that hard work equates to financial reward. Rubbish. Complete and utter rubbish. How long would it take you to raise a thousand dollars now? I've mentioned in previous books how I've seen grown men in tears because they needed a little extra cash and couldn't conceive how they would get it. To them an extra thousand dollars might as well be an extra ten million! So would you have to work overtime for a month or two? Would you have to max out your credit card or go cap in hand to the bank? Listen - a thousand Dollars in small change compared to the money you could make from Internet Marketing and Joint Ventures. I'm going to show you how you can bring in over a thousand Dollars time after time in around 2 days - maybe 2 weeks if you're starting from absolute scratch and need a little preparation work. Please let me explain..... A little while ago I sent an email to an eBay seller. It was a very informal email. It started with the word 'Hiya'

START-UP NATION addresses the trillion dollar question: How is it that Israel-- a country of 7.1 million, only 60 years old, surrounded by enemies, in a constant state of war since its founding, with no natural resources-- produces more start-up companies than large, peaceful, and stable nations like Japan, China, India, Korea, Canada and the UK? With the savvy of foreign policy insiders, Senor and Singer examine the lessons of the country's adversity-driven culture, which flattens hierarchy and elevates informality-- all backed up by government policies focused on innovation. In a world where economies as diverse as Ireland, Singapore and Dubai have tried to re-create the "Israel effect", there are entrepreneurial lessons well worth noting. As America reboots its own economy and can-do spirit, there's never been a better time to look at this remarkable and resilient nation for some impressive, surprising clues.
