With a Map, a Copy of the Record of the Trial, and an Appendix Nomination of Lieutenant General John Gordon, USAF, to be Deputy Director of Central Intelligence Hearing Before the Select Committee on Intelligence of the United States Senate, One Hundred Fifth Congress, First Session ... Wednesday, October 1, 1997 Trial of Lieutenant General John Whitelocke, Commander in Chief of the Expedition Against Buenos Ayres By Court-Martial, Held in Chelsea College, on Thursday, the 28th January, 1808, and Succeeding Days (Classic Reprint) Forgotten Books "The objective of this report is to identify and establish a roadmap on how to do that, and lay the groundwork for transforming how this Nation- from every level of government to the private sector to individual citizens and communities - pursues a real and lasting vision of preparedness. To get there will require significant change to the status quo, to include adjustments to policy, structure, and mindset"--P. 2.

Operation TELIC was the UK's contribution to the Coalition effort to remove Saddam Hussein's regime in Iraq in Spring 2003. This was the UK's largest military operation since the 1990-91 Gulf War, involving the deployment of 46,000 personnel from all three armed services, 19 warships, 15,000 vehicles and 115 aircraft, as well as support from large numbers of Service personnel, civilians and contractors in the UK and elsewhere. Following on from a National Audit Office report (HCP 60, session 2003-04; ISBN 0102926565) published in December 2003, the Committee's report focuses on four main issues: the Ministry of Defence's ability to deploy forces at short notice; logistics and shortages of equipment at the front line; the consignment tracking system; and the Department's process of identifying and implementing lessons. Findings include i) that front line equipment shortages, such as lack of combat body armour and nuclear, biological and chemical detection/protection equipment, exposed troops to increased risks; ii) despite significant investment, the MoD still lacks a credible consignment tracking system; iii) the planning and handing over of responsibilities to civilian agencies should have been better managed; and iv) there are fundamental shortcomings in the MoD's ability to learn and act upon lessons from previous experience.

Excerpt from Trial of Lieutenant General John Whitelocke, Commander in Chief of the Expedition Against Buenos Ayres: By Court-Martial, Held in Chelsea College, on Thursday, the 28th January, 1808, and Succeeding Days Though you are met together on the most important occasion the military history of this country has afforded, or ever called for an inquiry into, I shall not long detain you in opening these charges. The subject is too painful for unnecessary prolixity, and the events are too recent and too deeply impressed upon the memory and the feelings of every man, to require a statement that will take up much time in this early part of the proceedings. You are already acainted that the expedition entrusted to the command of General vwhitelocke, which was, in the opinion of. Those that planned it, as more than an adequate force to accomplish its object, (the re duction of Buenos Ayres) has totally failed - failed with the deplorable loss of a large portion of the gallant army em gaged in it; and failed not only in the object of its intention, but ended in the absolute surrender of those valuable ad vantages the valour of the British tr00ps had, under another commander, pre viously acquired in the important pos session of Monte Video. While much has been written about civilian-military teams in Vietnam and, most recently, in Iraq and Afghanistan, the subject has not been addressed in a single, comprehensive publication containing historical context and reflecting a broad diversity of views. It is the intention of the coeditors of Unity of Mission to fill this gap. The authors are convinced that without unity among military and civilian actors, long-term mission success is difficult at best. They believe the essays contained in this volume attest to this assertion. They are also fully aware that civilian-military teams are not a silver bullet. Rather, at best, such teams serve as a useful tool in a more comprehensive security framework. Nevertheless, in an age of budgetary constraints, the need to coordinate military and civilian resources-hard, kinetic, and soft power-is clear. It is the opinion of the coeditors that civilian-military teams are critical to achieving the goals of sustainable peace, stability, and security.

The official monthly record of United States foreign policy.

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

"This two-volume anthology of interviews tells the story of the al-Anbar Awakening and the emergence of al-Anbar Province from the throes of insurgency. It presents the perspectives of both Iraqis (volume two) and Americans (volume one) who ultimately came to work together, in an unlikely alliance of former adversaries, for the stabilization and redevelopment of the province. The collection begins in the 2003-2004 time frame with the rise of the insurgency and concludes with observations from the vintage point of early-to-mid 2009. The anthology demonstrates that there is not one history of the Awakening, but several histories intertwined. It is not a complete collection, but one that provides a broad spectrum of candid, unvarnished perspectives from some of the leading players."--Pref.
