

Stephen Biestys Cross Sections Castle

See inside some of the world's most enormous vehicles in this amazing lift-the-flap book by the award-winning, bestselling illustrator Stephen Biesty. Discover eight monster machines: from the double-decker Airbus to the largest submarine on Earth, and from the planet's most massive dumper truck to the biggest helicopter ever made. Little engineers will love finding out about motors, periscopes, rocket engines and giant propellers in this fact-packed guide. Buckle up for the ride!

This is a portrait of ten real castles in history. Stephen Biesty's illustrations combined with Meredith Hooper's text bring the castles to life by introducing their knights and kitchenmaids, sultans and samurai, soldiers and spies.

From Pytheas the Greek, who sailed to the Arctic Circle without a compass, to Neil Armstrong landing on the moon, here are 14 extraordinary journeys by land, sea and air - each remarkable for the way it was made, for the technology behind it, and for the inspiration it gave to future generations. Storytelling, fold-out cross sections, detailed maps and technical drawings enable readers to experience the excitement of exploration.

A 1978 Caldecott Honor Book The word itself conjures up mystery, romance, intrigue, and grandeur. What could be more perfect for an author/illustrator who has continually stripped away the mystique of architectural structures that have long fascinated modern man? With typical zest and wry sense of humor punctuating his drawings, David Macaulay traces the step-by-step planning and construction of both castle and town.

The cross-sections in this book are based on HMS Victory, which was built in 1765 and fought in the Battle of Trafalgar in 1805. She is moored permanently at Portsmouth and you can visit her.

Each illustration in this book traces a craft or manufacturing process from raw materials through to the finished product. The illustrations make many of the processes self-explanatory, and where further explanation is needed, Chester the Tester and Q provide the answers, along with the text.

This picture book shows readers what goes on inside 18 of the world's largest buildings and machines. Each illustration is based on the actual plans or architects' drawings so that readers know they are looking inside real structures - not a figment of some artist's imagination. Two of these illustrations are printed on fold-out pages which are a metre wide. Packed around the cross-sections are facts about each diagram which include a medieval castle, a galleon, a coal mine, helicopter, steam train and space shuttle.

Experience the world's most significant battles through bold, easy-to-grasp maps. Covering everything from the battlefields of the ancient world to the bomb-scarred landscapes of World War II and beyond, this ebook includes engrossing maps telling the story of history's most famous battles. Using brand new, in-depth maps and expert analysis, see for yourself how legendary military milestones were won and lost, and how tactics, technology, vision, and luck have all played a part in the outcome of wars throughout history. Additionally, historic paintings, photographs, and objects take you to the heart of the action; profiles introduce famous commanders and military leaders and analyze their achievements; and the impact of groundbreaking weapons and battlefield innovations is revealed. Bursting with lavish illustrations and full of fascinating detail, Battles Map by Map is the ultimate history ebook for map lovers, military history enthusiasts, and armchair generals everywhere.

This children's book explores the innermost workings of some extraordinary buildings and machines. From helicopters to submarines, skyscrapers to coal mines, open up a fascinating world packed with unique and detailed cutaway drawings. Whether it's a Spanish galleon or a medieval castle, each cross-section slice or exploded view reveals what's going on inside. See the people swarming inside the Empire State Building, the workers busy backstage at the
