The craft of Italian salumi, now accessible to the American cook, from the authors of the best-selling Charcuterie.

Michael Ruhlman and Brian Polcyn inspired a revival of artisanal sausage making and bacon curing with their surprise hit, Charcuterie. Now they delve deep into the Italian side of the craft with Salumi, a book that explores and simplifies the recipes and techniques of dry curing meats. As the sources and methods of making our food have become a national discussion, an increasing number of cooks and professional chefs long to learn fundamental methods of preparing meats in the traditional way. Ruhlman and Polcyn give recipes for the eight basic products in Italy's pork salumi repertoire: guanciale, coppa, spalla, lardo, lonza, pancetta, prosciutto, and salami, and they even show us how to butcher a hog in the Italian and American ways. This book provides a thorough understanding of salumi, with 100 recipes and illustrations of the art of ancient methods made modern and new.

First published in 1930, amidst the collapse of socialist ideals and the onset of fascism throughout parts of Europe, Liberal Socialism is a powerful and timely document on the ethics of political action. During his confinement for his anti-fascist beliefs, the Italian political philosopher Carlo Rosselli (1899-1937) wrote this work not only as a critique of fascism, but also as an investigation into the history of Marxism and the need for a liberal reformulation of socialism. In this first English-language edition, Nadia Urbinati highlights both the historical and theoretical importance of Liberal Socialism, which continued to inspire the anti-fascist movement "Giustizia e Liberta." long after Rosselli's assassination by Mussolini's agents, and which outlines a possible rebirth of

the socialist and democratic movements. Rosselli's analysis provides an illuminating interpretation of the ideological crisis of Marxism, in its positivistic version, during the late nineteenth century and exposes the intellectual weakness of revisionist efforts to delineate new versions of Marx's doctrine. He encourages readers to view socialism as an ethical ideal and to consider whether Marxist or liberal methods combine better with socialism to achieve that ideal. Rosselli opts for a liberal socialism that avoids the shortcomings of uncontrolled laissez-faire but favors state intervention to secure public services and social rights. Dominic Robert sta per compiere diciannove anni e, tra qualche mese, dovrà anche affrontare l'Esame di Maturità.

Figlio di genitori separati, non vive la sua condizione come un problema, anzi, con il padre ha un ottimo rapporto, complice, profondo. Ciò che invece rischia di minare il fragile equilibrio della sua età è la matematica e, soprattutto, chi la insegna. Si tratta di un giovane professore che, per i modi particolarmente feroci con cui si relaziona alla classe, viene da tutti soprannominato Pugnale. Dominic ha sempre evitato di cedere alle provocazioni di questo demone vestito di nero, ma una tragica circostanza lo obbliga a un cambiamento. Con la mente affollata di nuove e urgenti domande capisce che una, su tutte, s'impone e pretende una risposta. Caduta nel piatto della sua esistenza comincia a scavare dentro di lui e ad agire sulla sua parte oscura. "Sapevo che sarebbero arrivati i dubbi. Arrivano sempre quando stai per chiudere la porta."

This outstanding and highly original study examines the history of collecting in early modern Europe, and describes the myriad treasures, from paintings and antiques to religious relics, that found their way into the private collections and public museums of the time. The author looks at the types of people who formed collections, from the harmless eccentrics to the wily speculators, and examines what they collected and why. He develops a historical anthropology of collecting and sheds new light upon the genesis of the modern museum. Pomian charts the changes in fashion which characterised the world of collecting, arguing that such shifts can be seen as a sign of wider and more profound changes in mentality and can be analysed in terms of a conflict between aesthetic and historical sensibilities. Updated with an emphasis on current issues, this classic casebook emphasizes developments in international law, with expertly edited cases and problems for class discussion. *Cases and Materials on International Law* offers a treatment of the subject for introductory and advanced classes and detailed readings and reference materials for those who wish to pursue topics in depth. The fourth edition enriches every chapter with new information on institutions contributing to the sources and enforcement of international law, including the World Trade Organization, the International Criminal Tribunals for Yugoslavia and Rwanda, the prospective International Criminal Court, and organizations in the fields of law of the sea and arms control. International criminal law now has a chapter of its own, and the casebook gives expanded treatment to human rights,

environmental law, and economic law.

Twenty years ago, noted film scholars Tom Gunning and André Gaudreault introduced the phrase “cinema of attractions” to describe the essential qualities of films made in the medium’s earliest days, those produced between 1895 and 1906. Now, *The Cinema of Attractions Reloaded* critically examines the term and its subsequent wide-ranging use in film studies. The collection opens with a history of the term, tracing the collaboration between Gaudreault and Gunning, the genesis of the term in their attempts to explain the spectacular effects of motion that lay at the heart of early cinema, and the pair’s debts to Sergei Eisenstein and others. This reconstruction is followed by a look at applications of the term to more recent film productions, from the works of the Wachowski brothers to virtual reality and video games. With essays by an impressive collection of international film scholars—and featuring contributions by Gunning and Gaudreault as well—*The Cinema of Attractions Reloaded* will be necessary reading for all scholars of early film and its continuing influence.

And that's how many were now mentally linked to me through a blood bond. Two days. Three valium. Fourteen hours of sleep. That's what it took to realize I wasn't losing my mind as a result of the noise in my own head.

Sixteen. That's how many days have passed since I almost killed Alex. That's how many days I've sat by his bedside, waiting for him to wake up. Dancefilm: Choreography and the Moving Image examines the choreographic in cinema - the way choreographic elements inform cinematic operations in dancefilm. It traces the history of the form from some of its earliest manifestations in the silent film era, through the historic avant-garde, musicals and music videos to contemporary experimental short dancefilms. In so doing it also examines some of the most significant collaborations between dancers, choreographers, and filmmakers. The book also sets out to examine and rethink the parameters of

dancefilm and thereby re-conceive the relations between dance and cinema. Dancefilm is understood as a modality that challenges familiar models of cinematic motion through its relation to the body, movement and time, instigating new categories of filmic performance and creating spectatorial experiences that are grounded in the somatic. Drawing on debates in both film theory (in particular ideas of gesture, the close up, and affect) and dance theory (concepts such as radical phrasing, the gestural anacrusis and somatic intelligence) and bringing these two fields into dialogue, the book argues that the combination of dance and film produces cine-choreographic practices that are specific to the dancefilm form. The book thus presents new models of cinematic movement that are both historically informed and thoroughly interdisciplinary.

A broad survey of the West's extraordinary love affair with Japan. From the moment of the very first contact in the sixteenth century, Japan has always possessed an irresistible fascination for the West. The fascination was if anything increased when Japan closed its borders in 1638, and for over 200 years the only contact was through a small colony of Dutch traders who were permitted to live on the tiny island of Deshima in Nagasaki Bay. After 1858, full

trade was resumed, and a wave of 'Japanomania' swept across Europe and America. The 1862 Great Exhibition in London was the first to display a wide range of Japanese goods in the west. Visited by hundreds of thousands of people, the prints, ceramics and lacquer work became the height of fashion. Christopher Dresser travelled to Japan in 1876 as an agent for Tiffany & Co. He visited 64 potteries and dozens of other manufacturers. Not only did he take photographs home to spread the word there, but he also advised the Japanese how best to export their trade. This two way dialogue offers a rich synthesis of fine art and the decorative arts, as well as popular culture. Lionel Lambourne tells this remarkable story in a fluent and engaging narrative that focuses on the human drama - often amusing but sometimes tragic - of the individual personalities involved in the two-way dialogue between cultures.

Essays on orientalism in American and European cinema

Loie Fuller was the most famous American in Europe throughout the late nineteenth and early twentieth centuries.

Rising from a small-time vaudeville career in the States, she attained international celebrity as a dancer, inventor, impresario, and one of the first women filmmakers in the world.

Fuller befriended royalty and inspired artists such as Mallarmé, Toulouse-Lautrec, Rodin, Sarah Bernhardt, and Isadora Duncan. Today, though, she is remembered mainly as an untutored "pioneer" of modern dance and stage technology, the "electricity fairy" who created a sensation onstage whirling under colored spotlights. But in Rhonda Garelick's *Electric Salome*, Fuller finally receives her due as a major artist whose work helped lay a foundation for all modernist performance to come. The book demonstrates that Fuller was not a mere entertainer or precursor, but an artist of great psychological, emotional, and sexual expressiveness whose work illuminates the centrality of dance to modernism. *Electric Salome* places Fuller in the context of classical and modern ballet, Art Nouveau, Orientalism, surrealism, the birth of cinema, American modern dance, and European drama. It offers detailed close readings of texts and performances, situated within broader historical, cultural, and theoretical frameworks. Accessibly written, the book also recounts the human story of how an obscure, uneducated woman from the dustbowl of the American Midwest moved to Paris, became a star, and lived openly for decades as a lesbian.

Acclaimed film scholar Francesco Casetti situates the cinematic experience within discourses of 20th century modernity. He suggests that film defined a unique gaze not only because it recorded many of the centuries most important events, but also because it determined the manner in which they were received.
