Journey of an American Muslim is an epic journey into the life of the author. It's a biography that is uncompromising in its authenticity and honesty. Muslims and non-Muslims will appreciate its candor as the author shares his experiences in the four phases of his development into his life as a Muslim in America. In this book you will discover: -The major influences that encouraged the Author to study and later become a Muslim. -How the Author transitioned from being a very "zealous" Muslim in the beginning; to discovering "spirituality" while taking more risks in his practice of the Muslim life; to becoming an open minded "truth seeker" who happens to be Muslim. -In candid detail how the Author survived multiple marriages (learning experiences), the loss of two good paying professional jobs, foreclosure of his home and working at Wal-Mart for 3 1/2 years earning what he considers "survival income." Journey of an American Muslim is a personal journey and an odyssey of major proportions for any human being. Muslim or non-Muslim, to have to experience. One wonders how one could survive such a personal drama, financial upheaval and professional setbacks. This author not only experienced the epic journey, but lived to tell about it.

This effortless and unapologetic approach to self-promotion will manage your anxiety and allow you to champion yourself. Does talking about your accomplishments feel scary or icky because you're worried people will think you're "obnoxious"? Does it feel more natural to "put your head down and do the work"? Are you tired of watching the loudest people in your industry get disproportionate praise and rewards? If you answered "yes" to any of the above, you might be self-sabotaging. You need to learn to Brag Better. Meredith Fineman has built a career working with "The Qualified Quiet": smart people who struggle to talk about themselves and thus go underestimated or unrecognized. Now, she shares the surefire and anxiety-proof strategies that have helped her clients effectively communicate their achievements and skillsets to others. Bragging Better doesn't require false bravado, talking over people, or pretending to be more qualified than you are. Instead, Fineman advocates finding quiet confidence in your opinions, abilities, and background, and then turning up the volume. In this book, you will learn the career-changing tools she's developed over the past decade that make bragging feel easy, including: • Get remembered by focusing your personal brand and voice on key adjectives (like "effective, subtle, and edgy") • Practice explaining what you do in simple, sticky terms to earn respect and recognition from the public and people at work. • Eliminate words that undermine your work and find better ones--like your bio saying you're "trying" or "attempting" to do something instead that you ARE doing it. If you're ready to begin Bragging Better--to telling the truth about your accomplishments with grace and confidence--this book is for you.

When Sunshine Patterson loses her Chicago home, job and boyfriend in one day, she

needs a backup plan, fast. Luckily her Aunt Cecily has provided her with the perfect combination living and restaurant space to start over. Even though the building is located in small town Chance Creek, Montana, Sunshine is certain it's only a matter of time before she's back to take the big city by storm. When she arrives in Chance Creek, however, she gets a surprise. Her restaurant space—and apartment—are occupied by a rival to her inheritance: the incredibly sexy, incredibly wrong for her, Cole Linden. Cole's been struggling to save his family's holdings for far too long. The indoor rifle range he inherited from his father barely pays its rent, but it's all that's keeping his other concerns—two apartment houses—afloat. If he was smart, he'd walk away from all of it and start over, but if he does, several dozen of Chance Creek's inhabitants will find themselves without a home. He thought Cecily meant to leave him the range building in her will. Instead she's set him up in a four-month-long competition with her big-city niece to see who will win the place. A niece whose knockout looks are making it damn hard for him to concentrate on the job at hand. Sunshine can't believe she'll have to open a vegan restaurant in a rifle-range waiting room, and she can't believe she'll have to share her apartment with Cole, either. Cole can't believe his friends are falling over themselves to help Sunshine succeed—and get a date with her. Now the competition is getting hot, but the sparks flying between them are even hotter. Can Cole and Sunshine find a way they both can win? This book examines the meaning of work for women in contemporary Indonesia. It takes a broad definition of work in order to interrogate assumptions about work and economic activity, focusing on what women themselves see as their work, which includes not only paid employment, home life and child care, but also activities surrounding ritual, healing and religious life. It analyses the key issues, including the contrasts between 'new' and 'old' forms of work, the relationship between experiences of migration and work, and the ways in which religion – especially Islam - shapes perceptions and practice of work. It discusses women's work in a range of different settings, both rural and urban, and in different locations, covering Sumatra, Bali, Lombok, Java, Sulawesi and Kalimantan. A wide range of types of employment are considered: agricultural labour, industrial work and new forms of work in the tertiary sector such as media and tourism, demonstrating how capitalism, globalization and local culture together produce gendered patterns of work with particular statuses and identities. It address the question of the meaning and valuing of women's 'traditional' work, be it agricultural labour, domestic work or other kinds of reproductive labour, challenging assumptions of women as 'only' mothers and housewives, and demonstrating how women can negotiate new definitions of 'housewife' by mobilizing kinship and village relations to transcend conventional categories such as wage labour and the domestic sphere. Overall, this book is an important study of the meaning of work for women in Indonesia.

When people cannot find good work, can they still find good lives? By investigating this question in the context of South Africa, where only 43 percent of adults are employed,

Christine Jeske invites readers to examine their own assumptions about how work and the good life do or do not coincide. The Laziness Myth challenges the widespread premise that hard work determines success by tracing the titular "laziness myth," a persistent narrative that disguises the systems and structures that produce inequalities while blaming unemployment and other social ills on the so-called laziness of particular class, racial, and ethnic groups. Jeske offers evidence of the laziness myth's harsh consequences, as well as insights into how to challenge it with other South African narratives of a good life. In contexts as diverse as rapping in a library, manufacturing leather shoes, weed-whacking neighbors' yards, negotiating marriage plans, and sharing water taps, the people described in this book will stimulate discussion on creative possibilities for seeking the good life in and out of employment, in South Africa and elsewhere.

A groundbreaking, urgent report from the front lines of "dirty work"—the work that society considers essential but morally compromised. Drone pilots who carry out targeted assassinations. Undocumented immigrants who man the “kill floors” of industrial slaughterhouses. Guards who patrol the wards of the United States’ most violent and abusive prisons. In *Dirty Work*, Eyal Press offers a paradigm-shifting view of the moral landscape of contemporary America through the stories of people who perform society’s most ethically troubling jobs. As Press shows, we are increasingly shielded and distanced from an array of morally questionable activities that other, less privileged people perform in our name. The COVID-19 pandemic has drawn unprecedented attention to essential workers, and to the health and safety risks to which workers in prisons and slaughterhouses are exposed. But *Dirty Work* examines a less familiar set of occupational hazards: psychological and emotional hardships such as stigma, shame, PTSD, and moral injury. These burdens fall disproportionately on low-income workers, undocumented immigrants, women, and people of

color. Illuminating the moving, sometimes harrowing stories of the people doing society's dirty work, and incisively examining the structures of power and complicity that shape their lives, Press reveals fundamental truths about the moral dimensions of work and the hidden costs of inequality in America.

Imagine you learn that your lover has had you erased from their memory and, in a moment of despair, you have your lover erased from your memory too. Imagine that as you lose your recollections of the bad times together, you realise that you don't want to forget them after all. That's the premise for Charlie Kaufman's Oscar-winning script for *Eternal Sunshine of the Spotless Mind*. An instant cult classic, the film's distinctive ambiguity and tangled narrative demands audience engagement and repeated watching. Delving into the central themes of the film, Andrew M. Butler foregrounds its play with genre and audience expectations, its psychoanalytic underpinnings and its debt to Philip K. Dick. Also examining its production processes, Butler explores the against-type casting of Jim Carrey and Kate Winslet in lead roles and the intertwined careers of Kaufman and director Michel Gondry. This special edition features original cover artwork by Patricia Derks.

As the outcome of the third international conference of political economy, the papers in this volume cover a range of topics, related to the conference theme of “labor markets and employment,” from globalization to migration, unionization to policy implementation, and women's labor to child labor and ethnic issues in employment. Despite the wide range they come from, almost all papers draw attention to the radical changes in employment policies and practices around the world, and many of them point to global neoliberalism as the source of this transformation process, one way or another. We believe that revealing the dynamics of this process and putting forward possible alternative policies and practices across the world would provide significant contribution to solving the problems of labor markets and employment, as the papers in this collection attempt to do.
