The Golden Asse, also known as The Metamorphoses of Apuleius, is one of the only remaining Latin novels. It is a great example of a picaresque work.

God delivered Israel from Egyptian bondage to captivate them for Himself. In the arid wilderness He planned to reveal His nature and ways to them, but they drew back. How different are we today? Many confess the Lordship of Jesus and acknowledge His saving power, yet like Israel, they've drawn back. Rather than pursuing His heart they have cleaved to this world's form of worship-the worship of self. As a result we have changed the image of Jesus to be like us. Fire can alter these images. The fire we need is found in the Holiness of God. God is calling us to draw nearer still...to tremble on Mt. Zion...transformed to touch others.

Electrophysiology is one of the finest approaches capable of detecting and analyzing electrical events in the brain. However, like all other experimental approaches, it has its limitations. This book was created to serve as a guide for those endeavoring to understand the function of electrophysiology and its underlying components: neurons, neural systems, and the brain. It introduces and highlights important topics in the field of electrophysiology, while also

extending these topics to practical electrophysiological approaches through the perspective of the two authors. This book is ideal for graduate students or junior postdoctoral fellows interested in starting a journey in synaptic neuroscience.

The Hunchback of Notre-Dame is a French Gothic novel by Victor Hugo published in January 14, 1831. The title refers to the Notre Dame Cathedral in Paris, on which the story is centered. Set in medieval Paris, it tells the story of the beautiful gypsy Esmeralda, condemned as a witch by the tormented archdeacon Claude Frollo, who lusts after her. Quasimodo, the deformed bell ringer of Notre-Dame Cathedral, having fallen in love with the kindhearted Esmeralda, tries to save her by hiding her in the cathedral's tower.

José Rizal has a good claim to being the first Asian nationalist. An extremely talented Malay born a hundred years ago in a small town near Manila, educated partly in the Philippines and partly in Europe, Rizal inspired the Filipinos by his writing and example to make the first nationalist revolution in Asia in 1896. Today the Philippines revere Rizal as their national hero, and they regard his two books, *The Lost Eden* (*Noli Me Tangere*) and *The Subversive* (*El Filibusterismo*) as the gospel of their nationalism. *The Subversive*, first published in 1891, is strikingly timely today. New nations emerging in Africa and Asia are once again in conflict with their former colonial masters, as were the Filipinos with their Spanish rulers

in Rizal's day. The Subversive poses questions about colonialism which are still being asked today: does a "civilizing mission" justify subjection of a people? Should a colony aim at assimilation or independence? If independence, should it be by peaceful evolution or force of arms? Despite the seriousness of its theme, however, The Subversive is more than a political novel. It is a romantic, witty, satirical portrait of Spanish colonial rule in the Philippines at the end of the nineteenth century, written in the tradition of the great adventure romances. The translation by Leon Ma. Guerrero, Philippine ambassador to the Court of St. James, conveys the immediacy of the original, and makes this important work available to a new generation of readers. His translation of The Lost Eden is also available in the Norton Library.

This is a practical hands-on book with clear instructions and lot of code examples. It takes a simple approach, guiding you through different architectural topics using realistic sample projects

Gilgamesh, King of Uruk, and his companion Enkidu are the only heroes to have survived from the ancient literature of Babylon, immortalized in this epic poem that dates back to the 3rd millennium BC. Together they journey to the Spring of Youth, defeat the Bull of Heaven and slay the monster Humbaba. When Enkidu dies, Gilgamesh's grief and fear of death are such that they lead him to undertake a quest for eternal life. A timeless tale of morality, tragedy and pure adventure, The Epic of Gilgamesh is a landmark literary exploration of man's search for immortality.

The extent to which human activity has influenced species extinctions during the recent prehistoric past remains controversial due to other factors such as climatic fluctuations and a general lack of data. However, the Holocene (the geological interval spanning the last 11,500 years from the end of the last glaciation) has witnessed massive levels of extinctions that have continued into the modern historical era, but in a context of only relatively minor climatic fluctuations. This makes a detailed consideration of these extinctions a useful system for investigating the impacts of human activity over time. Holocene Extinctions describes and

analyses the range of global extinction events which have occurred during this key time period, as well as their relationship to both earlier and ongoing species losses. By integrating information from fields as diverse as zoology, ecology, palaeontology, archaeology and geography, and by incorporating data from a broad range of taxonomic groups and ecosystems, this novel text provides a fascinating insight into human impacts on global extinction rates, both past and present. This truly interdisciplinary book is suitable for both graduate students and researchers in these varied fields. It will also be of value and use to policy-makers and conservation professionals since it provides valuable guidance on how to apply lessons from the past to prevent future biodiversity loss and inform modern conservation planning.

Birds of Prey (Mga Ibong Mandaragit) is a story of the valiant fight for justice and social change during and after the Japanese occupation of the Philippines in World War II. Originally written in Tagalog by revered Philippine National Artist in Literature Amado V. Hernandez, and translated to English by Estelita Constantino-Pangilinan, this socio-political novel depicts the oppression of the Filipino people by both the brutal occupiers and their own corrupt leaders, while holding out hope for a vision of an egalitarian society. Inspired by Jose Rizal's novels, it is a sequel to *El Filibusterismo*. Birds of Prey follows Mando Plaridel, the guerrilla warrior who discovers his strength and greater purpose as he searches for and finds the treasure left behind by Rizal's protagonist Simoun. This historical fiction examines one country's past but its message resonates with the real and present struggles in societies around the world.

Routledge is proud to be re-issuing this landmark series in association with the International African Institute. The series, originally published between 1950 and 1977, collected information on the peoples of Africa, using all available sources: archives, memoirs and reports as well as ethnographic research which, in 1945, had only just begun.

Filipino national hero Jose Rizal wrote *The Social Cancer* in Berlin in 1887. Upon his return to his country, he was summoned to the palace by the Governor General because of the subversive ideas his book had inspired in the nation. Rizal wrote of his consequent persecution by the church: "My book made a lot of noise; everywhere, I am asked about it. They wanted to anathematize me ['to excommunicate me'] because of it ... I am considered a German spy, an agent of Bismarck, they say I am a Protestant, a freemason, a sorcerer, a damned soul and evil. It is whispered that I want to draw plans, that I have a foreign passport and that I wander through the streets by night ..."

Mariana Scott, poet and translator of Hofmannsthal, Meyrink, Celan, and others, translates the eight-century Old Saxon *Heliand* into its original meter in this work originally published in 1966. This anonymous masterpiece presents the life of Christ and affords an excellent insight into medieval life.
