

Surviving The Evacuation Book 12 Britains End

The horror of Hurricane Katrina is brought vividly to life in this fictional account of a boy, a dog, and the storm of the century. Barry's family tries to evacuate before Hurricane Katrina hits their home in New Orleans. But when Barry's little sister gets terribly sick, they're forced to stay home and wait out the storm. At first, Katrina doesn't seem to be as bad as predicted. But overnight the levees break, and Barry's world is literally torn apart. He's swept away by the floodwaters, away from his family. Can he survive the storm of the century -- alone?

For good or ill, the future has begun. After the outbreak came the nuclear war. The blasts killed millions. Chaos followed. Most of those unlucky enough not to succumb to starvation and disease joined the ranks of the living dead. Fleeing the impossible nightmare, ten thousand, from nations across the Atlantic seaboard, found refuge on the Welsh island of Anglesey. There, they should have been safe. There, they should have been able to rebuild. There, they were betrayed. Forced to flee once more, a hasty exodus was planned, but those plans were sabotaged. The survivors became scattered across the island of Ireland. Old-world supplies are scarce, hope is running out, and safety is just a memory. The snow has come, and though rain will soon follow, winter has truly begun. In Dundalk, eight hundred survivors have occupied a local college, but the campus is too dispersed to defend. As they scour the snow-covered town for a safe route to the sea, they find signs of long-fled survivors and answers to a question they hadn't asked. In Belfast, the situation is increasingly precarious. There are saboteurs in their midst. As the investigation into their identity slowly progresses, the terrorists continue to plot. Rumours of a mutiny escalate into a riot, while an unseen clock ticks ever closer towards humanity's destruction. Set in Belfast and Dundalk, over three days that change everything.

The outbreak changed everything, but there are some bonds even the undead can't break. It's been six years since Pete Guinn last saw his sister, Corrie. He always hoped to see her again, but feared she was dead. When an elusive billionaire reveals Corrie is living under an assumed name in the Australian outback, Pete unquestioningly jumps at the chance of a reunion. But you can't win the lottery without buying a ticket, and billionaires don't do favours for free. Corrie is in hiding from her old employer, and from the Rosewood Cartel. Now that they've both found her, only a miracle can save the two siblings, and what happens in Manhattan can't be described as miraculous. What begins as a viral outbreak soon turns into an impossible horror. People are infected and die, only to rise up and continue transmitting the infection. Even as the army is mobilised, the virus spreads beyond the borders of the United States. Nowhere is safe from the living dead. As Australia is quarantined, the mining town of Broken Hill becomes a transit hub for the relief effort. Tourists are evacuated while civilians are conscripted, Pete and Corrie among them. Together with a bush pilot, a flying doctor, and an outback cop, the struggle to maintain civilisation begins. Supplies run low. Looting is rampant. Laws are forgotten, especially by the cartel who haven't abandoned their search for Corrie and their quest for revenge. Set in Broken Hill and beyond as the Australian quarantine begins. As this book returns to the beginning of the outbreak, it can be considered a good entry point for readers new to the series.

Newbery Honor author Rodman Philbrick presents a gripping yet poignant novel about a 12-year-old boy and his dog who become trapped in New Orleans during the horrors of Hurricane Katrina. Zane Dupree is a charismatic 12-year-old boy of mixed race visiting a relative in New Orleans when Hurricane Katrina hits. Unexpectedly separated from all family, Zane and his dog experience the terror of Katrina's wind, rain, and horrific flooding. Facing death, they are rescued from an attic air vent by a kind, elderly musician and a scrappy young girl--both African American. The chaos that ensues as storm water drowns the city, shelter and food vanish, and police contribute to a dangerous, frightening atmosphere, creates a page-turning tale that completely engrosses the reader. Based on the facts of the worst hurricane disaster in U.S. history, Philbrick includes the lawlessness and lack of government support during the disaster as well as the generosity and courage of those who risked their lives and safety to help others. Here is an unforgettable novel of heroism in the face of truly challenging circumstances.

It took three weeks to destroy civilisation. It won't be rebuilt in a day. A year after the outbreak, a sharp winter is followed by a sudden thaw. Spring has come early to Nova Scotia, bringing new hope. For the thirteen thousand survivors who've found sanctuary in northern Canada, and for the first time since the apocalypse, extinction isn't imminent. But it looms large in the near future, a legacy of the nuclear war that destroyed civilisation. As the weather improves, some survivors quit the small community. Even more plan their departure. The old-world supplies of food, oil, and ammunition have been consumed. More will have to be grown, drilled, and made. Medicine, paper, clothes: in a few years there will be none left to salvage. If it can't be manufactured, it will have to be forgone. What knowledge can't be preserved will be lost. Humanity's future appears bleak unless more people can be found. Hoping there is some truth in the rumours of a redoubt in Vancouver, an expedition to the Pacific is launched. The journey will be perilous as North America was ground zero for the outbreak, and for the nuclear war. Set in Canada and beyond, as survivors from the Atlantic and Pacific meet. Please note: this book features places and events, and heroes and villains from Life Goes On Books 1-3, the saga of survivors in the Pacific.

From New York Times bestselling author Eleanor Henderson comes a turbulent love story meets harrowing medical mystery: the true story of the author's twenty-year marriage defined by her husband's chronic illness—and a testament to the endurance of love Eleanor met Aaron when she was just a teenager and he was working at a local record store—older, experienced, and irresistibly charming. Escaping the clichés of fleeting young love, their summer romance bloomed into a relationship that survived college and culminated in a marriage and two children. From the outside looking in, their life had all the trappings of what most would consider a success story. But, as in any marriage, things weren't always as they seemed. On top of the typical stresses of parenting, money, and work, there were the untended wounds of depression, addiction, and childhood trauma. And then one day, out of nowhere: a rash appeared on Aaron's arms. Soon, it had morphed into painful lesions covering his body. Eleanor was as baffled as the doctors. There was no obvious diagnosis, let alone a cure. And as years passed and the lesions gave way to Aaron's increasingly disturbed concerns about the source of his sickness, the husband she loved seemed to unravel before her eyes. A new fissure ruptured in their marriage, and new questions piled onto old ones: Where does physical illness end and mental illness begin? Where does one person end and another begin? And how do we exist alongside someone else's suffering? Emotional, intimate, and at times agonizing, *Everything I Have Is Yours* tells the story of a marriage tested by powerful forces outside both partners' control. It's not only a memoir of a wife's tireless quest to heal her husband, but also one that asks just what it means to accept someone as they are.

Anglesey became a refuge for survivors from across the world, but living in the shadow of a decrepit nuclear power station was always a precarious existence. There is only one destination for their final exodus from Britain, but Belfast won't become their new home. There are fewer undead on the island of Ireland, but their numbers still count in the millions. With farming impossible, with the weather worsening, with ammunition exhausted, desperation turns to despair. All seems bleak, but the survivors don't know how truly desperate their situation is. During the chaos that ensued after the calamitous election, they misjudged the evidence. Their true enemy is still among them, and that enemy is about to act. Set nine months after the outbreak, in Britain and the island of Ireland, when humanity is at a crossroads. Either all will survive, or our species will die.

Anita de la Torre never questioned her freedom living in the Dominican Republic. But by her 12th birthday in 1960, most of her relatives have emigrated to the United States, her Tío Toni has disappeared without a trace, and the government's secret police terrorize her remaining family because of their suspected opposition of el Trujillo's dictatorship. Using the strength and courage of her family, Anita must overcome her fears and fly to freedom, leaving all that she once knew behind. From renowned author Julia Alvarez comes an unforgettable story about adolescence, perseverance, and one girl's struggle to be free.

NEW YORK TIMES BESTSELLER • The end of the world was only the beginning. In his internationally bestselling and critically acclaimed novel *The Passage*, Justin Cronin constructed an unforgettable world transformed by a government experiment gone horribly wrong. Now the scope widens and the intensity deepens as the epic story surges forward . . . In the present day, as the man-made apocalypse unfolds, three strangers navigate the chaos. Lila, a doctor and an expectant mother, is so shattered by the spread of violence and infection that she continues to plan for her child's arrival even as society dissolves around her. Kittridge, known to the world as "Last Stand in Denver," has been forced to flee his stronghold and is now on the road, dodging the infected, armed but alone and well aware that a tank of gas will get him only so far. April is a teenager fighting to guide her little brother safely through a landscape of death and ruin. These three will learn that they have not been fully abandoned—and that in connection lies hope, even on the darkest of nights. One hundred years in the future, Amy and the others fight on for humankind's salvation . . . unaware that the rules have changed. The enemy has evolved, and a dark new order has arisen with a vision of the future infinitely more horrifying than man's extinction. If the Twelve are to fall, one of those united to vanquish them will have to pay the ultimate price. A heart-stopping thriller rendered with masterful literary skill, *The Twelve* is a grand and gripping tale of sacrifice and survival. Look for the entire *Passage* trilogy: *THE PASSAGE* | *THE TWELVE* | *THE CITY OF MIRRORS* Praise for *The Twelve* "[A] literary superthriller."—*The New York Times Book Review* "An undeniable and compelling epic . . . a complex narrative of flight and forgiveness, of great suffering and staggering loss, of terrible betrayals and incredible hope."—*Milwaukee Journal Sentinel* "The Twelve is even better than *The Passage*."—*The Plain Dealer* "A compulsive read."—*San Francisco Chronicle* "Gripping . . . When a meteorite lands in Surrey, the locals don't know what to make of it. But as Martians emerge and begin killing bystanders, it quickly becomes clear—England is under attack. Armed soldiers converge on the scene to ward off the invaders, but meanwhile, more Martian cylinders land on Earth, bringing reinforcements. As war breaks out across England, the locals must fight for their lives, but life on Earth will never be the same. This is an unabridged version of one of the first fictional accounts of extraterrestrial invasion. H. G. Wells's military science fiction novel was first published in book form in 1898, and is considered a classic of English literature.

Zombies. The outbreak began in New York. Soon it had spread to the rest of the world. People were attacked, infected, and they died. Then they came back. No one is safe from the undead. As anarchy and civil war took grip across the globe, Britain was quarantined. The British press was nationalised. Martial law, curfews and rationing were implemented. It wasn't enough. An evacuation was planned. The inland towns and cities of the United Kingdom were to be evacuated to defensive enclaves being built around the coast, the Scottish Highlands, and in the Irish Republic. Bill Wright, a Westminster insider and an advisor to a future Prime Minister, broke his leg on the day of the outbreak. Unable to join the evacuation, he watched from his window as the streets filled with refugees. He watched as the streets emptied once more. He watched as they filled up again, this time with the undead. Then the power went out. He is trapped. He is alone. He is running out of food and water. He knows that to reach the safety of the enclaves he will have to venture out into the wasteland that once was England. On that journey he will ultimately discover the horrific truth about the outbreak, a decades old conspiracy, and his unwitting part in it. This is the first volume of his journal. Thirteen-year-old Sam Castine is at summer camp while his mother is in rehab, but when the camp is evacuated ahead of a fast moving wildfire, he makes the mistake of going back for his phone, and finds himself left behind, disoriented, and running for his life, together with a girl, Delphy, from a different camp--finding an old jeep keeps them going, but in the wilds of Maine, there are only logging roads and the deadly crown fire is everywhere.

Large-Scale Evacuation introduces the reader to the steps involved in evacuation modelling for towns and cities, from understanding the hazards that can require large-scale evacuations, through understanding how local officials decide to issue evacuation advisories and households decide whether to comply, to transportation simulation and traffic management strategies. The author team has been recognized internationally for their research and consulting experience in the field of evacuations. Collectively, they have 125 years of experience in evacuation, including more than 140 projects for federal and state agencies. The text explains how to model evacuations that use the road transportation network by combining perspectives from social scientists and transportation engineers, fields that have commonly approached evacuation modelling from distinctly different

perspectives. In doing so, it offers a step-by-step guide through the key questions needed to model an evacuation and its impacts to the evacuation route system as well as evacuation management strategies for influencing demand and expanding capacity. The authors also demonstrate how to simulate the resulting traffic and evacuation management strategies that can be used to facilitate evacuee movement and reduce unnecessary demand. Case studies, which identify key points to analyze in an evacuation plan, discuss evacuation termination and re-entry, and highlight challenges that someone developing an evacuation plan or model should expect, are also included. This textbook will be of interest to researchers, practitioners, and advanced students.

If not us, who? If not now, when? As the much-depleted United Nations meets in Canberra, the scale of the global catastrophe becomes clear. The tsunami left Brisbane a flooded ruin. Vanuatu has disappeared. The Madagascan evacuation has failed. Vancouver has been reduced to a radioactive crater. For as far west as Mozambique, as far to the east as Chile, and as far north as Canada, the world is a catalogue of devastation. From the Atlantic, there has been no news since the early days of the outbreak, four weeks ago. With the satellite networks down, searching for survivors is difficult. With the relief fleets destroyed, rescue is impossible. While the fallout is still settling, the collective minds of the refugees in Australia focus on rebuilding as a distraction from the rising risk of radiation and extinction. Commissioner Tess Qwong has a different duty. She must find those responsible for this ultimate crime against humanity. Her investigation into the failed coup provides the identity of those behind the outbreak and the location of their lab. With her misfit group of Special Forces and civilian conscripts, she heads to Mozambique. There, a New Zealand frigate will take them on into the unknown dangers of the Atlantic. But while they hunt the radioactive seas for the war criminals, below the waves their enemy is hunting for them. From Perth to Panama, from South Africa to South America, from paradise islands to radioactive wastelands, the battle against extinction continues.

NEW YORK TIMES BESTSELLER • The little-known true story of Marie-Madeleine Fourcade, the woman who headed the largest spy network in occupied France during World War II, from the bestselling author of *Citizens of London* and *Last Hope Island* “Brava to Lynne Olson for a biography that should challenge any outdated assumptions about who deserves to be called a hero.”—*The Washington Post* **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR AND THE WASHINGTON POST** In 1941 a thirty-one-year-old Frenchwoman, a young mother born to privilege and known for her beauty and glamour, became the leader of a vast intelligence organization—the only woman to serve as a chef de résistance during the war. Strong-willed, independent, and a lifelong rebel against her country’s conservative, patriarchal society, Marie-Madeleine Fourcade was temperamentally made for the job. Her group’s name was Alliance, but the Gestapo dubbed it Noah’s Ark because its agents used the names of animals as their aliases. The name Marie-Madeleine chose for herself was Hedgehog: a tough little animal, unthreatening in appearance, that, as a colleague of hers put it, “even a lion would hesitate to bite.” No other French spy network lasted as long or supplied as much crucial intelligence—including providing American and British military commanders with a 55-foot-long map of the beaches and roads on which the Allies would land on D-Day—as Alliance. The Gestapo pursued them relentlessly, capturing, torturing, and executing hundreds of its three thousand agents, including Fourcade’s own lover and many of her key spies. Although Fourcade, the mother of two young children, moved her headquarters every few weeks, constantly changing her hair color, clothing, and identity, she was captured twice by the Nazis. Both times she managed to escape—once by slipping naked through the bars of her jail cell—and continued to hold her network together even as it repeatedly threatened to crumble around her. Now, in this dramatic account of the war that split France in two and forced its people to live side by side with their hated German occupiers, Lynne Olson tells the fascinating story of a woman who stood up for her nation, her fellow citizens, and herself. “Fast-paced and impressively researched . . . Olson writes with verve and a historian’s authority. . . . With this gripping tale, Lynne Olson pays [Marie-Madeleine Fourcade] what history has so far denied her. France, slow to confront the stain of Vichy, would do well to finally honor a fighter most of us would want in our foxhole.”—*The New York Times Book Review*

Sixty years ago the world was wrecked during a terrible war. The soil was poisoned. The air became toxic. Billions died. Those who survived took refuge in great towered cities, and began constructing giant colony ships that would enable them to escape the ruined Earth. The work wasn't completed in their lifetime. The seas rose to swamp the diseased land, and lap against the city walls. Their descendants laboured on, and now the first of the spaceships is nearing completion. But these cities aren't dictatorships. An election is scheduled to choose a leader for this last exodus of humanity. With twenty-four hours until voting is due to begin, two workers are murdered. It is the first serious crime in generations, and it is down to the young Constable Ely to solve it. The election must take place. The ships must be launched. Above all, production must come first. "There are no reported outbreaks in the UK or Ireland." That is what the government broadcast. Nilda didn't believe it. Not trusting the authorities, she, and her son, Jay, stay behind when Penrith is evacuated. Vindicated when she learns the extent of the government's betrayal, they search for supplies, but after weeks of rationing, there is little left in the small town in Northern England. Soon, she discovers that there are many other survivors competing for it. Choosing diplomacy over violence, she attempts to forge a community out of a disparate group, but as the number of the undead grow, she realises that they will have to seek sanctuary elsewhere. Abandoned and betrayed, Nilda travels north into Scotland, but death follows her and she discovers that not all those who survived the evacuation have the same motives. Some only want to help. Others only want to help themselves. Whilst the new Mayor of Anglesey has her own agenda, one at odds with Nilda's quest; to find a safe haven for her son. With Nazis bombing London every night, it's time for thirteen-year-old Ken to escape. He suspects his stepmother is glad to see him go, but his dad says he's one of the lucky ones—one of ninety boys and girls to ship out aboard the SS *City of Benares* to safety in Canada. Life aboard the luxury ship is grand—nine-course meals, new friends, and a life far from the bombs, rations, and his stepmum's glare. And after five days at sea, the ship's officers announce that they're out of danger. They're wrong. Late that night, an explosion hurls Ken from his bunk. They've been hit. Torpedoed! The *Benares* is sinking fast. Terrified, Ken scrambles aboard Lifeboat 12 with five other boys. Will they get away? Will they survive? Award-winning author Susan Hood brings this little-known World War II story to life in a riveting novel of courage, hope, and compassion. Based on true events and real people, *Lifeboat 12* is about believing in one another, knowing that only by banding together will we have any chance to survive.

A brilliant satire of mass culture and the numbing effects of technology, *White Noise* tells the story of Jack Gladney, a teacher of Hitler studies at a liberal arts college in Middle America. Jack and his fourth wife, Babbette, bound by their love, fear of death, and four ultramodern offspring, navigate the rocky passages of family life to the background babble of brand-name consumerism. Then a lethal black chemical cloud, unleashed by an industrial accident, floats over their lives, an "airborne toxic event" that is a more urgent and visible version of the white noise engulfing the Gladneys—the radio transmissions, sirens, microwaves, and TV murmurings that constitute the music of American magic and dread.

Would you try to save the world? There is an evil cabal at the heart of government. For years it has bribed, blackmailed, and murdered in pursuit of global domination. In an attempt to destroy it, Tom Clemens rigged the presidential election. His candidate won, but the conspiracy wasn't stopped. Framed for murder, Tom is on the run. Searching for evidence of the cabal's plans, he is in Manhattan when the impossible happens. People attack one another. The victims die. They come back. Zombies. Uncertain who created the outbreak, but knowing it's connected to the conspiracy, Tom flees New York. As law and order breaks down, the undead spread throughout America. Tom searches for the scientist who might be able to stop the outbreak, unaware that the conspirators are searching for him. From *Surviving the Evacuation*, this is the story of Sholto, the beginning of the outbreak, and the people who tried to stop it. Please note: As the President of the United States is a background character, and the presidential election a background event, American English has been used in this book though with some British spellings in deference to the fact that most of *Surviving the Evacuation* takes place in the United Kingdom. A stunning, powerful debut novel set against the backdrop of the Cambodian War, perfect for fans of Chris Cleave and Chimamanda Ngozi Adichie For seven-year-old Raami, the shattering end of childhood begins with the footsteps of her father returning home in the early dawn hours bringing details of the civil war that has overwhelmed the streets of Phnom Penh, Cambodia's capital. Soon the family's world of carefully guarded royal privilege is swept up in the chaos of revolution and forced exodus. Over the next four years, as she endures the deaths of family members, starvation, and brutal forced labour, Raami clings to the only remaining vestige of childhood - the mythical legends and poems told to her by her father. In a climate of systematic violence where memory is sickness and justification for execution, Raami fights for her improbable survival. Displaying the author's extraordinary gift for language, *In the Shadow of the Banyan* is testament to the transcendent power of narrative and a brilliantly wrought tale of human resilience. 'In the Shadow of the Banyan is one of the most extraordinary and beautiful acts of storytelling I have ever encountered' Chris Cleave, author of *The Other Hand* 'Ratner is a fearless writer, and the novel explores important themes such as power, the relationship between love and guilt, and class. Most remarkably, it depicts the lives of characters forced to live in extreme circumstances, and investigates how that changes them. To read *In the Shadow of the Banyan* is to be left with a profound sense of being witness to a tragedy of history' Guardian 'This is an extraordinary debut ... as beautiful as it is heartbreaking' Mail on Sunday

There is always hope. Northern France is a frozen morass of mud and snow across which rampages a horde of the undead, a hundred million strong. That won't stop Chester Carson and his comrades. Seeking a way across the Channel, they make for the coast, unaware that Britain has been abandoned, Belfast is a ruin, and that radiation is seeping into the Irish Sea. If they knew, that wouldn't stop them either. They're on a quest to save their family, their friends, and humanity itself; failure is not an option. As they journey through war-ravaged ports and storm-wrecked beaches, a new truth becomes clear. The flotilla that found refuge on Anglesey wasn't the only group of sea-borne refugees to have survived the outbreak. There are other survivors. Some good, some evil, some just determined to do their duty no matter the cost. Danger lurks along the French and Belgian coasts. So do answers, and hope that humanity now has a future.

Not all people died. Not all gave up hope. The outbreak was in February. By the end of November, Earth has become a hellish wasteland ravaged by the undead. Survivors from across the Atlantic seaboard took refuge on the Welsh island of Anglesey. Beset by dangers from within, they departed to establish a new refuge in Belfast. Not all of them arrived. Six took the last plane on its last flight, but crashed in France. Expecting a sprinting battle through the ruins of Belfast, they packed light. With few weapons and barely any food, their chances of survival are slim. The chances of rescue are slimmer. There was no evacuation in France. No quarantine. No rationing. But there are zombies, and there are people who believe they, alone, are the last survivors of the old-world. So begins a frantic race against the undead, through the snow and storm ravaged ruins of Northern France.

Billions were infected. Nations fell. The evacuation failed. Bill Wright's journey has only one destination, the research facility that created the virus. As he meets other survivors in his struggle across the wasteland to reach it, he discovers that it is not just the undead who need to be feared. This is the second volume of his journal.

Save Australia, Save the World. Three weeks after the outbreak, most nations have collapsed. An ever-increasing number of refugees flee, by boat and air, to the perceived safety of the remote Pacific nations. In Australia, every able body is conscripted, local and newcomer alike. The lucky few are put to work in the new factories, farms, and mines. The unlucky many are given tools for weapons, put aboard cruise-ships and cargo freighters, and returned to the ever-moving frontline. But even though the death toll rises, victory is still within reach. The recordings made in North America by Pete and Corrie Guinn contained more than the siblings realised. The footage from Canada and Michigan is further confirmation the outbreak was no accident. The Canadian scientist, Dr Avalon, can prove it. As Commissioner Tess Qwong takes justice to the increasingly lawless outback, Anna Dodson brings order to the chaos of Parliament House, and Dr Avalon works on a weapon to finally destroy the undead. But no plans can survive the impact of a nuclear bomb. From a lawless natural gas refinery in Queensland to the once golden coast of New South Wales. Behind the barricaded streets of Canberra and in the bunker beneath Parliament House, there is still hope for Australia, the Pacific, the world, as long as the lights remain on.

The classic apocalyptic novel that stunned the world.

Policing Post-Apocalyptic Britain. Strike A Match They called them Artificial Intelligences. Sentient viruses were closer to the truth. They spread throughout the world until every networked circuit was infected. Then they went to war. Millions died in the nuclear holocaust that brought an abrupt end to the AI's brief reign of terror. Billions more succumbed to radiation, starvation, and disease. But millions survived, and they rebuilt. Serious Crimes Twenty years later, a ceremony is being held to mark the first transatlantic broadcast since The Blackout. The Prime Minister of Britain and two of the Presidents of the United States will speak to an audience of nearly ten million people. Not all are celebrating. Crime is on the rise, and power is once again a prize worth murdering for. Ruth Deering, a new graduate from the police academy, doesn't care about ancient history or current affairs. She only joined the force to escape the smog-infested city. Those hopes are dashed when she is assigned to the Serious Crimes Unit, commanded by the disgraced Sergeant Mitchell. Her first case seems like a simple murder, but the investigation uncovers a counterfeiting ring and a conspiracy that threatens to destroy their fragile democracy. Serious Crimes is a transatlantic thriller set in a world of rationing and ruins, democracy and despotism, steam trains and smart phones. This is not the story of how the apocalypse is survived, but of what happens next. (77,000 words). The investigation continues in Counterfeit Conspiracy.

The battle might be lost, but the war isn't over. Once it was home to half a billion people. A year after the nuclear war, Europe is a radioactive, storm-ravaged wasteland through which a hundred million undead inexorably march. In their wake, they leave nothing but ruins. Ahead of them flee those few who managed to survive this long. Chasing them are the dregs of humanity. Once known as the Rosewood Cartel, they kill, loot, and destroy as indiscriminately as the living dead. Hope might be lost, but it could still be found, as can a future for the last remnant of humanity. Those who built a sanctuary on Anglesey, in Dundalk, in Creil are the help that came to others. In this, their darkest hour, but with a new dawn so close, they will not give up. Set in the Faroe Islands, France, Denmark, and elsewhere, the battle has begun, but the war hasn't yet been lost.

Perfect for fans of Hatchet and the I Survived series, this harrowing middle grade debut novel-in-verse from a Pushcart Prize-nominated poet tells the story of a young girl who wakes up one day to find herself utterly alone in her small Colorado town. When twelve-year-old Maddie hatches a scheme for a secret sleepover with her two best friends, she ends up waking up to a nightmare. She's alone—left behind in a town that has been mysteriously evacuated and abandoned. With no one to rely on, no power, and no working phone lines or internet access, Maddie slowly learns to survive on her own. Her only companions are a Rottweiler named George and all the books she can read. After a rough start, Maddie learns to trust her own ingenuity and invents clever ways to survive in a place that has been deserted and forgotten. As months pass, she escapes natural disasters, looters, and wild animals. But Maddie's most formidable enemy is the crushing loneliness she faces every day. Can Maddie's stubborn will to survive carry her through the most frightening experience of her life?

Though the apocalypse has begun, the reckoning is still to come. When Pete Guinn went to Australia to find his missing sister, he left behind the woman he loved. In the city he once called home, panic and chaos arrive long before the living dead. As South Bend burns to the ground, Olivia flees, seeking safety in the remote woods of Michigan. But the backwoods are no safer than the outback, and nowhere is remote enough to escape the horrors of the living dead. With global communications systems fractured, Pete Guinn and his sister, Corrie, are a small part of a large effort to re-establish contact between the forces still fighting the undead. As they journey east across Canada, they instead find the frontline. An army is being formed out of Canadians and refugees from the United States, out of retirees, reservists, and conscripts. Night and day, a war is waged against an enemy that doesn't tire or retreat, ask for quarter or offer it. But victory is in sight. The undead can be defeated. As long as the supply lines are maintained. As long as the ultimate sacrifice is selflessly made again and again. As long as the worst of the apocalypse is behind them. But though the apocalypse has begun, the reckoning is still to come. Set in Canada and the U.S. Midwest, continuing the story of the survivors in the Pacific, which began in Outback Outbreak, No More News is a story of love and war as the apocalypse tears our world apart. A Pulitzer Prize-winning doctor, reporter and author of War Hospital reconstructs five days at Memorial Medical Center after Hurricane Katrina destroyed its generators to reveal how caregivers were forced to

make life-and-death decisions without essential resources. Reprint. A best-selling book. On the NYT list of 10 Best Books of 2013.

In the final days of World War II, Koreans were determined to take back control of their country from the Japanese and end the suffering caused by the Japanese occupation. As an eleven-year-old girl living with her Japanese family in northern Korea, Yoko is suddenly fleeing for her life with her mother and older sister, Ko, trying to escape to Japan, a country Yoko hardly knows. Their journey is terrifying—and remarkable. It's a true story of courage and survival that highlights the plight of individual people in wartime. In the midst of suffering, acts of kindness, as exemplified by a family of Koreans who risk their own lives to help Yoko's brother, are inspiring reminders of the strength and resilience of the human spirit.

* Newbery Honor Book * #1 New York Times Bestseller * Winner of the Schneider Family Book Award * Wall Street Journal Best Children's Books of the Year * New York Public Library's 100 Books for Reading and Sharing An exceptionally moving story of triumph against all odds set during World War II, from the acclaimed author of *Fighting Words*, and for fans of *Fish in a Tree* and *Number the Stars*. Ten-year-old Ada has never left her one-room apartment. Her mother is too humiliated by Ada's twisted foot to let her outside. So when her little brother Jamie is shipped out of London to escape the war, Ada doesn't waste a minute—she sneaks out to join him. So begins a new adventure for Ada, and for Susan Smith, the woman who is forced to take the two kids in. As Ada teaches herself to ride a pony, learns to read, and watches for German spies, she begins to trust Susan—and Susan begins to love Ada and Jamie. But in the end, will their bond be enough to hold them together through wartime? Or will Ada and her brother fall back into the cruel hands of their mother? This masterful work of historical fiction is equal parts adventure and a moving tale of family and identity—a classic in the making. Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new *Suggestions for Further Reading* by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

Billions died during the global civil war that followed the outbreak. Anarchy took grip. Chaos ruled. The world collapsed. In Britain, the evacuation failed. Nowhere was safe from the undead. Four months after the outbreak Bill Wright has found safety in a ruined Abbey in southern England, but he is still alone. All he has for company are the files sent to him by his shadowy contact, Sholto. On those, he believes he has found the origins of the undead, and the vast conspiracy in which he discovers he played an unwitting part. He needs answers, and knows the only place they will be found is at the facility that created the virus. As he journeys through the desolate ruins of a dead civilisation, he meets other survivors. He rescues some, is rescued by others, but ultimately discovers that zombies are not the most deadly threat in an undead wasteland. This is the second volume of his journal. (76,000 words)

As one year ends, and our old world fades into memory, a new future is born. On a frozen archipelago, where it is too cold to farm, a few thousand survivors from across the Atlantic have found a refuge. The arduous process of turning a sanctuary into a home begins once more for these weary travellers who've been chased from Britain, from Ireland, from France and Denmark. But their work is not yet done. The missing Marines cannot be left behind. The French and Ukrainians cannot be abandoned. The cartel can never be forgotten. As soldiers once again become civilians, the dangers of malnutrition replace the everyday spectre of starvation. Potential mutiny supersedes being overrun by the undead. Boredom replaces fear. Slowly, they relax, allowing themselves to enjoy the simple pleasure of music and plays, of weddings and births, of life without the imminent prospect of death. But all is not what it seems in the snowy wastes surrounding their town. While Europe is a zombie-filled radioactive wasteland, there are other continents. Other oceans. Other survivors. Other communities, just like their own, who will fight to keep what they've clawed from the grip of the apocalyptic nightmare. Set in Northern Europe, Eastern Canada, and the tumultuous seas between, as one year ends, and a new civilisation dawns.

The outbreak changed everything, but there are some bonds even the undead can't break. It's been six years since Pete Guinn last saw his sister, Corrie. He always hoped to see her again, but feared she was dead. When an elusive billionaire reveals Corrie is living under an assumed name in the Australian outback, Pete unquestioningly jumps at the chance of a reunion. But you can't win the lottery without buying a ticket, and billionaires don't do favours for free. Corrie is in hiding from her old employer, and from the Rosewood Cartel. Now that they've both found her, only a miracle can save the two siblings, and what happens in Manhattan can't be described as miraculous. What begins as a viral outbreak soon turns into an impossible horror. People are infected and die, only to rise up and continue transmitting the infection. Even as the army is mobilised, the virus spreads beyond the borders of the United States. Nowhere is safe from the living dead. As Australia is quarantined, the mining town of Broken Hill becomes a transit hub for the relief effort. Tourists are evacuated while civilians are conscripted, Pete and Corrie among them. Together with a bush pilot, a flying doctor, and an outback cop, the struggle to maintain civilisation begins. Supplies run low. Looting is rampant. Laws are forgotten, especially by the cartel who haven't abandoned their search for Corrie and their quest for revenge. Set in Broken Hill and beyond as the Australian quarantine begins. As this book returns to the beginning of the outbreak, it can be considered a good entry point for readers new to the series.
