A motorcycle's electrical system can be daunting to even the most adept home mechanic. And yet, the more complex these systems become—and the more important to a motorcycle's function—the more useful, even critical, it will be to know something about them. That's where this book comes in with a user-friendly guide to understanding, diagnosing, and fixing the electrical systems and components that make a bike run . . . or falter. Veteran technician Tracy Martin explains the principles behind motorcycle electrical systems and how they work. He details the various tools, such as multimeters and test lights, that can be used to evaluate and troubleshoot any vehicle's electrical problem. And in several hands-on projects, he takes readers on a guided tour of their vehicle's electrical system, along the way giving clear, step-by-step instructions for diagnosing specific problems.

The Bike, the Brush Up and the Beauty of the Journey is the story of a fun-loving, adventure-seeking motorcyclist who survives a near fatal accident, but sustains a traumatic brain injury and numerous physical injuries. It begins with what perhaps is an eerie prediction of what is to come when her bike fails to start and an ominous sign that she should have stayed in that weekend. Peppered with memories throughout her recovery, she relives thrilling moments on the road, albeit with an ornery riding partner she calls Cowboy. She tolerates their acrimonious relationship because of her deep passion for riding and their mutual sense of adventure. With her life in turmoil, she tries desperately to deal with the losses, including her life as she knew it, and struggles with being on the verge of fifty; unable to let go of the past, move forward, or start over.

This book is an anthology of motorcycle stories. These 50 stories were submitted to me over a 13-year period by a wide range of motorcyclists from all walks of life. These authors tell their own personal stories of what happened to them as they rode their motorcycles. Among these writers are a few professionals who made some of their works available to me early in their careers. They now have books of their own. Some tales are very short, and some are very long. I've tried to mix them up. You may find the stories of some authors grouped together. Each tale was intensively edited to provide a good reader experience. You'll find humor, risk-taking, adventures, poetry, rhyming verse, 2-up excursions, world travelers, stupid tricks on bikes, lessons learned, winter riding perils, hazards while riding, and stories told by returning riders. I wrote five of these stories. Two of my stories relate my experiences on my motorcycle trips. Two stories are fictional children's stories that involve fantasy and motorcycles. The last story is a short fictional tale that describes an alternate world of motorcycles. Got a better original tale? Send it to me for consideration in a possible sequel.

Jerry Jones has gone out on a limb. At the age of 51, he took out a 30-year mortgage to buy a vacant store located in Killington, Vermont, without his wife's approval. Feeling betrayed, Monica, his wife, determines to undermine Jerry's plans in retribution for his thoughtlessness and neglect. Along the way, Monica also toys with the possibility of a sexual fling with a man young enough to be her son. It's another way to hurt Jerry and fulfill what she is beginning to see as a pretty empty life. Clay, the young man, is interested in Sally, another older woman who is seeking to find her own place in life. Clay's Aunt Dora tries to guide her nephew onto the right path while she fights her own fears that someone or some thing is trying to harm her. She also has a deep need to keep a family secret. Successful more than she thought possible, Monica later faces a more challenging prospect than being ignored during a business deal: seeking redemption from Jerry who is succumbing to the ravages of Alzheimer's Disease. Set in eastern Vermont, this story portrays how emotions govern lives, causing individuals to consider adultery, deceit, revenge, and the taking of a life. It all culminates in a nursing home during a special Christmas, where peace is finally found. 'Poster Art' showcases an international collection of graphic design in this continually developing area. From mass-market designs to exclusive, limited-edition works, it explores both the creative inspiration behind the work, as well as looking at the practical considerations. 100 years ago two sister set out to ride across America on motorcycles. They did it to show the US military that they were very capable motorcyclists after they were denied to be motorcycle messengers in WW1. Their names were Adeline and Augusta Van Buren. 100 years later the Sister Centennial Ride took 100 women across america following a similar route New York to San Francisco. This book is in celebration of those riders, the Van Buren sisters, and 100 years of women motorcycle adventurers.

Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.
