the lure of the future and the claims of the past. Having lost virtually everything in the fearsome storm—home, family, first love—Robert Chatham embarks on an odyssey that takes him through the deep South, from the desperation of a refugee camp to the fiery and raucous brothel Hotel Beau-Miel and into the Mississippi hinterland, where he joins a crew hired to clear the swamp and build a dam. Along his journey he encounters piano-playing hustlers, ne'er-do-well Klansmen, well-intentioned whores, and a family of fur trappers, the L'Etangs, whose very existence is threatened by the swamp-clearing around them. The L'Etang brothers are fierce and wild but there is something soft about their cousin Frankie, possibly the only woman capable of penetrating Robert's darkest places and overturning his conviction that he's marked by the devil. Teeming with language that renders both the savage beauty and complex humanity of our shared past, *Southern Cross the Dog* is a tour de force that heralds the arrival of a major new voice in fiction.

This book describes collisions between atoms that have been cooled to extremely low temperatures by optical and evaporative cooling techniques. The author reviews the elements of the quantum theory of scattering, and summarizes the theory and

experimental techniques of optical cooling and trapping. Later chapters describe applications to precision spectroscopy, the determination of atomic properties, control of inelastic collisions by laser fields, and the manipulation of Bose-Einstein condensates (mesoscopic quantum systems). Finally, it reviews the essential properties of these mesoscopic quantum systems and describes the key importance of the scattering length to condensate stability. Descriptions of experiments and theory are included. An indispensable guide for those who thought they knew Dublin well, or who would like to discover the hidden face of the city. Addresses the topic of prostitution and "easy women" in Mexican literature. The figure of the prostitute or sexually liberated woman not only permeates Mexican folk songs and popular movies but stands at the crossroads of its national literary culture. In *Easy Women*, Debra A. Castillo focuses on the prostitute, or the woman perceived as such, in order to ask why this character exerts such a hold on the Mexican imagination.

Combining early twentieth-century novels, current best-selling pulp fiction, and testimonial narratives, Castillo explores how Mexican writers have positioned the "easy woman" in their works. In each example the transgressive woman -- marked by an active sexuality -- serves a crucial narrative function, one that both promotes and challenges myths about women on the continuum of sexual promiscuity. Ending with a discussion based on a series of in-depth interviews with sex workers in Tijuana, Castillo highlights the complexities and ambiguities of these women's professional and personal lives. Bridging Latin American literary and cultural criticism, gender studies, and studies of Mexican society, *Easy Women* provides a sophisticated and groundbreaking examination of the place of the sexually liberated woman in contemporary Mexican culture.

Women Making Shakespeare presents a series of 20-25 short essays that draw on a variety of resources, including interviews with directors, actors, and other performance practitioners, to explore the place (or constitutive absence) of women in the Shakespearean text and in the history of Shakespearean reception - the many ways women, working individually or in communities, have shaped and transformed the reception, performance, and teaching of Shakespeare from the 17th century to the present. The book highlights the essential role Shakespeare's texts have played in the historical development of feminism. Rather than a traditional collection of essays, Women Making Shakespeare brings together materials from diverse resources and uses diverse research methods to create something new and transformative. Among the many women's interactions with Shakespeare to be considered are acting (whether on the professional stage, in film, on lecture tours, or in staged readings), editing, teaching, academic writing, and recycling through adaptations and appropriations (film, novels, poems, plays, visual arts).
