Taboos & Issues: Photocopiable lessons on controversial topics Richard MacAndrew, 2001 'Taboos and Issues' is a photocopiable resource book for teachers. It contains 40 discussion lessons, which give students the opportunity to talk about more controversial issues. The topics covered are those which occur daily on TV and in our newspapers, but which do not normally appear in teaching materials. Each lesson consists of two pages of texts, language work, discussion questions and activities. Table of contents: * Death * Nudity * Politically incorrect jokes * Taboo conversation topics * It should be banned! * Not my type (what do you avoid in a partner?) * Sex for sale * Swearing * Torture * Sexual harassment * Bribery and corruption * Designer babies * Children who kill * Gays and jobs * Animal rights * Marriage - for better or for worse? * Nobody needs a gun * The sale of human organs * AIDS * Telling lies * Abortion * National stereotypes * Cheating on your partner * Are you happy with your body? * Immigration and racism * Changing gender * Is this news? * The right to die * Old enough to be her grandfather! * Big Brother is watching * Anxiety and depression * Gay families * Begging * Compensation culture * Sport and money * Vanity * Legalising drugs * Turning the other cheek * The death penalty * Addictions.

Taboos and Issues Richard MacAndrew, Ron Martínez, 2001-01-01 TABOOS AND ISSUES is the latest in the series of photocopiable Teachers' Resource Books. It provides the opportunity for adults to discuss controversial issues.

Taboo Topics Norman L. Farberow, 1966

Taboo Topics Norman L. Farberow, 2017-07-05 Why is it so hard to investigate taboo topics? A myriad of forces shape and fashion human action, reaction, thought, and feeling, and these are not always well understood. Norman L. Farberow argues that culture itself provides structure for its members, developing in a well-defined way the rules to which they will conform. Such rules find expression not only in written laws and regulations but include, and most often stem from, unwritten folkways, customs, and especially taboos, the subject of this book. The researchers reporting in this volume take no position on the nature of a taboo itself, but concentrate on the difficulty in investigating taboos. As members of society and human beings, they do make judgments and personal investments. Thus, when taboos continue or develop without useful

society-enriching functions or facilitate self-destructive activities, they raise questions about why they persist. Such topics include many areas?some social, such as sex, death, and peace; others more academic, such as parapsychology, graphology, religion, and hypnosis. Peace and the public are included in the discussion because they are emotion-laden areas and powerful and important factors in a shrinking world and expanding universe. Peace, especially, has begun to be looked upon with suspicion?perhaps a real commentary on our times. This probing collection will be sure to interest sociologists, anthropologists, and all other social scientists.

Globalization and Language Teaching David Block,Deborah Cameron,2002-06-01 This book considers the issues globalization raises for second language learning and teaching. Block and Cameron's collection shows how, in an economy based on services and information, the linguistic skills of workers becomes increasingly important. New technologies make possible new kinds of language teaching, and language becomes an economic commodity with a value in the global marketplace. This has implications for how and why people learn languages, and for which languages they learn. Drawing together the various strands of the globalization debate, this rich and varied collection of contributions explores issues such as: *The commodification of language(s) and language skills *The use of new media and new technologies in language learning and teaching *The effects of globalization on the language teaching industry *New forms of power and resistance.

Resilient Therapy Angie Hart,Derek Blincow,Helen Thomas,2007-08-07 Whilst much has been written about the identification of resilience in children and their families, comparatively little has been written about what practitioners can do to support those children and families who need the most pressing help. Resilient Therapy explores a new therapeutic methodology designed to help children and young people find ways to keep positive when living amidst persistent

disadvantage. Using detailed case material from a range of contexts, the authors illustrate how resilient mechanisms work in complex situations, and how resilient therapy works in real-life situations. In addition to work with families, helping welfare organisations achieve greater resilience is also tackled. This book will be essential reading for practitioners working with children, adolescents and their families who wish to help their clients cope with adversity and promote resilience.

Critical Perspectives on Language Teaching Materials John Gray,2013-11-25 This Critical Perspectives on Language Teaching Materials brings together a collection of critical voices on the subject of language teaching materials for use in English, French, Spanish, German and Content and Language Integrated Learning (CLIL) classrooms. It is firmly located within the 'critical turn' in Applied Linguistics and seeks to build on the growing body of work in this vein. Collectively the authors take it as axiomatic that the politics of representation and identity, and issues of ideology and commercialism cannot be neglected in any serious study of language teaching materials. Rather, it sees these issues as central. The book draws on research carried out in the UK, Spain, North America and Brazil, and is aimed at language teachers, teacher educators, students, researchers, materials writers and those working in the materials publishing industry.

Legal English Rupert Haigh,2018-06-14 English is the dominant language of international business relations, and a good working knowledge of the language is essential for today's legal or business professional. Legal English provides a

highly practical approach to the use of English in commercial legal contexts, and covers crucial law terminology and legal concepts. Written with the needs of both students and practitioners in mind, this book is particularly suitable for readers whose first language is not English but need to use English on a regular basis in legal contexts. The book covers both written and oral legal communication in typical legal situations in a straightforward manner. As well as including chapters on grammar and punctuation for legal writing, the book features sections on contract-drafting, language for negotiation, meetings and telephone conversations. This edition contains additional troubleshooting tips for legal writing, guidance on good style, and new sections on writing law essays and applying for legal positions.

Teachers as Course Developers Kathleen Graves, 1996-02-23 Teachers as Course Developers is a book about how language teachers themselves rather than curriculum specialists develop and implement their own courses. It uses a unique case study approach featuring the stories of six teachers who successfully designed their own courses in different settings in Japan, the U.S., and Latin America. The book provides a framework for the processes of course development which any teacher can use in developing his or her own courses. Each chapter highlights a different aspect of the framework based on the particular teacher's approach and examines how the teacher has utilized or departed from the framework in meeting the challenges of a particular situation. Each narrative is followed by a set of tasks and discussion questions. An annotated bibliography is also included.
