In UNLOCK, you will take your knowledge from the beginner and intermediate levels to the next step. The first part of this book will focus on using examples and situations common in the jazz idiom. The first part is designed to assist the reader in understanding where they are - musically - and how they can improve their skills in the jazz idiom. The second part will focus on building technical skill through technical exercises. These exercises are designed to invite the reader to explore and improve the strategies they employ during their improvisations. These exercises are also designed to help the reader find a piece of their musical identities. As an example, you should be able to: Practice exercises to slower or faster tempos; with or without a metronome; and physically on your instrument or away from your instrument. Improve your ability to transpose sequences from a major key to a minor key, or up or down by a set interval. Improve your improvisational skills and technical agility while working on transpositions. As you can see from the above list, one exercise can yield a lot of results and benefits. While the information presented can be a lot at times throughout the book, it's very important to remember to be patient with the exercises and take it slowly at first. Patience is the key to success in this book! STEVE KUJALA(flutist/song-writer/recording artist) My friend and jazz-flutist extraordinaire Sarpay Ozcagatay (aka "SharpEye") has written a long-anticipated and exhaustive treatise on the jazz flute called "Unlock The Jazz Flute, Vol.1" which, in my opinion, should be a must-have book for any aspiring jazz flutist! There are no other books like this

anywhere, and I'm heartened and optimistic that this will serve to widen the hitherto scarce educational literature going forward. (full testimonial is on "Unlock") \_\_\_\_\_ BILL PIERCE Berklee Woodwind

Department Chair, Saxophonist This is a creative and precise methodology that has been developed by gifted flutist Sarpay Ozcagatay. Anyone interested into an insightful approach to modern improvisation should consider this book. Sigfrid Karg-Elert is no strange name to flautists. The Op. 107 was The 30 Caprices for Flute were written specifically for a friend of Karg-Elert's, a flautist bound for service in the war. These short exercises were designed to challenge linear one-staff thinking and in short, keep the friend from becoming bored. They are now a standard set of technical, dynamic, and phrasing exercises for young flute students all over the world. Re-issued from the original authoritative plates of Steingräber Verlag, 1910, originally printed in Leipzig. Reprinted here by Edition Fleury 2013. As with all Edition Fleury publications, blank staff paper and section for teacher notes are present in the back of the book.

To play the flute with a clear and convincing sound depends on the understanding of the physical concepts required to make the instrument sound without using undue force and applying just the right amount of physical help where needed. Edmund Raas has explored and taught these fine-points for over 60 years. Born in Switzerland, he has been influenced by the teachings of Emil Niosi (pupil of the great Georges Barrère), Hugo Haldemann, Jean-Pierre Rampal and Aurèle Nicolet. Besides teaching, he had the opportunity to play solo concerti and act in many chamber music groups including Renaissance and Baroque music on period instruments. From 1977 to 2005 he also acted as first flutist in the Municipal Symphony Orchestra of São Paulo, Brazil. Since his retirement from this orchestra he is pursuing a career as composer.

Teachers and flutists at all levels have praised Nancy Toff's The Flute Book, a unique one-stop guide to the flute and its music. Organized into four main parts--The Instrument, Performance, The Music, and Repertoire Catalog--the book begins with a description of the instrument and its making, offers information on choosing and caring for a flute, sketches a history of the flute, and discusses differences between members of the flute family. In the Performance section, readers learn about breathing, tone, vibrato, articulation, technique, style, performing, and recording. In the extensive analysis of flute literature that follows, Toff places individual pieces in historical context. The book ends with a comprehensive catalog of solo and chamber repertoire, and includes appendices with fingering charts as well as lists of current flute manufacturers, repair shops, sources for flute music and books, and flute clubs and related organizations

worldwide. In this Third Edition, Toff has updated the book to reflect technology's advancements--like new digital recording technology and recordings' more prevalent online availability--over the last decade. She has also accounted for new scholarship on baroque literature; recent developments such as the contrabass flute, quarter-tone flute, and various manufacturing refinements and experiments; consumers' purchase prices for flutes; and a thoroughly updated repertoire catalog and appendices.

A Flute solo with Piano Accompaniment composed by Phillippe Gaubert. This book is a summary of exercises and jazz improvisation lines designed to improve contemporary jazz style techniques. The book is divided in scale, arpeggios, chromatic exercises and jazz lines phrases from Chris Potter. These exercises should be transposed to all twelve (12) tones, so we can achieve perfect coordination. Major, minor and dominant chords, extended to their highest level, scale wise, arpeggios and chromatic passages. There are none signature centers, so all these exercises will be worked accidentally. This project is an extension of my last three methods of improvisation: \* *Improvise Now* \*220 Chromatic Exercises + 1165 Jazz lines phrases \*Herbie Hancock lines voicings and rhythms from transcriptions. \*John Coltrane & Michael Brecker Legacy Ernesto Köhler (1849–1907) was a flautist and composer of over 100 works for the flute. He is well known among flute players for "Flöten-Schule", his popular method for learning the flute, which he developed circa 1880. This collection of Romantic Etudes, Opus 66, is for unaccompanied solo flute.

A solo, for Flute, composed by Phillippe Gaubert.

Indispensable studies for technical proficiency.

The opus 37 of Carl Joachim Andersen is one of the best set of Caprices for Flute. Excellent edition, as with all Fleury Publications, blank staff paper and notes section for teacher annotations are present. First edition 2014.

The scale and arpeggio studies contained in this book represent the very fabric from which most flute music is made. A conscientious daily study of these exercises will not only augment the flutist's technical facility, but also improve his/her abilities in sight-reading and harmonic analysis.

A reference guide to musical instruments.

Musica Poetica provides an unprecedented examination of the development of Baroque musical thought. The initial chapters, which serve as an introduction to the concept and teachings of musical-rhetorical figures, explore Martin Luther's theology of music, the development of the Baroque concept of musica poetica, the idea of the affections in German Baroque music, and that music's use of the principles and devices of rhetoric. Dietrich Bartel then turns to more detailed considerations of the musical-rhetorical figures that were developed in Baroque treatises and publications. After brief biographical sketches of the major theorists, Bartel examines those theorists' interpretation and classification of the figures. The book concludes with a detailed presentation of the musical-rhetorical figures, in which each theorist's definitions are presented in the original language and in parallel English translations. Bartel's clear, detailed analysis of German Baroque musical-rhetorical figures, combined with his careful translations of interpretations of those figures from a wide range of sources, make this book an indispensable introduction and resource for all students of Baroque music.
