"Smart, propulsive and gripping, THE GOD GAME is an ambitious thriller and a terrifying examination of what could--and probably already is--happening in the world of artificial intelligence."—Harlan Coben, #1 New York Times bestselling author of Run Away A technological thriller with an all-too-believable premise, award-winning author Danny Tobey's The God Game follows five teenagers obsessed with an online video game that connects them to their worst impulses and most dangerous desires. They call themselves the Vindicators. Targeted by bullies and pressured by parents, these geeks and gamers rule the computer lab at Turner High School. Wealthy bad boy Peter makes and breaks rules. Vanhi is a punk bassist at odds with her heritage. Kenny's creativity is stifled by a religious home life. Insecure and temperamental, Alex is an outcast among the outcasts. And Charlie, the leader they all depend on, is reeling from the death of his mother, consumed with reckless fury. They each receive an invitation to play The God Game. Created by dark-web coders and maintained by underground hackers, the video game is controlled by a mysterious artificial intelligence that believes it is God. Obey the almighty A.I. and be rewarded. Defiance is punished. Through their phone screens and high-tech glasses, Charlie and his friends see and interact with a fantasy world superimposed over reality. The quests they undertake on behalf of "God" seem harmless at first, but

soon the tasks have them questioning and sacrificing their own morality. High school tormentors get their comeuppance. Parents and teachers are exposed as hypocrites. And the Vindicators' behavior becomes more selfish and self-destructive as they compete against one another for prizes each believes will rescue them from their adolescent existence. But everything they do is being recorded. Hooded and masked thugs are stalking and attacking them. "God" threatens to expose their secrets if they attempt to quit the game. And losing the game means losing their lives. You don't play the Game. The Game plays you....

This book explores the social, political and religious differences among Christians and asks the question: can

Christians be pluralists?

In this re-examination of the roots of the relationship between religion and science, David Hawkin focuses on the concept of autonomy as he explores the question: Is there continuity and compatibility between the autonomy that underlies Christian faith and the role of individual freedom in the technological age? What makes this work particularly valuable is Professor Hawkin's review of the theological, philosophical, political, psychological, and sociological works that have formed our ideas of the nature of both Christianity and modernity — Reimarus, Strauss, Schweitzer, and Bultmann on the quest for the historical Jesus; Bauer and Turner on Christian faith and practice; Machiavelli, Nietzsche, Darwin, Freud, and Marx on our historicity; Gogarten, Cox, and Bonhoeffer who affirm our autonomy in the technological process; Ellul and George who deny it.

This work decodes the key themes, signs and symbols found in Christian art - the Eucharist, the Crucifixion, the Virgin Mary. It also explores the theological and historical background of Christian imagery, from the devotional works of the medieval and Renaissance periods, to the 21st century.

This text fills the need for a clear, informative, helpful and well-written introduction to Christian spirituality.

This study offers a literary analysis and theological evaluation of the Christian themes in the five great novels of Dostoevsky - 'Crime and Punishment', 'The Idiot', 'The Adolescent', 'The Devils' and 'The Brothers Karamazov'. Dostoevsky's ambiguous treatment of religious issues in his literary works strongly differs from the slavophile Orthodoxy of his journalistic writings. In the novels Dostoevsky deals with Christian basic values, which are presented via a unique tension between the fictionality of the Christian characters and the readers' experience of the existential reality of their religious problems. Focuses on the New Testament to present Jesus as a spiritual figure and literary character with ties that span from the creation to the end of time. The essays in this collection reflect on the promises, hopes and fears dominant in the narratives on and realities of doing away with authoritarian regimes. The experiences of post-communist transition are matched with accounts on authoritarian traits present in established constitutional democracies and on authoritarian inclusions preserved in the new regimes in the post-transition phase. The essays combine first-hand insider accounts with interdisciplinary scholarly analysis. The first part of the collection focuses on considerations marking the way out of authoritarian - not restricted to socialist - regimes. The second part centers around experiences and problems which surface following the days of totalitarianism, both in newly emerged

democracies and in well-established constitutional systems. Issues covered range from police practices to the role of the 'people' in post-authoritarian regimes. The dilemma transparent in all essays is whether 'coming out' of authoritarianism is possible at all.

Reluctant criminal. There's a giant target on my back, thanks to the crimes of my dead parents and the gang war my husband initiated. I tried to run, and I failed. Now the only way to save myself is to become what I spent my whole life fighting against. Bloody queen. I'm not the same scared princess that I was when Javier Vega took me captive in my own home. Even if it means teaming up with the man I've hated, loved, and hated again. There's only one way we survive this, and that's together.

Chronic pain is unlike acute pain, it lasts beyond the time necessary for healing and resists normal treatment. No one patient feels pain in the same way and yet in veterinary medicine the patient's gain is generally assessed based on a single standard. There is an increasing focus in veterinary medicine on measuring and resolving pain and suffering. This focus is being

supported by an increased understanding of pain neurophysiology, a greater offering of innovative pharmacological treatments, and consumer demand. This book is written for the veterinary health care professional seeking a greater depth of knowledge in the mechanisms of pain accompanying chronic disease states, and the potential targets for treatment. It goes beyond common protocols by focusing on the latest evidence and our understanding of 'why and how to treat'. It describes and evaluates current physiological and biochemical theories of pain transmission, without losing sight of the practical need for such information. Chronic Pain in Small Animal Medicine provides a foundation for advances in animal care and welfare and is of value to veterinarians in practice and training.

In Christ and the Decree, one of the foremost scholars of Calvinism today expounds the doctrines of Christ and predestination as they were developed by Calvin, Bullinger, Musculus, Vermigli, Beza, Ursinus, Zanchi, Polanus, and Perkins. Muller analyzes the relationship of these two doctrines to each other and to the soteriological structure of the system. Back by demand, this seminal work on the relationship between Calvin and the Calvinists is once again available with a new contextualizing preface by the author. It offers a succinct introduction to the early development of Calvinism/Reformation thought.

The Duke of Wellington: Letters and Correspondence - 1834-1851 For 17 years the duke engaged in a correspondence with a young woman who was bent upon saving his soul. These hitherto unpublished Letters from the Duke of Wellington to Miss J., and the Diary of the latter, have lain for years in a trunk in the attic of a country-house within thirty miles of New York city. Their publication is permitted through the kindness of a friend with whose family Miss J. was remotely connected. The facts with regard to Miss J.'s life and character have been in part obtained through those who knew her personally, but mainly through her own Diary, -a worn volume once handsome, that at the first glance would be taken for a Bible. This book is supplied with a spring-lock. Its hundreds of pages are closely covered with a minute handwriting, and the ink with which they were traced has faded to a yellowish brown, indistinct in places, but never quite undecipherable. The Duke's letters are written in a peculiar, irregular hand, very difficult to read, and becoming more crabbed as he advanced in years. While the spelling is almost invariably correct, the construction of the sentences is often involved, and the punctuation follows no known method. At the time Miss J.'s correspondence with the Duke of Wellington opened, she was a very beautiful woman about twenty years of age. Her parents were from among the smaller English gentry, and in her girlhood she, with her elder

sister, attended one of the best schools in England. Many of her companions were of noble birth, and the associations then formed were continued in later years. Miss J.'s father died while she was little more than a child, and not long after the mother followed. At her death the daughter writes that a vision was vouchsafed to her of the heaven her mother was entering.

Concise yet comprehensive, this one-volume reference examines the history of terrorism in the modern world, including its origins and development, and terrorist acts by groups and individuals from the French Revolution to today. Organized thematically and regionally, it outlines major developments in conflicts that involved terrorism, the history of terrorist groups, key aspects of counterterrorist policy, and specific terrorist incidents. Initial chapters explore terrorism as a social force, and analyze the use of terrorism as a political tool, both historically and in the contemporary world.

Subsequent chapters focus on different parts of the world and consider terrorism as a part of larger disputes. Each chapter begins with a historical introduction and analysis of the topic or region, followed by one or more chronologies that trace events within political and social contexts. A glossary, selected bibliography, and detailed index are also included. This work provides a clear and comprehensive chronology of the Eastern Roman Empire from the foundation of Constantinople in 324 AD to the extinction of the last Byzantine principality in 1461 AD, ultimately shedding light on a once-obscure period of Eastern Mediterranean and Balkan history whose events still resonate in world politics.
