Islamic Empires Justin Marozzi,2019-08-29 'Outstanding, illuminating, compelling ... a riveting read' Peter Frankopan, Sunday Times Islamic civilization was once the envy of the world. From a succession of glittering, cosmopolitan capitals, Islamic empires lorded it over the Middle East, North Africa, Central Asia and swathes of the Indian subcontinent. For centuries the caliphate was both ascendant on the battlefield and triumphant in the battle of ideas, its cities unrivalled powerhouses of artistic grandeur, commercial power, spiritual sanctity and forward-looking thinking. Islamic Empires is a history of this rich and diverse civilization told through its greatest cities over fifteen centuries, from the beginnings of Islam in Mecca in the seventh century to the astonishing rise of Doha in the twenty-first. It dwells on the most remarkable dynasties ever to lead the Muslim world - the Abbasids of Baghdad, the Umayyads of Damascus and Cordoba, the Merinids of Fez, the Ottomans of Istanbul, the Mughals of India and the Safavids of Isfahan - and some of the most charismatic leaders in Muslim history, from Saladin in Cairo and mighty Tamerlane of Samarkand to the poet-prince Babur in his mountain kingdom of Kabul and the irrepressible Maktoum dynasty of Dubai. It focuses on these fifteen cities at some of the defining moments in Islamic history: from the Prophet Mohammed receiving his divine revelations in Mecca and the First Crusade of 1099 to the conquest of Constantinople in 1453 and the phenomenal creation of the merchant republic of Beirut in the nineteenth century.

Baghdad Justin Marozzi,2014-05-29 In Baghdad: City of Peace, City of Blood, celebrated young travelwriter-historian Justin Marozzi gives us a many-layered history of one of the world's truly great cities - both its spectacular golden ages and its terrible disasters 'Justin Marozzi is the most brilliant of the new generation of travelwriter-historians' - Sunday Telegraph Over thirteen centuries, Baghdad has enjoyed both cultural and commercial pre-eminence, boasting artistic and intellectual sophistication and an economy once the envy of the world. It was here, in the time of the Caliphs, that the Thousand and One Nights were set. Yet it has also been a city of great hardships, beset by epidemics, famines, floods, and numerous foreign invasions which have brought terrible bloodshed. This is the history of its storytellers and its tyrants, of its philosophers and conquerors. Here, in the first new history of Baghdad in nearly 80 years, Justin Marozzi brings to life the whole tumultuous history of what was once the greatest capital on earth. Justin Marozzi is a Councillor of the Royal Geographic Society and a Senior Research Fellow at Buckingham University. He has broadcast for BBC Radio Four, and regularly contributes to a wide range of publications, including the Financial Times, for which he has worked in Iraq, Afghanistan and Darfur. His previous books include the bestselling Tamerlane: Sword of Islam, a Sunday Telegraph Book of the Year (2004), and The Man Who Invented History: Travels with Herodotus.

The Rise and Rule of Tamerlane Beatrice Forbes Manz,1999-03-25 The great nomad conqueror Tamerlane rose to power in 1370 in the ruins of the Mongol Empire and led his armies of conquest from Russia to India, from Turkestan to Anatolia. In this, the first full study of an extraordinary person, Beatrice Forbes Manz examines Tamerlane as the founder of a nomad conquest dynasty and as a supremely talented individual, raising many current questions about the mechanisms of state formation, the dynamics of tribal politics, and the relations of tribes to central leadership.

The Way of Herodotus Justin Marozzi,2008-12-09 An intriguing travel history exploring and evoking the world of Herodotus, with abundant commentary on the legacy and spirit of the father of history and the literary art he created.

Lost Enlightenment S. Frederick Starr,2015-06-02 The forgotten story of Central Asia's enlightenment—its rise, fall, and enduring legacy In this sweeping and richly illustrated history, S. Frederick Starr tells the fascinating but largely unknown story of Central Asia's medieval enlightenment through the eventful lives and astonishing accomplishments of its greatest minds—remarkable figures who built a bridge to the modern world. Because nearly all of these figures wrote in Arabic, they were long assumed to have been Arabs. In fact, they were from Central Asia—drawn from the Persianate and Turkic peoples of a region that today extends from Kazakhstan southward through Afghanistan, and from the easternmost province of Iran through Xinjiang, China. Lost Enlightenment recounts how, between the years 800 and 1200, Central Asia led the world in trade and economic development, the size and sophistication of its cities, the refinement of its arts, and, above all, in the advancement of knowledge in many fields. Central Asians achieved signal breakthroughs in astronomy, mathematics,

geology, medicine, chemistry, music, social science, philosophy, and theology, among other subjects. They gave algebra its name, calculated the earth's diameter with unprecedented precision, wrote the books that later defined European medicine, and penned some of the world's greatest poetry. One scholar, working in Afghanistan, even predicted the existence of North and South America—five centuries before Columbus. Rarely in history has a more impressive group of polymaths appeared at one place and time. No wonder that their writings influenced European culture from the time of St. Thomas Aquinas down to the scientific revolution, and had a similarly deep impact in India and much of Asia. *Lost Enlightenment* chronicles this forgotten age of achievement, seeks to explain its rise, and explores the competing theories about the cause of its eventual demise. Informed by the latest scholarship yet written in a lively and accessible style, this is a book that will surprise general readers and specialists alike.

The Mongol Empire John Man, 2014-06-19 Genghis Khan is one of history's immortals: a leader of genius, driven by an inspiring vision for peaceful world rule. Believing he was divinely protected, Genghis united warring clans to create a nation and then an empire that ran across much of Asia. Under his grandson, Kublai Khan, the vision evolved into a more complex religious ideology, justifying further expansion. Kublai doubled the empire's size until, in the late 13th century, he and the rest of Genghis's 'Golden Family' controlled one fifth of the inhabited world. Along the way, he conquered all China, gave the nation the borders it has today, and then, finally, discovered the limits to growth. Genghis's dream of world rule turned out to be a fantasy. And yet, in terms of the sheer scale of the conquests, never has a vision and the character of one man had such an effect on the world. Charting the evolution of this vision, John Man provides a unique account of the Mongol Empire, from young Genghis to old Kublai, from a rejected teenager to the world's most powerful emperor.

The Arab Conquests Justin Marozzi, 2022-05 The story of the Muslim conquests of the 7th and 8th centuries AD, when armies inspired by the new religion of Islam burst out of Arabia to subjugate the Levant, southwest Asia, North Africa and the Iberian peninsula, destroying two great empires in the process. The story of the seventh- and eighth-century Muslim conquests, when armies inspired by the new religion of Islam burst out of Arabia to build the Islamic Empire.

Genghis Khan and the Making of the Modern World Jack Weatherford, 2005-03-22 NEW YORK TIMES BESTSELLER • The startling true history of how one extraordinary man from a remote corner of the world created an empire that led the world into the modern age—by the author featured in *Echoes of the Empire: Beyond Genghis Khan*. The Mongol army led by Genghis Khan subjugated more lands and people in twenty-five years than the Romans did in four hundred. In nearly every country the Mongols conquered, they brought an unprecedented rise in cultural communication, expanded trade, and a blossoming of civilization. Vastly more progressive than his European or Asian counterparts, Genghis Khan abolished torture, granted universal religious freedom, and smashed feudal systems of aristocratic privilege. From the story of his rise through the tribal culture to the explosion of civilization that the Mongol Empire unleashed, this brilliant work of revisionist history is

nothing less than the epic story of how the modern world was made.

South from Barbary Justin Marozzi,2002 An account of Justin Marozzi's 1500-mile journey by camel along the slave-trade routes of the Libyan Sahara. Marozzi and his travelling companion Ned had never travelled in the desert, nor had they ridden camels before embarking on this expedition. Encouraged by a series of idiosyncratic Touareg and Tubbu guides, they learnt the full range of desert survival skills, including how to master their five faithful camels.

Kublai Khan John Man,2012-03-31 In Xanadu did Kubla Khan A stately pleasure dome decree Kublai Khan lives on in the popular imagination thanks to these two lines of poetry by Coleridge. But the true story behind this legend is even more fantastic than the poem would have us believe. He inherited the second largest land empire in history from his grandfather, Genghis Khan. He promptly set about extending this into the biggest empire the world has ever seen, extending his rule from China to Iraq, from Siberia to Afghanistan. His personal domain covered sixty-percent of all Asia, and one-fifth of the world's land area. The West first learnt of this great Khan through the reports of Marco Polo. Kublai had not been born to rule, but had clawed his way to leadership, achieving power only in his 40s. He had inherited Genghis Khan's great dream of world domination. But unlike his grandfather he saw China and not Mongolia as the key to controlling power and turned Genghis' unwieldy empire into a federation. Using China's great wealth, coupled with his shrewd and subtle government, he created an empire that was the greatest since the fall of Rome, and shaped the modern world as we know it today. He gave China its modern-day borders and his legacy is that country's resurgence, and the superpower China of tomorrow.

Tamerlane Roy Stier,2006-09 Tamerlane: The Ultimate Warrior- Map Edition (978-1-892264-20-6) In this Third Edition, little-known fourteenth century Muslim leader who inspired a vast army of Islamic followers to swarm through central and western Asia in a conquering wave, has been captured in the first complete history using narrative form by Roy Stier. Tamerlane, the Ultimate Warrior paints the violent and controversial true story of the swift horseman who threatened much of the Old World, crushing the Ottoman Empire and intimidating kings and emperors. A trail of devastation followed the

ruthless conqueror from Delhi to Baghdad, yet incidents of mercy for his enemies revealed a benign side to Tamerlane. In the pageantry of rulers, Tamerlane found little recognition from the historians of later centuries. Killer? Demonic? or charismatic visionary with a flashing sword and a view of the world united under the banner of Islamic purity? Is there a message for moderns in the story of the military genius who scythed his way through a sizable part of the known world? The readers of this book think so. There are 9 illustrations and photographs, 28 new maps of the ancient world circa 1300 A.D., complete references for researchers, glossary of terms, four appendices, a complete chronology of events, and an index in the 354 page 6 X 9 book. Retail price: \$21.95 plus S/H.

A History of Iran Michael Axworthy, 2016-05-24 The definitive history of Iran, from the ancient Persian empires to today Iran is a land of contradictions. It is an Islamic republic, but one in which only 1.4 percent of the population attend Friday prayers. Iran's religious culture encompasses the most censorious and dogmatic Shi'a Muslim clerics in the world, yet its poetry insistently dwells on the joys of life: wine, beauty, sex. Iranian women are subject to one of the most restrictive dress codes in the Islamic world, but make up nearly 60 percent of the student population of the nation's universities. In *A History of Iran*, acclaimed historian Michael Axworthy chronicles the rich history of this complex nation from the Achaemenid Empire of sixth century BC to the revolution of 1979 to today, including a close look at Iran's ongoing attempts to become a nuclear power. *A History of Iran* offers general readers an essential guide to understanding this volatile nation, which is once again at the center of the world's attention.

Saladin John Man, 2016-04-05 In this authoritative biography, historian John Man brings Saladin and his world to life with vivid detail in a rollicking good story (Justin Marozzi). Saladin remains one of the most iconic figures of his age. As the man who united the Arabs and saved Islam from Christian crusaders in the twelfth century, he is the Islamic world's preeminent hero. A ruthless defender of his faith and brilliant leader, he also possessed qualities that won admiration from his Christian foes. But Saladin is far more than a historical hero. Builder, literary patron, and theologian, he is a man for all times, and a symbol of hope for an Arab world once again divided. Centuries after his death, in cities from Damascus to Cairo and beyond, to the Arabian Peninsula and the Gulf, Saladin continues to be an immensely potent symbol of religious and military resistance to the West. He is central to Arab memories, sensibilities, and the ideal of a unified Islamic state. John Man charts Saladin's rise to power, his struggle to unify the warring factions of his faith, and his battles to retake Jerusalem and expel Christian influence from Arab lands. Saladin explores the life and enduring legacy of this champion of Islam while examining his significance for the world today.
