In the early twentieth century, social banditry was endemic in the countryside near the border between the northern Malaysian state of Kedah and Siam, and some outlaws became local heroes. Cheah Boon Kheng's account of peasant banditry and the society where it flourished draws on colonial records, literary sources and interviews to examine the circumstances that led the Governor, Sir Laurence Guillemard, to call the border area "one of the most lawless and insecure districts" in British Malaya during the 1920s. Considering banditry from the perspective of the peasant community, Cheah concludes that it grew out of lax government, weak policing, the geography of the border region and underdevelopment, and suggests that bandit heroes might be seen as symbols of rural protest. His discussion of the details of rural life in the early twentieth century and the conditions that underlay rural crime provide a unique social

An astonishing variety of theatrical performances may be seen today in the eight countries of Southeast Asia--Burma, Cambodia, Indonesia, Laos, Malaysia, the Philippines, Thailand, and Vietnam. James Brandon spent more than three years observing and interviewing troupe members in these countries. He describes twenty-five of the most important theatrical forms, grouping them according to their origins as folk, court, popular, or Western theatre. He considers the theatre from four perspectives: its origins, its art, its role as a social institution, and its function as a medium of communication and propaganda. Brandon's wide-ranging and lively discussion points out interesting similarities and differences among the countries, and many of his superb photographs are included here.

What is the use of social theory to historians, and of history to social theorists? In clear and energetic prose, a pre-eminent cultural historian here offers a far-reaching response to these deceptively simple questions. In this classic text, now revised and updated in its second edition, Peter Burke reviews afresh the relationship between the fields of history and the social sciences and their tentative convergence in recent decades. Burke first examines what uses historians have made - or might make - of the models, methods, and concepts of the social sciences, and then analyzes some of the intellectual conflicts, such as the opposition between structure and human agency, which are at the heart of the tension between history and social theory. Throughout, he draws from a broad range of cultures and periods to illustrate how history, in turn, has been used to create and validate social theories. This new edition brings the book up to date with the addition of examples and discussions of new topics such as social capital, globalization and post-colonialism. The second edition of *History and Social Theory* will continue to stimulate both students and scholars across a range of disciplines with its challenging assessment of the roles of history and social science today.

Drawing on ethnographic research, *Living Sharia* examines the role of sharia in the sociopolitical processes of contemporary Malaysia. The book traces the contested implementation of Islamic family and criminal laws and sharia economics to provide cultural frameworks for understanding sharia among Muslims and non-Muslims. Timothy Daniels explores how the way people think about sharia is often entangled with notions about race, gender equality, nationhood, liberal pluralism, citizenship, and universal human rights. He reveals that Malaysians ideas about sharia are not isolated from nor always opposed to liberal pluralism and secularism. *Living Sharia* will be of interest to scholars as well as to policy makers, consultants, and professionals working with global NGOs.

First published in 1922, the novel "Sitti Nurbaya: A Love Unrealized," by Marah Rusli, retains the poignancy that made it a modern Indonesian classic. In terms of its social impact in what was then the Dutch East Indies, "Sitti Nurbaya" may be compared to "Uncle Tom's Cabin" in the ante-bellum United States. Even to this day, the issues of injustice and indignities suffered

by women that this novel raised continue to be debated throughout the country. Rich in description, dense with ironic foreboding and the inexorable workings of fate, Sitti Nurbaya is Samsu and "Sitti Nurbaya"'s ill-fated love story. But in their wishes, the reader might also also discern young people's tantalizing dream of what the East Indies society might become, or could become, if only local genius, embodied in a modernizing youth emancipated from stifling traditions, could fuse with European genius in mutual respect and admiration. This too was, of course, a dream never to be realized, and one perhaps which never could have been realized. An approachable and well-researched history of the Malay Peninsula and insular Southeast Asia from its earliest times to the 16th century.

Light of the Sufis introduces the complex and multilayered topic of Sufism, or Islamic mysticism, by concentrating on its expression in the visual arts and offers new insights into the integrative and fluid nature of the Sufi experience that has solicited strong reactions—both negative and positive—in Muslims and non-Muslims alike for several hundred years. Sufism became well established in the 9th to 10th century and reached its height in the 12th to 13th century. From its inception, Sufism recognized the traditions and practices of other faiths and cultures with which it came into contact, adapting and incorporating elements of Greek philosophies, Christian mysticism, Judaism, Zoroastrianism, Manichaeism, and Buddhism. This diversity has been reflected not only in the words and the lives of celebrated Sufi mystics but also in some of the finest literature, music, performance, and visual arts produced in the Islamic world. Lavishly illustrated, this exhibition catalogue presents exceptional works in various media from diverse areas of the Islamic world, including North Africa, Turkey, Iran, and India, and dating from the ninth century to the present.

in the Muslim world because it is a site where many important and controversial issues are explored and debated. Aesthetic expression has become intertwined with politics and religion due to the uprisings of the “Arab Spring,” while, at the same time, Islamist authorities are showing increasingly accommodating and populist attitudes toward popular culture. Not simply a “westernizing” or “secularizing” force, as some have asserted, popular culture now plays a growing role in defining what it means to be Muslim. With well-structured chapters that explain key concepts clearly, *Islam and Popular Culture* addresses new trends and developments that merge popular arts and Islam. Its eighteen case studies by eminent scholars cover a wide range of topics, such as lifestyle, dress, revolutionary street theater, graffiti, popular music, poetry, television drama, visual culture, and dance throughout the Muslim world from Indonesia, Africa, and the Middle East to Europe. The first comprehensive overview of this important subject, *Islam and Popular Culture* offers essential new ways of understanding the diverse religious discourses and pious ethics expressed in popular art productions, the cultural politics of states and movements, and the global flows of popular culture in the Muslim world.

In the 1980s, Egypt witnessed a growing revival of religiosity among large sectors of the population, including artists. Many pious stars retired from art, “repented” from “sinful” activities, and dedicated themselves to worship, preaching, and charity. Their public conversions were influential in spreading piety to the Egyptian upper class during the

1990s, which in turn enabled the development of pious markets for leisure and art, thus facilitating the return of artists as veiled actresses or religiously committed performers. Revisiting the story she began in “A Trade like Any Other”: Female Singers and Dancers in Egypt, Karin van Nieuwkerk draws on extensive fieldwork among performers to offer a unique history of the religious revival in Egypt through the lens of the performing arts. She highlights the narratives of celebrities who retired in the 1980s and early 1990s, including their spiritual journeys and their influence on the “pietization” of their fans, among whom are the wealthy, relatively secular, strata of Egyptian society. Van Nieuwkerk then turns to the emergence of a polemic public sphere in which secularists and Islamists debated Islam, art, and gender in the 1990s. Finally, she analyzes the Islamist project of “art with a mission” and the development of Islamic aesthetics, questioning whether the outcome has been to Islamize popular art or rather to popularize Islam. The result is an intimate thirty-year history of two spheres that have tremendous importance for Egypt—art production and piety.

This major text offers a critical reappraisal of the contemporary practice of cultural studies. It focuses in particular on the contribution of cultural studies to the understanding of media, communications and popular cultures in contemporary societies. The contributors, an outstanding group of internationally acclaimed scholars, examine topics such as: the different strands of cultural studies and how they are developed; whether cultural studies is a coherent discipline; tensions and debates within cultural studies; alternative or related approaches to contemporary media and society; and the movement by cultural studies revisionists towards more empirical and sociological modes of analysis. This anthology celebrates dancing diversities in Malaysia, a multicultural nation with old and not-so-old dance traditions in a synchronicity of history, creativity, inventions and representation of its people, culture and traditions. These articles and interviews document the legacy of dances from the Malay Sultanates to a contemporary remix of old and new dances aspired by a mélange of influences from the old world of India, China, European and indigenous dance traditions. This gives forth dance cultures that vibrate with multicultural dance experiences. Narratives of eclecticism, syncretic and innovative dance forms and styles reflect
